

Technical Specifications for Tubes and Fittings

Department	Measurement -Transmission	Section	Gas Quality Measurement
Description	Stainless Steel Tubes and Fittings		
Spec #	Meas. KT/SS/T&F/2026		

General Specification:

1. Stainless Steel Tube Fitting:

1.1 Port Connector Tube-End Reducers (Fractional) Size 1/8" (T) x 1/16" (TX)

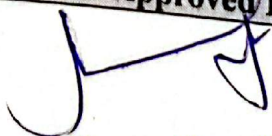

2. Tube Cutter and Bender:

2.1 Tube Cutter 316 material grade for tube size 3/8" OD to 1" OD, having a pressure rating of 3000 psi.

2.2 Tube Cutter of 316 material grade for 1/16" OD, having a pressure rating of 3000 psi.

Compliance and Documentation:

- The supplied products shall conform to applicable international standards such as ASTM or their equivalent.
- The supplier shall provide a technical datasheet clearly demonstrating compliance with all specified requirements.
- The offered products shall be brand new, unused and free from any defects and damage.
- The supplier shall submit a product for evaluation to confirm compliance with the specified technical requirements.
- The supplier/local agent is required to provide a minimum warranty of 3 years for the offered product.
