

REFOCUSING OUR ENERGIES

PRODUCTIVITY

is never an accident.
It is always the result of a

COMMITMENT

to excellence, intelligent planning

and focused effort.

~ Paul J. Meyer

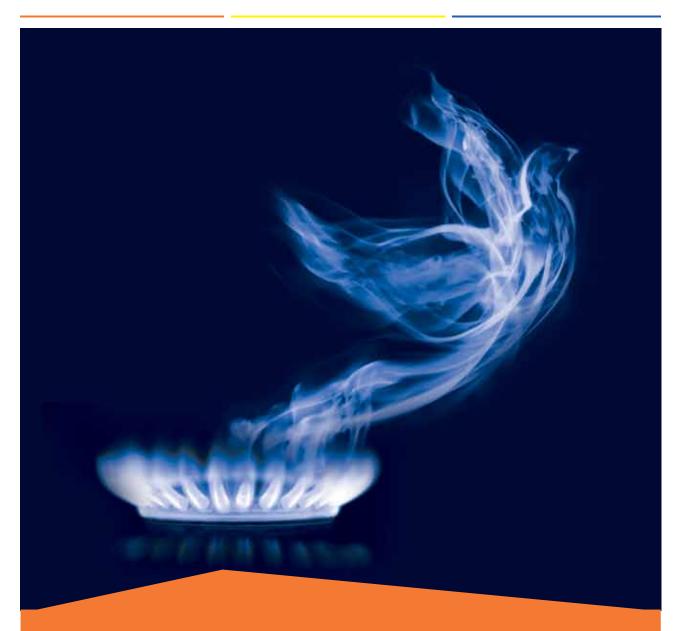

ABOUT THE COVER

Where there is a will, there is a way! Ever the optimists, we at SSGC see an opportunity in every challenge, and it is this attitude that helps us overcome any obstacle that may come in our way. We are never intimidated by challenges but with a clearly defined plan, we move forward towards achieving the set objective. The year under review was a testing time for us. The widening natural gas demand-supply gap and Unaccounted-for-Gas (UFG) continued to be the two major challenges faced by the Company. Yet we ventured on. As we move into the next year, we are already aware of challenges that stand in our way. We have a game plan in place and our human resource is determined to make things happen by channelizing our energies in those areas that require our immediate attention.

VISION and MISSION

VISION

To be a model utility, providing quality service by maintaining a high level of ethical and professional standards and through optimum use of resources.

MISSION

To meet the energy requirements of customers through reliable, environment-friendly and sustainable supply of natural gas, while conducting company business professionally, efficiently, ethically and with responsibility to all our stakeholders, community and the nation.

Core Values

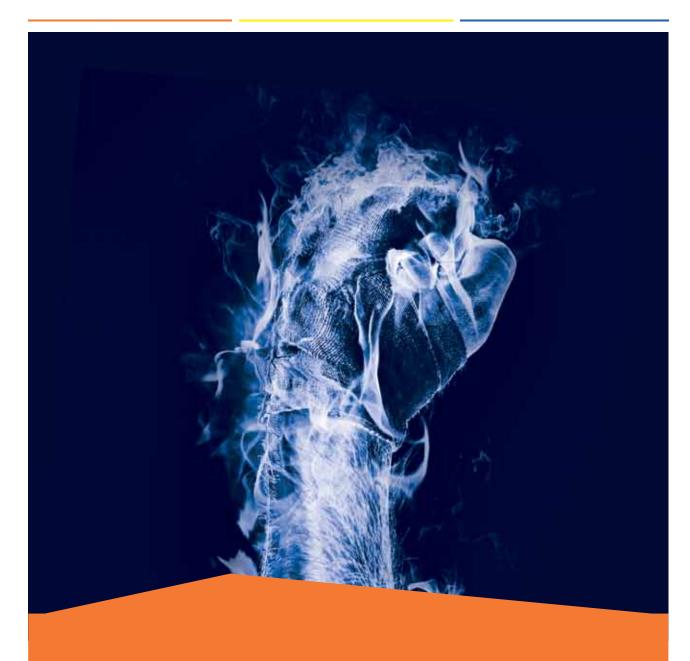

Setting Measurable GOALS

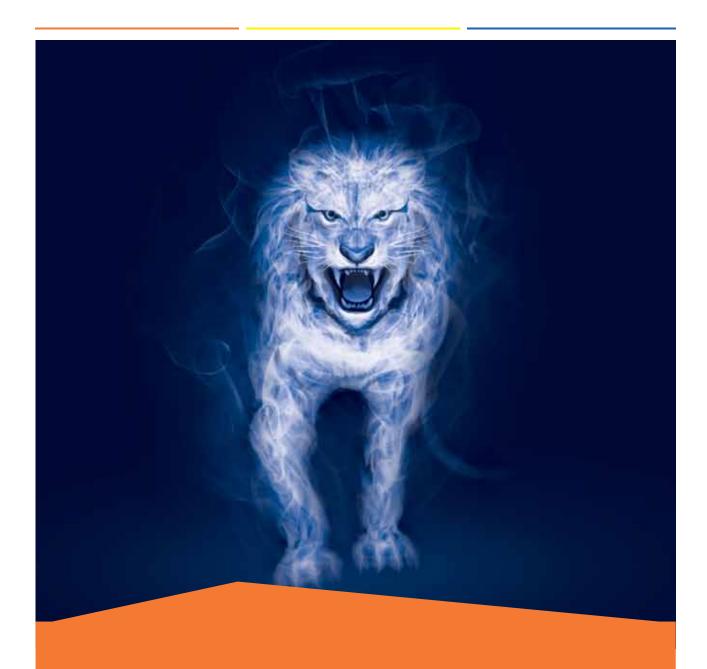

The Company today faces a number of challenges, foremost among them are the issues of Unaccounted-for-Gas (UFG) and widening natural gas demand-supply gap. Instead of being intimidated by these hurdles, there is a commitment and a strong will within the ranks to overcome them.

Banking on Human RESOURCE

In these taxing times, the Company is banking on its human resource, its most valuable asset. Our people's dedication, perseverance, integrity and ownership will surely take the Company forward.

Following an Aggressive APPROACH

The Company Management and the staff are both determined to face up the obstacles that stand in their way, not by taking the normal route but through a dynamic approach that may require taking bold steps.

COMMITTEES OF THE BOARD

As on June 30, 2014

The Board has established four committees namely Audit and Risk Committee, Finance and Procurement Committee, Human Resource and Remuneration Committee and Special Committee of Directors on UFG. The primary function of these committees is to assist the Board in effective and efficient discharge of its functions and to provide feedback on matters containing significant importance for Board working.

The Board has approved Terms of Reference for each of the committees to ensure that the interest of the Company is safeguarded. For an overview, the composition of these committees along with synopsis of their Terms of Reference is given below:

Board HR and Remuneration Committee

The Board HR and Remuneration Committee is composed of the following:

- Mr. Miftah Ismail Chairman
- . Mr. Zuhair Siddiqui Member
- . Mr. Arshad Mirza Member
- . Mr. M. Arif Hameed Member
- Mirza Mahmood Ahmad Member
- Mr. Saleem Zamindar Member

The Terms of Reference of Board HR Committee include the following:

- . To study and evaluate all HR-related issues presented by the Management and formulate concise recommendations for the Board.
- . To review performance of the Managing Director on an annual basis and recommend increment thereof.
- . To review and endorse performance/potential assessment of GMs and SGMs.
- . To review and endorse promotion / demotion and other significant matters pertaining to the assignments of executives in Grade VIII and IX.
- To review recruitment policy and procedure and recommend hiring of executives in Grade VIII and IX. To review and endorse HR plan including but not limited to executive training, development, career planning, potential assessment and succession planning.

Board Finance and Procurement Committee

The Board Finance and Procurement Committee is composed of the following:

- . Ms. Azra Mujtaba Chairperson
- Mirza Mahmood Ahmad Member
- Mr. Zuhair Siddiqui Member (Managing Director)
- . Mr. Aamir Amin Member

The Board Finance and Procurement Committee reviews, provides feedback and takes constructive action in the following areas:

- Corporate objectives and strategies developed by the Management,
- Annual revenue and capital budgets.
- . Additional capital expenditure plans,
- . Authority limits and approval policies of Management,
- Borrowing or financial arrangements,
- Procurement Policies; and
- . Procurement of materials and services exceeding the authority limits of the Management.

Board Audit and Risk Management Committee

The Board Audit and Risk Management Committee is composed of the following:

- Agha Sher Shah Chairman
- . Mr. Arshad Mirza Member
- . Mr. Mobin Saulat Member
- . Nawabzada Riaz Nosherwani Member
- Sardar Rizwan Kehar Member

The Board Audit and Risk Management Committee performs the following functions:

- . Ensures independence of external auditors, reviews the extent of non-audit work undertaken and the fees involved,
- Reviews quarterly, half yearly and annual financial statements of the Company, prior to their approval by the Board of Directors with focus on:

- Major Departmental issues,
- Significant adjustments resulting from the audit,
- The going concern assumption,
- Any changes in accounting policies and practices,
- Compliance with applicable accounting standards,
- Compliance with listing regulations and other statutory and regulatory authorities,
- Compliance with Management control standard Company policies including ethics policy for good corporate governance; and
- Director's Report and any other published information to ensure it is consistent with the financial statements.
- Facilitates the external audit and discusses with the external auditors major observations arising from interim and final audits and any matter that the auditors may wish to highlight (in the absence of the Management, where necessary),
- Reviews Management's letter issued by external auditors and Management's response thereto,
- Ensures coordination between the internal and external auditors of the Company to avoid duplication or incomplete coverage as far as possible,
- Ascertains that the internal control systems including financial and operational controls, accounting system and reporting structure
 are adequate and effective, including risk management and security, and meets or exceeds standards for professional practice,
- Ensures continuing suitability of the organizational structure at all levels,
- Determines appropriate measures to safeguard Company's assets and their performance including post facto review of major investment projects and programs,
- . Reviews the exposure of the Company to risk and any matters that might have a material effect on the Company's fiscal position,
- Reviews the Company's statement on internal control systems prior to endorsement by the Board of Directors,
- Institutes special projects, value for money studies or other investigations on any matter on its own initiative, or if so directed by the Board of Directors, in consultation with the Chief Executive and to consider remittance of any matter to the external auditors or to any external body,
- . Determines compliance with the relevant statutory requirements,
- . Monitors compliance with the best practices of corporate governance and identification of significant violations; and
- . Considers any other issue or matter on its own or as may be assigned by the Board of Directors.

Board Special Committee of Directors on UFG

The Board Special Committee of Directors on UFG is composed of the following:

- . Sardar Rizwan Kehar Chairman
- Mr. Zuhair Siddigui Member (Managing Director)
- Agha Sher Shah Member
- . Mr. M. Arif Hameed Member
- Mirza Mahmood Ahmad Member
- . Nawabzada Riaz Nosherwani Member
- Mr. Saleem Zamindar Member

UFG Committee assists the Board in effective monitoring and control of Unaccounted-for-Gas (UFG) / gas losses. The Committee performs the following functions:

- Holding regular meetings to review, provide feedback, make recommendations and take actions out of information / data presented,
- Reviewing monthly UFG statistical data of the Company and its different regions, in order to identify the geographical areas contributing to UFG and to assign tasks to relevant departments for performing UFG-reduction activities.

NOTICE OF 60th ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN that the 60th Annual General Meeting of Sui Southern Gas Company Limited (the "Company") will be held at Pearl Continental Hotel, Karachi on April 16, 2016 at 4.30 pm, for the purpose of transacting the following business:

- 1 To receive, consider and adopt the Audited Financial Statements of the Company for the year ended 30th June, 2014 together with the Directors' and Auditors' Reports thereon.
- 2 To confirm the post facto appointment of M/s. Deloitte Yousuf Adil, Chartered Accountants (erstwhile M. Yousuf Adil Saleem and Co., Chartered Accountants) as auditors of the Company for the year ended 30th June, 2015 and to fix their remuneration.
- 3 To transact any other ordinary business of the Company with the permission of the Chairman.

The Share Transfer Books of the Company will remain closed from April 8, 2016 to April 16, 2016 (both days inclusive) when no transfer of shares will be accepted for registration.

By Order of the Board

Shoaib Ahmed Company Secretary

March 22, 2016 Karachi

Notes:

1. Participation in Annual General Meeting:

- i) All members, entitled to attend and vote at the general meeting, are entitled to appoint another member in writing as their proxy to attend and vote on their behalf. A corporate entity, being a member, may appoint any person, regardless whether they are a member or not, as proxy. In case of corporate entities, a resolution of the Board of Directors / Power of Attorney with specimen signature of the person nominated to represent and vote on behalf of the corporate entity shall be submitted to the Company along with complete proxy form. The proxy holders are required to produce their original CNIC or original Passport at the time of the meeting.
- ii) The proxy must be signed in order to be effective, and should be deposited at the Shares Registrar of the Company but not later than 48 hours before the time of holding the meeting.

Further guidelines for CDC Account Holders:

CDC Account Holders will further have to follow the under mentioned guidelines as laid down in Circular No. 1 dated January 26, 2000 issued by the Securities and Exchange Commission of Pakistan.

A For attending the meeting:

- i) In case of individuals, the account holder or sub-account holder and/or the person whose securities are in group account and their registration details are uploaded as per the Regulations, shall authenticate his/her identity by showing his/her original Computerized National Identity Card (CNIC) or original passport at the time of attending the meeting.
- ii) In case of corporate entities, the Board of Directors resolution/power of attorney with specimen signature of the nominee shall be produced (unless it has been provided earlier) at the time of the meeting.

B For appointing proxies:

- i) In case of individuals, the account holder or sub-account holder and/or the person whose securities are in group account and their registration details are uploaded as per the Regulations, shall submit the proxy form as per the requirements mentioned below.
- ii) The Proxy form shall be witnessed by two persons whose names, addresses and CNIC numbers shall be mentioned on the form.
- iii) Attested copies of CNIC or the passport of the beneficial owners and the proxy shall be furnished with the proxy form.
- iv) The Proxy shall produce his/her original CNIC or original passport at the time of the meeting.
- v) In case of a corporate entity, the Board of Directors' resolution/power of attorney with specimen signature shall be submitted (unless it has been provided earlier) along with proxy form to the Company.

2. Submission of Copy of CNIC/NTN Certificate (Mandatory):

Valid copy of CNIC / NTN has to be provided to our Shares Registrar, in case of physical shareholders and in case of CDC account to its Participant / Investor Account Services.

3. Payment of Dividend Electronically (optional):

Shareholders have been given an opportunity to authorize the Company to make payment of cash dividend through direct credit to shareholders bank account. To opt for the dividend mandate option, the Dividend Mandate Form is available at Company's website i.e. www.ssgc.com.pk.

4. Electronic Transmission of Annual Audited Financial Statements and Annual General Meeting Notice through e-mail (optional):

Shareholders who desire to receive the Company's Annual Audited Financial Statements and Annual General Meeting Notices through e-mail are requested to fill the requisite form available on the Company's website i.e. www.ssgc.com.pk.

5. Change in Address:

Shareholders are requested to notify any change in address immediately quoting their folio number(s) to our Shares Registrar.

6. Minutes of Last Meeting:

Copies of the minutes of the Extraordinary General Meeting held on January 24, 2014 will be available to the Members on request, free of cost.

REGISTERED OFFICE:

SSGC House Sir Shah Suleman Road, Gulshan-e-Iqbal, Block 14, Karachi - 75300, Pakistan.

SHARES REGISTRAR:

Central Depository Company of Pakistan CDC House, 99-B, Block B, SMCHS, Main Sharah-e-Faisal, Karachi, Pakistan.

From the country's perspective, the project has strategic importance and SSGC is committed to support the Government in its implementation.

Dear Shareholder,

I am pleased to present and share the Company's 60th Annual Report and Audited Financial Statements for the financial year ending June 30, 2014, together with the Auditors' Report thereon.

Energy Overview

Pakistan's economy has been growing at an average growth rate of almost 3.6% for the last 5 years whereas demand for energy is increasing rapidly. During FY 2013-14, 46% of the country's energy needs were met with indigenous gas. Pakistan's natural gas production decreased by 0.8% from 4,126 million cubic feet per day (mmcfd) in 2012-13 to 4,092 mmcfd in 2013-14.

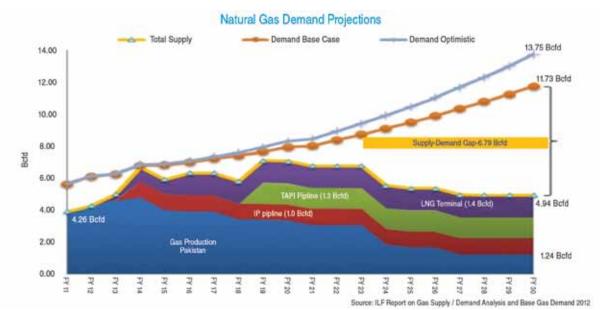

As per a recent study entitled 'Pakistan Gas Supply-Demand Study', over the next 17 years, demand for gas is projected to stand at 11.73 billion cubic feet per day (bcfd), while domestic supplies are expected to reach the level of 4.94 bcfd, resulting in a huge shortfall of about 6.79 bcfd by 2030.

To meet the growing energy needs of the Country, the Government of Pakistan is pursuing a multi-pronged strategy comprising the following key elements:

- i. Construction of Turkmenistan-Afghanistan-Pakistan-India (TAPI) and Iran-Pakistan (IP) transnational gas pipelines
- ii. Import of Liquefied Natural Gas (LNG).
- Up-gradation of existing and renewed investments in the hydropower sector.
- iv. A concerted effort towards renewable energy resources.
- A sustained and educated effort towards energy conservation.

Further to Government initiatives, the Company aligned its plans to bridge this energy gap through effective measures such as gas load management, controlling gas losses caused due to Unaccounted-for-Gas (UFG), executing media campaigns on gas conservation for judicious use of gas, installing Synthetic Natural Gas plants in far flung areas and building infrastructure for imported new gases in the system.

Potential Game Changer: In April 2014, SSGC and Elengy Terminal Pakistan Limited (ETPL) (then Engro Elengy Terminal Pakistan Ltd.) signed an LNG Services Agreement (LSA) that marked the way forward for the re-gasification of 400 mmcfd of imported LNG. From the Country's perspective, the project has strategic importance and SSGC is committed to support the Government in its implementation through the development of a dedicated pipeline infrastructure to facilitate transmission of re-gasified LNG (RLNG) for the next 15 years.

Delay in finalization of the Financial Statements for the year ended 30 June 2014

The Board of Directors is glad that after a gap of more than two years, the audited financial statements will finally come under discussion by the shareholders at the Annual General Meeting. The delay in finalizing the financial statements and holding of AGM was due to delay in the determination of Final Revenue Requirement for FY 2013-14 primarily due to lack of quorum at Oil and Gas Regulatory Authority (OGRA).

In its decision for FY 2013-14, OGRA while allowing the benefit of Non-Operating Income as per stay granted by High Court, did not allow following benefits:

- Arrears of Royalty received from Jamshoro Joint Venture Ltd. (JJVL) under the Supreme Court Judgment of December 2013 were
 not allowed as Non-Operating Income for the period from November 2004 to June 2009 for the reason that no stay was available
 for that period.
- Sale of Liquefied Petroleum Gas / Natural Gas Liquid (LPG/NGL) was also treated as Operating Income which was claimed by the Company as Non-Operating Income.

Aggrieved by the above treatment, the Company moved to Sindh High Court and the Court in its order suspended OGRA's decision wherein above incomes were treated as operating income.

Despite Sindh High Court order, OGRA did not issue the revised Determination. The matter was again referred to the High Court with a request that OGRA be directed to comply with the Court Order already passed on November 20, 2015. However, in spite of subsequent hearings, the matter remains unresolved till the date of approval of Financial Statements by the Board of Directors.

Accordingly, the benefit of the above stay has not been availed by the Company for want of revised OGRA Determination. This is explained in detail in Note 1.3.2 of the Financial Statements.

Financial Overview

During the period under review, the Company recorded a net loss after tax of Rs. 3,753 million after incorporating major disallowances and financial costs due to circular debt.

The summary of financial highlights is given below:-

	2013-14 (Rupees in Million)	
Profit / (Loss) before taxation	(5,810)	
Provision for taxation	2,057	
Profit / (Loss) after taxation	(3,753)	

This net loss after tax was recorded after incorporating major disallowances by OGRA, treatment of sale of Liquefied Petroleum Gas (LPG) / NGL (Natural Gas Liquid) and royalty as operating income, determined by OGRA and financial cost due to circular debt.

Effective from July 01, 2012, the Company decided to account for LPS from K-Electric and Pakistan Steel Mills on receipt basis as per IAS 18 "Revenue", based on opinions from firms of Chartered Accountants. The position of legal claim and amount recognized in Financial Statements in accordance with revised accounting treatment, have been provided in detail in Note 26.1 and 26.2 of the Financial Statements.

Unaccounted-for-Gas (UFG) continued to be the major challenge

confronted by the Company. To arrest the rising UFG trend, the Company took a number of steps within its control. The Company recognized the uncontrollable factors and consequently raised the matter with the Ministry of Petroleum and Natural Resources at the Economic Coordination Committee (ECC) level. Subsequently, policy guidelines were issued to OGRA for allowing the volume pilfered by non-consumers, volume consumed in law and order affected areas and impact of change in bulk to retail ratio on UFG, using 2003-04 as the base year. The policy guidelines emphasized that provision for doubtful debts may also be determined at minimum of 1% of sales.

In its determination for FY 2013-14, OGRA recognized the impact of law and order affected areas and non-consumers to only a certain extent. However, neither the impact of bulk to retail ratio was allowed at all by OGRA nor was the provision for doubtful debts permitted at 1% of sales. This non-compliance of ECC guidelines by OGRA has adversely affected the financial health of the Company. The Company is following up extensively with OGRA for implementation of complete ECC guidelines. If the complete benefit of ECC guidelines is allowed to the Company, the additional after tax profit would be Rs. 7.3 billion.

In December 2013, the Supreme Court declared the Implementation Agreement between SSGC and Jamshoro Joint Venture Limited (JJVL) null and void, which was governing Royalty Income against LPG extracted by JJVL from composite gas of Badin Gas Field. The Supreme Court also allowed additional Royalty Income for the past period. After the Supreme Court decision, revenue in respect of Badin Gas Field is being obtained through Sale of LPG and NGL instead of Royalty.

Ray of hope: SSGC and Mari Petroleum Company officials conducting the soft launch of the project: a view of the pipeline laying through tough terrain

In its determination of Final Revenue Requirement for FY 2013-14, OGRA did not allow treatment of income from sale of LPG and NGL as Non-Operating Income. Further, additional Royalty pertaining to the financial years in which there was no stay order, has also not been allowed as Non-Operating Income.

On taking up the matter to Sindh High Court, the Court suspended the above treatment, thus requiring OGRA to issue revised revenue determination which has not been issued till date. If the OGRA had issued the revised determination, the Financial Statements would have reflected additional after tax profit of Rs. 4.5 billion.

Receivables Situation

During the year under review, K-Electric (KE) and Pakistan Steel Mills Corporation (Pvt.) Limited (PSMCL) continued to lag behind in settling their over dues. As a result, a huge amount has been accumulated against Principal and Late Payment Surcharge (LPS).

The Management is pursuing its legitimate claim from KE by filing recovery suit against KE amounting to Rs. 55.7 billion. At the same time, the Management is in constant liaison with the concerned ministries to expedite the recovery of outstanding dues from KE and PSMCL.

It is expected that as soon as matter is resolved by the Government of Pakistan on a permanent basis, the overall financial position of the Company will improve. The claim of the Company against KE and PSMCL, as of June 30, 2014 is Rs. 55,458 million and Rs. 24,443 million, respectively.

Operational Overview

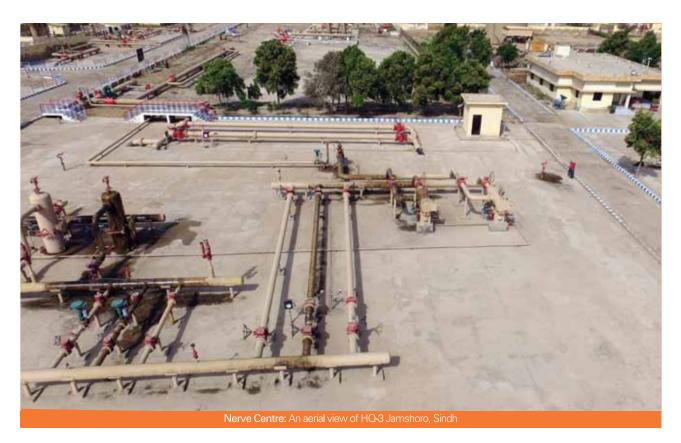

SSGC is driven by its core values of integrity, creativity, excellence, team work, transparency and responsibility to stakeholders. In alignment with the Company's mission, the Company has continued to provide natural gas facilities to an expanding customer base in a safe, reliable and affordable manner. Division and department-wise details of projects and achievements during FY 2013-14 are hereunder:

Projects

Working relentlessly despite difficult climatic and topographical conditions, the Company's planners, engineers technicians and workers continued to meet the project targets on a fast track basis and within the allocated budgets.

Zarghun Pipeline Project: During the year under review, one of the most significant projects completed by the Projects and Construction Department was the much awaited 12" dia x 64-kms Zarghun Gas Field Project.

The Rs. 1,349 million project will inject 20 mmcfd gas into the system and will benefit Quetta and adjoining areas especially during bitterly cold winters when customers are faced with low pressure situation. Engineers and workers braved law and order situation, inclement weather, topographical conditions and legal wrangling to complete the project in June 2014.

Transmission

Cathodic Protection: During the year under review, the Company continued to focus on many facets of cathodic protection for the ultimate objective of providing corrosion control to areas where the coating may be damaged. The Transmission Department carried out coating and wrapping of 12.9 Kms of Transmission Pipelines on Indus Left Bank Pipeline (ILBP), Indus Right Bank Pipe (IRBP) and Quetta Pipeline (QPL) projects. In addition, the Department renewed four ground beds on ILBP, IRBP and QPL and carried out Close Interval Potential Survey over a distance of 176 kms on ILBP and IRBP.

The Department also upgraded twelve solar powered stations on ILBP and IRBP by adding solar modules and replacing old exhausted batteries.

Compression: In-house overhauling of Caterpillar Gas Generator at Shikarpur Compressor Station and Waukesha Gas Generator at Dadu Compressor Station was undertaken.

Main Pipeline Instrumentation: A number of activities undertaken in this regard included:

- Installation of four new Valve Actuators at SMSs Nooriabad and Kotri for operating through the SCADA system.
- Welding, fabrication, installation and commissioning of new SMS Bobak in HQ-Dadu Section.

. Calibration of 15 Safety Relief Valves at Karachi Terminal - Section.

Pipeline Maintenance: Activities carried out during the year included:

- Cold cutting and tie-in of 18" IRBP line at Main Valve Assembly (MVA) Tharri Mohabbat for integration of Meher Gas Field in HQ-Dadu Section.
- Welding, fabrication, installation and commissioning of Regulation set-up of 300 MMCFD capacity at MVA Pakland for controlling the pressure of SMS Fauji Fertilizer.

Measurement Transmission is driven towards ensuring accurate measurement of gas volume and energy at purchase and sale points. To achieve the task, major jobs were carriedout, in addition to routine activities of operation and maintenance of gas measurement equipments. Check Meters were installed and commissioned at Point of Delivery (POD) Naimat Bassal, Bobi and Haseeb Fields using state-of-the-art Gas Flow Computers and Chromatographs.

To provide reliable power for gas metering equipment at these remote sites, environment friendly solar power systems have been installed. SSGC is supplying Synthetic Natural Gas to customers by using LPG-Air Mix Plants at Gwader, Noshki, Sorab and Kot Ghulam Mohammad. A special Chromatograph was procured, installed and commissioned at KT for compositional analysis of SNG.

Distribution-South

Distribution South is responsible for all areas of Karachi region. During FY 2013-14, Distribution South was engaged in a number of infrastructure expansion and UFG-reduction activities. While, 66 kms of normal expansion work was carried out, 14-km pipeline was laid to reinforce the existing network. While, 13 TBSs and 8 PRSs were also installed, 15 TBSs were modified during the year under review.

UFG-reduction Activities: During the year under review, 1,265 kms of underground leak survey and rectification and 84,000 points of leak survey and rectification were carried out with the objective of reducing UFG and environmental hazards. The

Distribution team also made 12,300 disconnections of customers engaged in gas theft. In addition, ten meters were installed in TBSs and two segments were created. The Department carried out reconciliation of 72 UFG zones.

Special Projects: For better operational controls, Distribution South was divided into three regions - East, West and Central several years back. In the year under review, for conducting UFG analysis separately for each region, two Distribution Meter Stations were installed. The first DMS was installed at 24" dia Supply main near Jam Sadiq Bridge in Korangi for supplying gas from East to the Central Region while the second DMS was installed at 16" dia Supply main near Essa Nagri for supplying gas from the Central Region to the West Region.

Future Plans - System Expansion Projects for FY 2014-15

- " 16" dia, 5-km pipeline expansion from Landhi Chukandi Industrial Area to increase the system capacity of the area.
- 20" dia, 5-km pipeline expansion from Karachi Terminal to Essa Nagri in Hassan Square in order to increase system capacity and to meet gas flow and pressure requirement of SITE Industrial Area.

Distribution-North

The Distribution North covers all areas in Sindh excluding Karachi and entire Balochistan. During 2013-14, in Hyderabad and Nawabshah regions, the North team conducted a number of infrastructure maintenance and expansion activities as well as UFG reduction tasks that included rehabilitation of pipeline mains and services, reinforcement, underground and overhead leak rectification, replacement of PUG meters and new connections.

Lower Sindh (Hyderabad and Nawabshah)

During the year under review, 218 new towns and villages were connected to the existing network by laying over 483 kms of distribution mains and service lines. In addition, 41.3 kms of distribution mains and service lines were rehabilitated. While normal pipeline expansion of 72 kms was carried out, 11.5 kms of reinforcement work was carried out.

On the other hand, as part of UFG-reduction activities, 318,497 overhead leak surveys were conducted, 162,363 overhead rectifications and underground leak rectifications spread over 3,131 kms were carried out. 13 Town Border Stations were also added into the system or modified.

During the year, 24,817 Passing Unregistered Gas (PUG) meters were replaced. In all, 592 new domestic, 22 commercial and 6 industrial connections were given.

Balochistan Region (Quetta, Pishin, Sibi, Dera Allah Yar and Sui)

During the year under review, normal pipeline expansion of 12

kms was carried out, 20 kms of distribution mains were rehabilitated and replaced. 1,097 kms of underground leak survey/rectification were carried out while in all 59,367 overhead leak surveys/rectification were carried out. 3 Town Border Stations (TBSs) were upgraded at the Quetta City to ensure smooth supply of gas to customers as well as to run the system at minimum pressure to control purchase volume, from UFG perspective. In addition, installation of an additional TBS was carried out at Quetta to isolate the area from over loaded TBS, as well as to run the system at minimum pressure from UFG point of view. 32 Pressure Regulating Stations (PRSs) were installed to regulate and manage pressure as per requirement to reduce UFG volumes.

During the year under review, 11,392 new domestic, 174 commercial and 1 industrial connections were provided and in all, 5,209 PUG meters were replaced.

LNG Import

Pakistan is facing a severe shortage of natural gas, both for its electricity generating plants and for general use by all the sectors. The demand-supply gap that has now risen to 2,000 mmcfd is not only causing hardship to the customers but is also inhibiting the economic growth of the Company.

To bridge the demand-supply gap, the Government of Pakistan is working towards giving the nation a secure energy supply plan. One of the most viable options being implemented is the import of LNG, to meet energy requirements.

The Plan: In pursuit of the Government's plan, SSGC is implementing a plan to augment its existing network for supplying 400 mmcfd during 2015-16 and 1,200 mmcfd by 2016-17 to power generating plants and for general use by all the sectors.

Way Forward: In 2014, the first step for the

distribution of 400 mmcfd re-gasified LNG (RLNG) was taken when SSGC and Engro Elengy Terminal Pakistan Ltd. (EETPL) signed an LNG Services Agreement.

During the first year, an average volume of 200 mmcfd RLNG will be transmitted through the system while from Year 2 to Year 15, 400 MMCFD RLNG will enter into the transmission system. The Company is of the firm belief that LNG will prove to be a game changer for Pakistan's energy sector.

400mmcfd

Volume of RLNG to be transmitted from year 2 onwards to bridge demand-supply gap

Urban areas have been segmented into subzones to ensure greater efficiency, transparency in operational activities and accountability.

Unaccounted-for-Gas (UFG) Control

UFG, in parlance of Gas Distribution and Transmission Company means the difference between gas purchased in volume and gas used internally by the Company for its operations. UFG results from a number of factors, which, inter alia, comprises of the following:

- (i) Gas Theft (meter / regulator tampering and illegal direct connections, self-load enhancement)
- (ii) Measurement errors, meter tampering and meter getting slow with time and use; and
- (iii) Leakages in overhead and underground pipelines due to corrosion, poor workmanship and external damages.

During the year under review, UFG stood at 13.82%. In addition to the above factors, there are some external factors that are beyond Company's control. These include bulk to retail ratio, volatile law and order situation, Government moratorium on new connections and new towns' extensions, all of which contributed to significant increase in UFG. The Company, nonetheless, continued to make concerted efforts to control UFG by replacing defective meters, rectifying leakages and installing cyber locks at industrial premises. In addition, the Company continued to undertake anti-gas theft raids which helped save volumes.

The Company made concerted efforts to control UFG by replacing defective meters, rectifying leakages and installing cyber locks at industrial premises.

Customer Services

Customer Relations Department (CRD)

The Company stands committed towards providing quality service to its customers by attending to their complaints and grievances on 24/7 basis. CRD places primary importance towards ensuring customer satisfaction. During the year under review, the Department's executives and staff, facilitated by Rescue 1199 emergency vans, contact centers and task forces, received and rectified complaints from 2.6 million customers while fighting the menace of UFG in Sindh and Balochistan.

While the teams attended to 348,447 customer complaints of various nature, the contact centre agents responded to to 514,398 customers' calls. The Department also continued to create mass awareness about energy conservation and safety precautions and hazards resulting from gas leakages and theft through print and electronic media advertisements.

The CRD Task Force remained at the forefront of the Company's drive against UFG. During the year under review, the Task Force conducted more than 500 raids in the major franchise cities of Karachi, Hyderabad, Nawabshah, Sukkur, Larkana and Balochistan and laid gas theft claims against 33,516 non-customers.

Billing Department

The Company is committed towards ensuring accurate meter reading, timely delivery of bills and maximizing recovery against

gas bills. The Billing Department made strenuous efforts to secure its debts. In this regard, an amount of Rs. 6,508 million was collected in order to enhance the Gas Supply Deposit (GSD) of all categories of customers. This amount includes Rs. 2,707 million enhancement in the GSD of domestic customers as per OGRA's directives.

During the year under review, surveys of Nil and Minimum customers were carried out for identification of meters Passing Unregistered Gas (PUG) and theft cases. In all, 24,956 and 22,483 cases were identified as theft and rehabilitation cases, respectively. Moreover, as part of UFG reduction efforts, combing exercises were carried out in apartment blocks in Rehri Goth, Korangi-J and Korangi-K areas of Karachi during which 7,200 customers were surveyed and 200 meters were detected as defective.

In addition, extensive support was provided in reducing UFG through improvement in gas sales which includes considerable action against fake meter cases, theft cases and PUG estimations. As a result, approximately 4 BCF was added to the gas sales volume up to June 2014.

As a regular practice, workshops were organized to provide training on hand-held computers and data processing to meter readers and data processing personnel.

Moreover, boot camp for billing Executives / staff on Customer Care and Billing System and Statistic Analyzing System (COGNOS) training for the Department's executives and staff was held to analyze sale volume and billing queries.

Recovery Department

The basic task of the Recovery Department is to take necessary steps for realization of maximum possible amount due against gas bills. During the year under review, the Department carried out the following activities:

- a) Issuance of Notices/Reminders: Issued one million notices/reminders to defaulting customers in order to remind them of their moral/legal responsibility.
- b) Issuance of Warning Letters: Issued twenty five thousand warning letters and handed over personally or through couriers to high value customers owning bills of Rs. 25,000 and above.
- c) Persuasion of High Value Defaulters: Contacted high value Government/bulk/domestic users defaulters in order to convince them for making payments.
- d) Disconnection of Domestic Defaulters: 126,733 defaulting domestic customers who owed Rs. 2,688 million to the Company, had their connections disconnected for failure to settle their bills despite persuasion.
- e) Media Campaign: Conducted aggressive media campaign in press and TV channels, for timely payment.
- Surveillance and Monitoring

To grapple with UFG menace, following activities were undertaken during the year under review;

 Cyber locks were installed at new CMSs to avoid un-authorized access; also redesigned cyber locks to avoid cutting of door locks by miscreants.

- Ultrasonic meters were installed on facilities of potential theft commercial customers to help monitor meter reversals / direct use of gas,
- Proposed caging of High pressure Industrial customers without CMS room as well as proposed shifting of Relief Valve to outlet in order to remove the chances of meter reversal,
- · Fixed Non Return Valves to avoid meter Reversal cases,
- Suggested provision of Union Joint in Service Line Up-Stream / Down-Stream of Regulator to avoid Gas Theft,
- Analyzed configured parameters of Electronic Volume Converter (EVC) Capped by-passes in CMS's of CNG stations and general industries,
- Undertook special visits to final billed customers (Industrial and Commercial) for accomplishing recovery targets,
- Carried out periodic connected load survey of all Industrial customers in coordination with Sales and Measurement Departments; and
- Made surprise day and night visits to both Industrial and Commercial customers and analyzed trend analysis of each customer

S&M teams raided a number of domestic, commercial and industrial customers/non-customers involved in gas theft through main service line in Sindh and Balochistan. Anti gas theft raids were undertaken in volatile localities such as Sohrab Goth, Rabia City, Mehran Town in Karachi and a number of ice factories in Larkana and many small business units in Hyderabad.

Meter Manufacturing Plant

SSGC established its Meter Manufacturing Plant (MMP) in 1975 with the primary aim of fulfilling the Country's domestic gas meter requirement. At present, two types of domestic gas meters are under production / assembly at MMP namely Remus G-1.6 (0.8 liter capacity) completely indigenized and Gallus 2000 G-4 (1.2 liter capacity) meters, manufactured under the license of M/s Itron, France.

Besides catering to internal requirements of the gas meters, the meter plant supplies units to SNGPL, its biggest customer. The meter plant is also engaged in exporting limited quantities of G-1.6 Gas Meters to Germany since 2009. During the year under review, MMP produced 851,460 G-1.6 and G-4 meters compared to the production of 690,129 units during the previous year.

The meter plant is in process of taking measures for quality improvement and enhancing productivity of existing G-1.6 and G-4 Gas Meters through procurement of computerized underwater leak test machine for G-4 Gas Meters and automatic screw driving unit and automatic gluing machine for G-1.6 Gas Meters. The plant has developed a Pakistan specific 3rd

generation G-4 Gas Meter called V-3. The V-3 meter is much more robust against meter tampering, one of the causes of UFG and can sustain gas contaminations and possess smart meter capabibility of electronic data collection and processing.

Measurement

Measurement Distribution

Measurement Distribution is responsible for ensuring accurate measurement of gas volume through operations and maintenance of Customer Meter Stations (CMSs) of Industrial customers throughout the franchise areas of Sindh and Balochistan.

During the year under review, the Department tested 1,147 industrial meters at CMSs online for accuracy within tolerable limits. In addition, 249 Electronic Volume Correctors (EVCs) were installed on large industrial customer meters with accuracy

and temperature transducers for improved measurement accuracy. Also, more than 500 online remote monitoring systems were installed at CMSs, TBSs and PRSs for reconciliation of gas sales and purchase of newly created distribution segments. The Department also upgraded existing remote monitoring units with the latest hardware and additional features of data storage at remote sites.

Meter Repair Shop

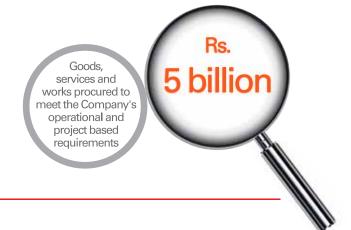

During the year under review, 31,000 domestic meters were repaired and refurbished. In addition, 180 industrial and 1,900 commercial meters were repaired. The Shop also tested 8,228 meters sent by the Customer Relations and Surveillance and Monitoring Departments for theft/tampering.

Procurement

During the fiscal year 2013-14, the Procurement Department arranged purchase of goods, services and works to the tune of Rs.5 billion to meet the Company's operational and project based requirements. PPRA rules were followed in true spirit which were duly acknowledged by the External Auditors. No violation of any PPRA rules was observed during the audit of FY 2013-14 conducted as per OGRA's requirement.

The procurement cycle for the current financial year remained at 68 days which shows the extent of improvement in overall performance efficiency. This was achieved through meticulous planning and effective coordination with timely follow-up with the stakeholders.

These efforts show the professional trait of the Department that aims to remain focused in obtaining the best value for money while keeping itself abreast of meeting any type of challenge for accomplishment of the projects.

Internal Audit

The function of Internal Audit in SSGC is carried out through an independent in-house Internal Audit Department to assist the Board of Directors and the Management in sustaining and persistently improving internal controls in accordance with business risks appraisal.

Internal Audit Department is headed by a Chief Internal Auditor who reports functionally to the Chairman Audit Committee and administratively to the Managing Director of the Company, accordingly. The performance of the Internal Audit Department is monitored through Board Audit Committee (BAC).

The Internal Audit Department has free and unfettered access to Management Information as per Internal Audit Charter. The Department is also required to abide by a Code of Ethics approved by the Board. The internal audits are conducted under Standards for the Professional Practice of Internal Auditing issued by the Institute of Internal Auditors, IIA.

The Audit Plan for FY 2013-14 was implemented with full vigor and numerous internal audit reports were issued. Significant audit findings were reported to BAC.

During the year, a plan was finalized for induction of Technical Audit Section and IT Audit Section. Technical Audit Section was established and Technical Audit Reports were issued.

SSGC-LPG (Pvt.) Ltd. (Subsidiary Company)

During the year under review, sales volume of LPG increased by 4.25 times to 34,211 MT (2012-13 figures: 8,031 MT) with significant growths in packed and bulk business segments. On the other hand, market share grew to 4%. However, there was a tough competition in the market due to local and illegal imports from Iran, that resulted in lower margins.

Terminal business was closed due to pipeline repairs which

were carried out in second half of 2014. The subsidiary registered an after tax loss of PKR 440 million in 2013-14.

This loss can be attributed to a number of factors including:

- a) Market operating on lower margins due to cheaper Iranian product available which was smuggled via land route.
- b) Heavy transportation cost to move the product up North.
- c) No imports at SLL Terminal.
- d) Bad debt against one of the distributors.
- e) Heavy cost of depreciation and interest.

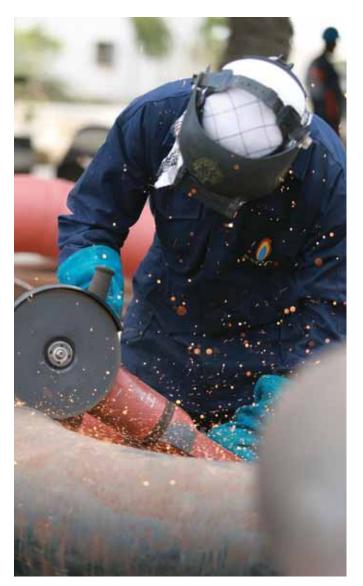

Regulation and Tariff

- The Company successfully complied with Oil and Gas Regulatory Authority (OGRA) specified Performance and Service Standards and License Conditions for undertaking regulated activities of transmission, distribution and sale of natural gas.
- With respect to transmission projects, the Authority during FY 2013-14 approved GSPA of Nur Bagla Gas Field.
- During the year under review, the Company filed its petition before OGRA for determination of its Estimated Revenue Requirement (ERR) for FY 2014-15 in which the Authority was requested for an increase in prescribed prices by Rs.108.19 per MMBTU. During the public hearing conducted on 29 April 2014 at Karachi and 5 May 2014 at Quetta, accordingly the requested amount was reduced to Rs. 51.42/MMBTU. The Authority determined a surplus of Rs. 38.38 per MMBTU reducing the Prescribed Price of the Company. the Authority further allowed an increase of Rs. 61.78 per MMBTU related to FY 2013-14. The Authority maintained its stance on treatment of income

from Meter Manufacturing Profit, Late Payment Surcharge, Sale of Condensate, and Royalty from JJVL as operating incomes and determined the UFG benchmark at 4.5%. On SSGC's request the Honorable Sindh High Court granted stay order against the Authority's determination to the extent of treatment of non-operating incomes and allowing UFG benchmark at 7%. Accordingly, OGRA provisionally allowed an increase of Rs 52.38 per MMBTU in the Prescribed Price of the Company as against the initial request of Rs. 108.19 per MMBTU.

Subsequent to filing Motion for Review (MFR) dated 29 June 2013 for FY 2013-14, SSGC on 14 October 2013 filed a Review Petition to allow price increase of Rs 41.26 per MMBTU consequent upon changes in well-head prices and estimates of gas off-takes with the request to treat the MFR as an integral part of the instant Review Petition.

The Authority held public hearing on 22 January 2014 at Karachi and announced determination dated 27 June 2014 in which it allowed Rs 63.78 per MMBTU including shortfall of FY 2012-13 Rs 37.13 per MMBTU.

Health, Safety, Environment and Quality Assurance

The Company's bi-annual internal and external audits are based on ISO 14001:2004 and OHSAS 18001:2007 standards, which covers the occupational health and safety aspects and environment conservation efforts undertaken in every phase of construction of new projects and operational activities.

Inspection and performance test of more than 6 million locally manufactured fittings, regulators, services valves and service tees were carried out in the Development and Inspection Shop of HSE&QA Department to ensure the availability of best quality product for service connections and fittings as per international standards. The HSEQA Department is in the process of acquiring ISO-9001 certification. This QMS certification will help in controlling UFG by standardizing the material and establishing selection criteria for suppliers/vendors/contractors and effective monitoring and measurement of processes, in addition to ISO 14001:2004 and OHSAS 18001:2007 standards of occupational health and safety.

Endorsements: In the year under review, SSGC achieved the Environmental Excellence Award for the 11th consecutive year in a row from National Forum for Environmental and Health, a prominent NGO working for the environment. SSGC also achieved the 1st position Excellence award on Best Practices in Environment and Health conferred by the Employer's Federation of Pakistan.

Information Technology

The Company has attempted to stay ahead of changing market dynamics by demonstrating the vision and willingness to produce and deliver cost-effective technology solutions. Among the notable achievements of the IT Department during FY 2012-13 are:

Enterprise Resource Planning: The Company's ERP team successfully upgraded Oracle e-Business suite from Oracle 11i to Oracle R12 version and also implemented Funds Accounting System that covers Provident Funds, Gratuity, and Benevolent Fund.

Automated Performance Review: HR, in collaboration with the IT Department launched an Automated Performance Review System. It is a process of self-service HR module of Oracle 11i. The use of this application will enable the line managers to not only view supervisor hierarchy but will also facilitate them in allocating marks to the employees with the consent

of their respective departmental head. Benefits include greater across the board transparency and automatic updating of records thus saving considerable time.

Newer Version of CC&B: SSGC has a comprehensive state-of-the-art customer care and billing system catering to around 2.7 million customers across Sindh and Balochistan. During the year 2013-14, subsequent to implementation of CC&B new version upgrade, an in-house technical and functional enhancement was made to cater to current as well as future business requirements.

IBM Rational Focal Point and Collaborative Lifecycle Management: The IT Department successfully customized and implemented the Enterprise Project Portfolio Management solutions in all three Gas Distribution Regions in Karachi using IBM Rational Focal Point software. The solution facilitates concerned engineers in centralized management of the processes, methods and techniques to analyze and collectively manage current and proposed Gas Distribution Projects based on strategic value and controlling UFG characteristics.

During the year 2013-14, subsequent to implementation of CC&B new version upgrade, an in-house technical and functional enhancement was made to cater to current as well as future business requirements.

Human Resource

Enabling our organization to realize its potential through human resource is fundamental to the Company's success. The Company is focused towards facilitating a culture where employees are provided with opportunities to develop and are encouraged to contribute towards making work safer, simpler and more productive. The HR Department undertook several initiatives during the year under review. These included:

- a) Electronic PMS: Company hierarchy was aligned with the online PMS system for the first time in the Company's history. Various training sessions were conducted across the franchise areas to explain the executives and employees about the mechanics of Electronic PMS systems.
- b) Emerging Leadership Program: The Management Trainee Program was revived to ensure continuous acquisition of talent to cater to the future leadership requirements. The aim of the program

is to enroll fresh engineering and business graduates through Trainee Program, and adequately train them for future challenges.

- c) Training and Development: In order to hone the skills of its executives and staff, the Company's Gas Training Institute in Karachi and Hyderabad imparted more than 168 soft skills and technical training sessions during the year. Approximately 3,169 employees received trainings in various discipline, including communication skills, train the trainer, MBTI, computer skills, construction and maintenance of polyethylene pipe, procedures and techniques for gas fitters.
- d) Referendum for Determination of CBA: The Internal Relations Department successfully arranged referendum through secret ballot for determination of Collective Bargaining Agent (CBA) on November 26, 2014 in the Head Office and other key facilities of the franchise areas. The referendum was held under the supervision of Registrar/Authorized Officer, National Industrial Relations Commission (NIRC) Islamabad.

Medical Services

The Company's Medical Services Department is focused towards disease prevention, detection and early intervention. In FY 2013-14, the Medical Department worked on integrated medical care that involves various groups of doctors working on pre-existing major chronic illness and also on preventive measures such as cessation of smoking, weight reduction etc.

Besides providing health care to permanent, the Department endeavoured to provide 300 casual employees, protection against Hepatitis 'B' through free of cost vaccination.

This year, the Department conducted a record number of health awareness programs on major health issues and continued with

its Expert Patients Program (EPP). Patient awareness materials on Dengue, Hepatitis, High Cholesterol, Foot care for Diabetes were also published and also translated in Urdu. A new edition of Disease Management Protocol Book was also published.

To remain at the forefront of academics, the doctors of the department participated in research work along with Baqai Institute of Diabetes Education (BIDE) on diabetic patients. The data gathered by the company doctors was found highly impressive by the researchers at the BIDE.

The Department provided free services and medicines to the underpriveleged by setting up medical camps in Dumba Goth and Machar Colony in Karachi. A new medical centre was also established at Karachi Terminal (KT) primarily for Company employees and families based in KT.

Medical Seminars in SSGC create awareness about common medical conditions

As a responsible Corporate Citizen SSGC takes regular initiatives in its franchise areas of Sindh and Balochistan that benefit the communities at large by supporting projects related to education, health, environment and community development. These initiatives help develop strong relationships with our stakeholders and create long-term value for society.

Corporate Social Responsibility

As a responsible Corporate Citizen, SSGC takes regular initiatives in the areas of education, health, environment and community development in its franchise areas of Sindh and Balochistan, that benefits communities at large.

Education

This year the newly renovated Government College for Women located on Shahrah-e-Liaquat, Karachi was inaugurated by the Company's Senior Management. The previously dilapidated structure was renovated at a cost of Rs. 2.22 million on the college administration's request. In FY 2013-14, the Company renovated and constructed two Government schools namely Government Rashid Minhas Shaheed Boys / Girls Secondary School, KMC, Nazimabad # 1 and Government Major Ziauddin Abbasi Shaheed Elementary School, KMC, Nazimabad # 2, Karachi. The renovated schools were built at a total cost of Rs. 5.09 million.

Under the scholarship scheme, SSGC provided financial assistance of Rs. 4.91 million to a number of educational institutions including NED University of Engineering and Technology, Karachi, Institute of Business Management, Sukkur Institute of Business Administration and, Balochistan Institute of Technical Education besides other

academic institutions. The Company also provided Rs. 3.30 million to The Citizens Foundation to cover the operational expenses of TCF Primary School, Merck Marker Campus 1, Quetta and TCF Secondary School, Yusuf Khan Goth Campus, Karachi. The Company also contributed Rs. 3.56 million for the construction of a Middle / High School in Village Din Muhammad Rind, District Khairpur, Sindh in collaboration with Indus Resource Centre. The Utility provided a monetary support of Rs. 1.30 million to The Hunar Foundation by sponsoring a batch of 13 students enrolled in its one-year technical education program in "Fabrication and Welding Technology".

Health

Healthcare is a key component of SSGC's CSR strategy. The Company partnered with several renowned NGOs and healthcare organizations that require monetary support and healthcare facilities, while also funding those patients who require immediate procedures. During the year in review, the Company provided financial aid of Rs. 1.20 million to Baqai Institute of Diabetology and Endocrinology (BIDE) to help it run a diabetic clinic.

Rs. 5.09 million

Renovation cost of two Government schools in Karachi during FY 2013-14

Bio-degradable paper bags being used in grocery stores

Environment

The Company introduced 50,000 environment-friendly bio-degradable paper bags by entering into a CSR partnership with Thal Limited, Pakistan. The bags were emblazoned with SSGC's customized public service messages and were distributed amongst leading departmental stores of franchise cities.

Emergency Relief Efforts

The deadly earthquake that hit the provinces of Balochistan and Sindh on September 24, 2013 caused massive destruction in Balochistan's Awaran district and adjoining areas. The Company, as a responsible citizen rose to the occasion and contributed a sum of Rs. 20 million in the Prime Minister's Earthquake Relief Fund. In addition the Company provided relief goods worth Rs. 3.31 million for the earthquake affected people of Awaran and 2,000 packages of food items worth Rs. 3.40 to the Jhal Magsi's flood affectees.

Acknowledgments

The Directors wish to express their appreciation for the continued support and patronage received from the shareholders and its valued customers. At the same time, we wish to acknowledge the dedication of all the employees who soldiered on, despite a myriad of challenges confronting the Company.

We also place on record, our acknowledgment for the continued guidance and support received from the Government of Pakistan, the Ministry of Petroleum and Natural Resources and the Oil and Gas Regulatory Authority. The Board would especially like to thank all the outgoing directors for the role they played in the policy-making and their focused approach in addressing issues.

On behalf of the Board.

Khalid Rahman Managing Director Miftah Ismail

Chairman, Board of Directors

Corporate Governance

- 68 Corporate Governance
- 70 Statement of Compliance with the Code of Corporate Governance and Public Sector Companies (Corporate Governance) Rules, 2013
- 76 Explanation for Non-compliance with the Code of Corporate Governance and Public Sector Companies (Corporate Governance) Rules, 2013
- 79 Review Report to the Members on the Statement of Compliance with the Code of Corporate Governance and Public Sector Companies (Corporate Governance) Rules, 2013

CORPORATE GOVERNANCE

The Board gives prime importance to conducting its business in accordance with the best practices of corporate governance. The Directors spend quality time at Board and committee meetings and in discussions with executives to ensure the presence of a strong and effective governance system.

Casual Vacancy on the Board

The following casual vacancy occurred on the Board during the year:

- Mr. Alamuddin Bullo, who had resigned from the Board on 28 March 2014 was replaced by Mr. M. Raeesuddin Paracha on 20 June 2014.

The Board welcomed the new Director and recorded its appreciation for the valuable services rendered by the outgoing Director.

Composition of the Board

The status of each Director on the Board, whether non-executive, executive or independent, has been disclosed at the relevant portion of the annual report in accordance with the Code of Corporate Governance, 2012 (CCG) and the Public Sector Companies (Corporate Governance) Rules, 2013 (PSR) issued by the Securities and Exchange Commission of Pakistan.

Statement on Corporate and Financial Reporting Framework

SSGC, being a public sector entity adheres to Public Sector Companies (Corporate Governance) Rules, 2013. The Company is also listed on Karachi, Lahore and Islamabad Stock Exchanges which requires a listed Company to follow the Code of Corporate Governance applicable on listed Companies.

Specific statements to comply with the requirements of the Code of Corporate Governance are given below:

- i) The Board has complied with the relevant principles of corporate governance and has identified the rules that have not been complied with, the period in which such non-compliance continued and reasons for non-compliance.
- ii) The financial statements, prepared by the Management of the Company, fairly present its state of affairs, results of its operations, cash flows and changes in equity.
- iii) The Company has maintained proper books of account.
- iv) Appropriate accounting policies have been applied in preparation of financial statements and changes, if any, in accounting have been disclosed in the financial statements. The accounting estimates are based on reasonable and prudent judgment.
- v) International Financial Reporting Standards as applicable in Pakistan have been followed in preparation of financial statements and any departure thereof, has been adequately disclosed and explained.
- vi) The system of internal control is sound in design and has been effectively implemented, regularly reviewed and monitored.
- vii) There are no significant doubts upon the Company's ability to continue as a going concern.
- viii) The appointment of the Chairman and other Members of the Board and the terms of their appointment along with the remuneration policy adopted are in the best interest of the Company as well as in line with the best practices.
- ix) Reasons for significant deviations from last year's operating results have been explained in the relevant sections of the Directors' Report.

- x) Key operating and financial data for the last six years has been given on page 42 of the Annual Report.
- xi) Key performance indicators of the Company relating to its social objectives and outcomes have been disclosed in relevant sections of the Directors' Report.
- xii) Information about outstanding taxes, duties, levies and charges is given in Notes to the Accounts.
- xiii) Future prospects, risks and uncertainties have been disclosed in relevant sections of the Directors' Report.
- xiv) Details of the value of investments by the following funds based on respective audited financial statements as at June 30, 2014 and June 30, 2013 are as follows:

	2014	2013		
	(F	(Rupees in '000)		
Pension Fund - Executives	1,059,942	909,940		
Gratuity Fund - Executives	2,160,209	2,022,765		
Pension Fund - Non-executives	304,925	232,906		
Gratuity Fund - Non-executives	2,655,441	2,351,582		
Provident Fund - Executives	2,409,680	2,456,323		
Provident Fund - Non-executives	2,392,801	2,435,745		
Benevolent Fund - Executives	132,880	120,148		

- xv) Number of Board and Committee meetings held during the year and attendance by each Director has been disclosed at at the relevant section of the Annual Report. Leave of absence was granted to Directors who were unable to attend meetings.
- xvi) A statement of the Pattern of Shareholding in the Company as at 30 June, 2014 of certain classes of shareholders whose disclosure is required under the Code of Corporate Governance and Public Sector Companies (Corporate Governance) Rules, along with the statement of purchase and sale of shares by Directors, executives and their minor children during the year is shown on page 232 of the Annual Report.

Auditors

M/s. Deloitte Yousuf Adil, Chartered Accountants (erstwhile M. Yousuf Adil Saleem and Co. Chartered Accountants) were appointed as External Auditors of the Company in the last Annual General Meeting held on March 19, 2013. Thereafter, the Company was unable to hold its annual general meetings due to non-finalization of Final Revenue Requirements by Oil and Gas Regulatory Authority. In the light of Section 252 (1) of Companies Ordinance, 1984 M/s. Deloitte Yousuf Adil. Chartered Accountants (erstwhile M. Yousuf Adil Saleem and Co. Chartered Accountants) are continuing as External Auditors of the Company.

Dividend

In view of the Company's losses and reliance upon the stay granted by the Sindh High Court against the Orders passed by OGRA on matters relating to UFG and non-operating income, the payment of dividend is not recommended.

Accordingly, the Directors recommend, subject to approval by the Members at the Annual General Meeting to be held on April 16, 2016 that no Cash Dividend be paid to the shareholders for the FY 2013-14.

On behalf of the Board,

Miftah Ismail Chairman Khalid Rahman Managing Director

SCHEDULE I [SEE PARAGRAPH 2(1)]

STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE AND PUBLIC SECTOR COMPANIES (CORPORATE GOVERNANCE) RULES, 2013

Name of the Company: Sui Southern Gas Company Limited.

Name of the Ministry: Ministry of Petroleum and Natural Resources.

For the year ended: June 30, 2014

- I. This statement is being presented to comply with the Code of Corporate Governance (Hereinafter called "the Code") contained in the listing regulations of Karachi, Lahore and Islamabad Stock Exchanges and Public Sector Companies (Corporate Governance) Rules, 2013 (Hereinafter called "the Rules") issued for the purpose of establishing a framework of good governance, whereby a public sector company is managed in compliance with the best practices of public sector governance. In case where there is inconsistency with the Code, the provisions of the Rules shall prevail.
- II. The Company has complied with the provisions of the Rules in the following manner:

Certain additional disclosures as required under Code of Corporate Governance (CCG) 2012 are as follows:

- All the resident Directors of the Company are registered as tax payers and none of them has defaulted in payment of any loan to a banking company, a DFI or an NBFI or, being a member of a stock exchange, has been declared as a defaulter by that stock exchange.
- 2. All the powers of the Board have been duly exercised and decisions on material transactions, including appointment and determination of remuneration and terms and conditions of employment of the CEO, other Executive and Non-Executive Directors, have been taken by the Board/shareholders.
- 3. During the year, four Directors of the Company obtained certification as required under CCG.
- 4. The Directors, CEO and executives do not hold any interest in the shares of the Company other than that disclosed in the Pattern of Shareholding.
- 5. The meetings of the Board Audit Committee were held at least once every quarter prior to approval of term and final results of the Company and as required by the CCG.
- 6. During the FY 2013-14 the 'closed period' was not declared.
- 7. Material/price sensitive information has been disseminated to the stock exchanges.

Following are other non-compliances with the Rules which are not covered above:

Sr. #	Provision of the rules	Rule / Sub-rule No
1.	A "register of interests" is maintained to record all relevant personal, financial and business interests, of directors and executives who have any decision making role in the company, and the same shall be made publicly available. Such interests may include, for instance, any significant political activity, including office holding, elected positions, public appearances and candidature for election, undertaken in the last five years	5(5)(b)(iv)
2.	The board committees shall be chaired by non-executive directors and the majority of their members shall be independent. However, the independent directors in the committee shall not be less than their proportionate strength during the first four years of the Code.	12(2)
3.	The chief financial officer and the company secretary of a Public Sector Company shall attend all the meeting of the Board.	15(1)

For and behalf of Board of Directors,

Khalid Rahman Managing Director

Karachi March 5, 2016

SCHEDULE II

EXPLANATION FOR NON-COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE AND PUBLIC SECTOR COMPANIES (CORPORATE GOVERNANCE) RULES, 2013

We confirm that all other material requirements envisaged in the Rules have been complied with except for the following, toward which reasonable progress is being made by the company to seek compliance at the earliest:

Sr. #	Rule / sub-rule no.	Rule / sub-rule	Reasons for non-compliance	Future course of action
1.	3(2)	The Board shall have forty percent of its total members as independent directors within the first two years of this notification, which shall be raised to a majority of independent directors in the next two years, and the majority shall be maintained subsequently. The public Sector company shall disclose in the annual report Non-executive, Executive and Independent directors	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
2.	4(4)	The Board shall elect its chairman from amongst the independent directors so as to achieve an appropriate balance of power, increasing accountability, and improving the Board's capacity for exercising independent judgment.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
3.	5(5)(b)(iv)	A "register of interests" is maintained to record all relevant personal, financial and business interests, of directors and executives who have any decision making role in the company, and the same shall be made publicly available. Such interests may include, for instance, any significant political activity, including office holding, elected positions, public appearances and candidature for election, undertaken in the last five years.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
4.	5(8)	The Company is required to submit a report for compensation to the Government for consideration, in respect of any service delivered or goods sold by the Company as a public service obligation.	During the year, the Company was not involved in any contract relating to public service obligation, therefore no report for compensation to the Government was submitted.	Noted for future consideration, if any.
5.	8(1)	The performance evaluation of the members of the Board including the chairman and the chief executive shall be undertaken for which the Board shall establish a process, based on specified criteria, and the chairman of the Board shall take ownership of such an evaluation. The committees shall also carry out their evaluation on an annual basis.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.

Sr. #	Rule / sub-rule no.	Rule / sub-rule	Reasons for non-compliance	Future course of action
6.	8(2)	The Board shall monitor and assess the performance of senior management on a periodic basis, at least once a year, and hold them accountable for accomplishing objectives, goals and key performance indicators set for this purpose.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
7.	9(1)	The details of all related party transactions shall be placed before the audit committee of the Public Sector Company and upon recommendations of the Audit Committee, the same shall be placed before the Board for review and approval.	The Company has the practice to present the details of all related party transaction to the Audit Committee and the BOD at the time of finalization of accounts. As the accounts have not been finalized due to delay in issuance of Final Revenue Requirement by OGRA, the related party transactions have not been placed before the Audit Committee and the Board.	Will be complied at the time of approval of Financial Statements
8.	10(2)	Every Public Sector Company shall also prepare monthly accounts, for circulation amongst the Board members	The accounts were not prepared and circulated due to non-issuance of Final Revenue Requirement by the OGRA.	Noted for future compliance.
9.	12(2)	The board committees shall be chaired by non-executive directors and the majority of their members shall be independent. However, the independent directors in the committee shall not be less than their proportionate strength during the first four years of the Code. Such committees shall have written terms of reference that define their duties, authority and composition, and shall report to the full Board.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
10.	15(1)	The chief financial officer and the company secretary of a Public Sector Company shall attend all the meeting of the Board. Provided that unless elected as a director, the chief financial officer and the company secretary shall not be deemed to be a director or entitled to cast a vote at meetings of the Board for the purpose of these rules: Provided further that the chief financial officer and the company secretary shall not attend such part of the meeting of the Board, which involves consideration of the agenda item relating to them or that relating to the chief executive or any director	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance
11.	19(1)	There shall be a formal and transparent procedure for fixing remuneration packages individual directors. No director shall be involved in fixing his own remuneration.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.

Sr. #	Rule / sub-rule no.	Rule / sub-rule	Reasons for non-compliance	Future course of action
12.	19(2)	The Public Sector Company's annual report shall contain criteria and details of the remuneration of each director, including salary, benefits and performance linked incentives.	As this was the first year when the Rules became applicable, hence, the Company was unable to comply with the aforesaid requirement.	Noted for future compliance.
13.	Para 6	Every listed company shall determine a closed period prior to the announcement of interim / final results and any business decision, which may materially affect the market price of its share (refer to additional requirements of Code of Corporate Governance, 2012).	During the year ended 2014, the 'closed period' was not declared by the management, as no such announcements were made.	Noted for future compliance.

For and Behalf of Board of Directors

Khalid Rahman Managing Director

Karachi March 5, 2016

REVIEW REPORT TO THE MEMBERS ON THE STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE AND PUBLIC SECTOR COMPANIES (CORPORATE GOVERNANCE) RULES, 2013

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance and Public Sector Companies (Corporate Governance) Rules, 2013 (both hereinafter referred to as 'Codes') prepared by the Board of Directors of Sui Southern Gas Company Limited for the year ended June 30, 2014 to comply with the requirements of Listing Regulation No. 35 of the Karachi, Islamabad and Lahore Stock Exchanges where the Company is listed and the provisions of Public Sector Companies (Corporate Governance) Rules, 2013.

The responsibility for compliance with the Codes is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Rules and report if it does not and to highlight any non-compliance with the requirements of the Codes. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Codes.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal controls covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Codes require the Company to place before the Audit Committee, and upon recommendation of the Boards Audit Committee, place before the Board of Directors for their review and approval, its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required to ensure compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Codes as applicable to the Company for the year ended June 30, 2014.

Further, we highlight in the next page, instances of non-compliance with the requirements of the Codes as reflected in the rule reference where these are stated in the Statement of Compliance:

S. #	Reference	Description
i.	3(2)	Independent Directors are less than forty percent.
ii.	4(4)	The Chairman of the Board is not an independent Director.
iii.	5(5)(b)(iv)	The Company did not maintain a 'Register of Interest'.
iv.	5(8)	The Company did not submit compensation report to the Government in respect of public service obligation.
V.	8	The Board has not carried out performance evaluation of its members and senior management on periodic basis.
vi.	9(1)	No related party transactions were placed before the audit committee for their recommendation and subsequent approval by the Board.
vii.	10(2)	No monthly accounts were prepared for circulation amongst the Board members.
viii.	12(2)	None of the Board committees has a majority of independent Directors as its members. Further, the independent Directors in the committees are also less than their proportionate strength.
ix.	15(1)	The Chief Financial Officer was unable to attend some of the meetings of the Board.
Х.	19(1)	The Company does not have a procedure for fixing remuneration packages of individual Directors.
xi.	19(4)	The annual report does not contain criteria and details of remuneration of individual Director.
xii.	Para 6	The Company has not declared 'closed period' prior to announcement of interim / final results and any business decision which may affect the market price of its shares, as no such announcements were made (refer to additional requirements of Code of Corporate Governance, 2012).

Financial STATEMENTS

Auditors' Report to the Members

We have audited the annexed unconsolidated balance sheet of Sui Southern Gas Company Limited ("the Company") as at June 30, 2014, and the related unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement and unconsolidated statement of changes in equity together with the notes forming part thereof (here-in after referred to as unconsolidated financial statements), for the year then ended and we state that except for the matter as stated in paragraph (a) below, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

Except for the matter as stated in paragraph (a) below, we conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

a) As described in notes 26.1 and 26.2 to the unconsolidated financial statements, trade debts include receivables of Rs. 41,302 million (2013: Rs. 44,303 million) and Rs. 16,944 million (2013: Rs. 12,680 million) from K-Electric Limited (KE) and Pakistan Steel Mills Corporation (Private) Limited (PSML) respectively. As described in the aforesaid notes, significant portion of such receivables include overdue amounts, which have been considered good by the management and classified as current assets in these financial statements. Further, KE and PSML have disputed Late Payment Surcharge (LPS) on their respective balances and the financial condition of PSML is such that it has not been able to pay its obligations, due to which management has decided to recognize LPS on a receipt basis from the aforesaid entities effective from July 01, 2012.

Due to the adverse financial condition of PSML, disputes by KE and PSML with the Company on LPS, and large accumulation of their respective overdue amounts, we were unable to determine the extent to which the total amounts due from KE and PSML are likely to be recovered and the time frame over which such recovery will be made.

- b) in our opinion, except for the possible effects of the matter stated in paragraph (a) above, in our opinion, proper books of account have been kept by the Company as required by the Companies Ordinance, 1984;
- c) in our opinion:
- (i) except for the possible effects of the matter stated in paragraph (a) above, the unconsolidated balance sheet and unconsolidated profit and loss account together with the notes thereon have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied except for the change as disclosed in note 3.3.1 to the accompanying unconsolidated financial statements with which we concur;
- (ii) the expenditure incurred during the year was for the purpose of the Company's business; and
- (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;
- d) except for the possible effects of the matter stated in paragraph (a) above, in our opinion and to the best of our information and according to the explanations given to us, the unconsolidated balance sheet, unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement and the unconsolidated statement of changes in equity, together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan, and, give the information required by the Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2014 and of the loss, total comprehensive loss, its cash flows and changes in equity for the year then ended; and
- e) in our opinion, no Zakat was deductible at source under Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

We draw attention to:

(i) note 1.3 to the unconsolidated financial statements that describes that revenue requirement for the year ended June 30, 2011, 2012, 2013 and 2014 have been determined provisionally on the basis of stay orders of the High Court of Sindh (the Court) which was considered by OGRA while determining revenue requirement, except for impact of the orders dated November 20, 2015, whereby OGRA was directed to treat income from royalty (arrears) and income from LPG and NGL as non-operating income which was not considered by OGRA while determining revenue requirement of the Company for the year ended June 30, 2013 and 2014.

Our opinion is not qualified in respect of the above matter.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2014

1. STATUS AND NATURE OF BUSINESS

1.1 Sui Southern Gas Company Limited ("the Company") is a public limited Company incorporated in Pakistan and is listed on the Karachi, Lahore and Islamabad Stock Exchanges (now Pakistan Stock Exchange). The main activity of the Company is transmission and distribution of natural gas in Sindh and Balochistan. The Company is also engaged in certain activities related to the gas business including the manufacturing and sale of gas meters and construction contracts for laying of pipelines.

1.2 Regulatory framework

Under the provisions of license given by the Oil and Gas Regulatory Authority (OGRA), the Company is provided a minimum annual return before taxation of 17% per annum of the net average operating fixed assets (net of deferred credit) for the year, excluding financial and other non-operating expenses and non-operating income. The determination of annual required return is reviewed by OGRA under the terms of the license for transmission, distribution and sale of natural gas, targets and parameters set by OGRA. Income earned in excess / short of the above guaranteed return is payable to / recoverable from the Government of Pakistan (GoP) and is adjusted from / to the gas development surcharge balance payable to / receivable from the GoP.

1.3 Determination of revenue requirement

1.3.1 The Oil and Gas Regulatory Authority (OGRA) in its order dated December 02, 2010 and May 24, 2011 treated Royalty Income from Jamshoro Joint Venture Limited, Profit from Meter Manufacturing, Late Payment Surcharge and Sale of Gas Condensate as operating income which it had previously allowed as non-operating income in its decision dated September 24, 2010, for the year ended June 30, 2010. OGRA also in its aforesaid decision reduced benchmark of the allowable Unaccounted for Gas (UFG) from 7% to 4.25 % - 5%. Aggrieved by the above decision, the Company had filed an appeal against the decision of the OGRA in the High Court of Sindh (the Court), on which the Court provided interim relief whereby OGRA was directed to determine the revenue requirement on the same principles as per its decision of September 24, 2010, till final order of the Court. Also, with regard to UFG benchmark, OGRA was directed to carry out an impact assessment study and submit its report to the Court. Therefore, the revenue requirement for June 30, 2011, was determined based on the relief provided by the Court.

For subsequent years including current year ended June 30, 2014, the Company also obtained stay orders from the Court on the same principles which were fixed in the interim relief as discussed above, and thereafter, OGRA considered such principles in determining revenue requirement of the Company. Management is confident that the final decision of the Court would be in favor of the Company.

Had there been no stay in the current year, and these financial statements been prepared in accordance with the OGRA's decisions dated December 02, 2010 and May 24, 2011, the Company would have reported loss for the year amounting to Rs. 23,923 million.

1.3.2 In determining the Final Revenue Requirement (FRR) for the years ended June 30, 2013 and 2014, the OGRA treated income from royalty (arrears) and income of LPG and NGL as operating income amounting to Rs. 2,501 million and Rs. 6,600 million respectively, on which the Company filed application in the already pending Judicial Miscellaneous petitions in the High Court of Sindh that these income should have been treated as non-operating income as it was already decided by the Court in previous stay orders, while the cases are still to be finalised by the Court. The Court suspended the relevant paragraphs of OGRA orders wherein above income were treated as operating income thus requiring revision of FRR for 2013 and 2014; however, no revised FRR has been issued by the OGRA till the date of issue of these financial statements. Consequently, the impact of the new stay orders have not been taken and the aforesaid income have been treated as operating income in the financial statements of the current as well as previous year.

The management, based on the opinion of its legal counsel intends to get the above Court decision enforced and is confident that the OGRA will provide benefit of the aforesaid income to the Company.

Had OGRA issued revised FRR based on the above mentioned stay orders of the Court and these financial statements been prepared in accordance with the revised FRR, the Company would have claimed Rs. 6,600 million (2013: Rs. 2,501 million) as non-operating income which OGRA treated as operating income while determining revenue requirement of the Company. The cumulative impact of these stay orders would result in decrease of reported loss for the year by Rs. 6,017 million and the Company would have reported profit for the year amounting to Rs. 2,263 million.

2. BASIS FOR PREPARATION

2.1 Statement of compliance

These unconsolidated financial statements ("the financial statements") have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions of or directives issued under the Companies Ordinance, 1984 shall prevail.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except for certain investments stated in note 20 which are carried at their fair values, employee benefits which are valued at their present value using actuarial assumptions and freehold and leasehold land which are carried at revalued amount.

2.3 Functional and presentation currency

The financial statements are presented in Pakistani Rupees, which is the Company's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of the financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires the management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including reasonable expectation of future events. Revision to accounting estimates are recognised prospectively commencing from the period of revision.

Judgments and estimates made by management that may have a significant risk of material adjustments to the financial statements in the subsequent year are discussed in note 50.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 New accounting standards / amendments and IFRS interpretations that are effective for the year ended June 30, 2014

The following standards, amendments and interpretations are effective for the year ended June 30, 2014. These standards, interpretations and the amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

Standards / Amendments / Interpretations	Effective Date (accounting period
	beginning on or after)
Amendments to IAS 1 - Presentation of Financial Statements – Clarification of Requirements for	
Comparative information	January 01, 2013
Amendments to IAS 16 - Property, Plant and Equipment – Classification of servicing equipment	January 01, 2013
Amendments to IAS 19 - Employee Benefits	January 01, 2013
Amendments to IAS 32 Financial Instruments: Presentation - Tax effects of distributions to holders	
of an equity instrument, and transaction costs of an equity transaction	January 01, 2013
Amendments to IAS 34 - Interim Financial Reporting - Interim reporting of segment information for	
total assets and total liabilities	January 01, 2013
Amendments to IFRS 7 Financial Instruments: Disclosures - Offsetting financial assets and financial	
liabilities	January 01, 2013
IFRIC 20 - Stripping Costs in the Production Phase of a Surface Mine	January 01, 2013

The amendments to IAS 19 - Employee Benefits is effective from accounting period beginning on or after January 01, 2013 and have significant impact on the Company's financial statements for the year as discussed in the note 3.3.1. These changes are considered as change in policy.

3.2 New accounting standards / amendments and IFRS interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and the amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

Effective Date (accounting period beginning on or after)

Amendments to IAS 19 Employee Benefits: Employee contributions	July 01, 2014
IAS 27 (Revised 2011) – Separate Financial Statements	January 01, 2015 IAS 27 (Revised 2011) will concurrently apply with IFRS 10.
IAS 28 (Revised 2011) – Investments in Associates and Joint Ventures	January 01, 2015
Amendments to IAS 16 and IAS 38 - Clarification of acceptable methods of depreciation and amortization	January 01, 2016
Amendments to IAS 16 and IAS 41 Agriculture: Bearer plants	January 01, 2016
Amendments to IAS 32 Financial Instruments: Presentation - Offsetting financial assets and financial liabilities	January 01, 2014
IAS 36 Impairment of Assets - Recoverable Amount Disclosures for Non-Financial Assets	January 01, 2014
IAS 39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting	January 01, 2014
IFRS 10 – Consolidated Financial Statements	January 01, 2015
IFRS 11 – Joint Arrangements	January 01, 2015
IFRS 12 – Disclosure of Interests in Other Entities	January 01, 2015
IFRS 13 – Fair Value Measurement	January 01, 2015
IFRIC 21 - Levies	January 01, 2014

Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 First Time Adoption of International Financial Reporting Standards
- IFRS 9 Financial Instruments
- IFRS 14 Regulatory Deferral Accounts
- IFRS 15 Revenue from Contracts with Customers

3.3 Change in accounting policy

accounting policies adopted in the preparation of these unconsolidated financial statements are same as those applied in the preparation of the unconsolidated financial statements of the Company for the year ended June 30, 2013 except for change in accounting policy that is enumerated as follows:

3.3.1 IAS 19 - Employee Benefits (Revised 2011)

In the current year, the Company has applied IAS 19 Employee Benefits (as revised in 2011) and the related consequential amendments for the first time.

IAS 19 (as revised in 2011) changes the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in the fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous versions of IAS 19 and accelerate the recognition of past service costs. All actuarial gains and losses are recognised immediately through other comprehensive income in order for the net asset or liability recognised in the unconsolidated statement of financial position to reflect the full value of plan deficit or surplus.

Furthermore, the interest cost and expected return on plan assets used in the previous version of IAS 19 are replaced with a 'net interest' amount under IAS 19 (as revised in 2011), which is calculated by applying the discount rate to the net defined benefit liability or asset. These changes have had an impact on the amounts recognised in profit or loss and other comprehensive income in prior years. In addition, IAS 19 (as revised in 2011) introduces certain changes in the presentation of the defined benefit cost including more extensive disclosures.

Specific transitional provisions are applicable to first-time application of IAS 19 (Revised 2011). The Company has applied the relevant transitional provisions and restated the comparatives on retrospective basis in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Effect of retrospective application of change in accounting policy is as follows:

	Amount as	Effects of change	Amount
	reported earlier	in accounting policy	restated
	Toportou carnor	(Rupees in '000)	Tostatou
Effect on balance sheet as at July 01, 2012		(114000 111 000)

3.4 Property, plant and equipment

Initial recognition

The cost of an item of property plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably.

Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Property, plant and equipment except freehold land, leasehold land and capital work in progress are stated at cost less accumulated depreciation and impairment, if any. Capital work in progress are stated at cost, less accumulated impairment loss, if any.

Freehold land and leasehold land are stated at revalued amount and surplus arising on revaluation of freehold land and leasehold land is disclosed as surplus on revaluation of fixed assets.

The cost of the property, plant and equipment includes:

- (a) its purchase price including import duties, non refundable purchase taxes after deducting trade discounts and rebates; and
- (b) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent expenditure (including normal repairs and maintenance)

Expenditure incurred to replace a component of an item of operating assets is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the entity and the cost

the item can be measured reliably. All other expenditure (including normal repairs and maintenance) is recognised in the unconsolidated profit and loss account as an expense when it is incurred.

Capital work in progress

Capital work in progress is stated at cost less impairment loss, if any. The cost consists of expenditure incurred and advances made in the course of their construction and installation. Transfers are made to the relevant asset category as and when assets are available for intended use.

Depreciation

Compressors and transmission lines

Depreciation on compressors and transmission lines is charged from the dates these projects are available for intended use up to the date these are disposed off.

Other operating assets

Depreciable value of operating assets other than compressors and transmission lines is depreciated over their estimated service life from the month the assets are available for use in service till the month they are disposed off or fully depreciated, except for assets sold to employees under the service rules, in which case, depreciation is charged up to the date of disposal.

Useful lives of the assets are mentioned in note18,1 to these financial statements,

Assets' residual values and their useful lives are reviewed and adjusted at each balance sheet date if significant and appropriate.

Intangible assets

intangible asset is recognised as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably.

Definite life

Intangible assets are measured initially at cost and subsequently stated at cost less accumulated amortisation and impairment losses, if any.

Intangible asset with a finite useful life is amortised on a straight line basis over its useful life. Amortisation begins when the asset is available for use and ceases when the asset is derecognised. Amortisation charge is recognised in the unconsolidated profit and loss account.

The amortisation period for intangible assets with a finite useful life is reviewed at each year-end and is changed to reflect the useful life expected at respective year end.

Borrowing costs

Borrowing costs incurred on long term finances attributable for the construction of qualifying assets are capitalised up to the date the respective assets are available for the intended use. All other mark-up, interest and other related charges are taken to the unconsolidated profit and loss account.

Gains and losses on disposal

Gains and losses on disposal are taken to the unconsolidated profit and loss account.

Leased assets

Leased assets in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired by way of finance lease are stated at an amount equal to the lower of their fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation and impairment loss, if any. Depreciation on assets subject to finance lease is recognised in the same manner as for owned operating assets.

3.5 Investments

Available-for-sale

Investments which are intended to be held for an indefinite period and may be sold in response to the need for liquidity or changes in interest rates are classified as available for sale investments. These investments are initially recognised at fair value, being the cost of the consideration given and transaction cost. After initial recognition, investments classified as available-for-sale are re-measured at fair value, determined with reference to the year-end quoted rates. Gains or losses on re-measurement of these investments are recognised in other comprehensive income and accumulated in the investment revaluation reserve until the investment is sold, collected or otherwise disposed off, or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in unconsolidated profit and loss account. Impairment losses recognised in unconsolidated profit and loss for an investment in an equity instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in unconsolidated profit and loss, the impairment loss shall be reversed, with the amount of the reversal recognised in unconsolidated profit and loss account.

Held to maturity

Investments with fixed or determinable maturity where management has both the positive intent and ability to hold till maturity are classified as held-to-maturity. These investments are measured initially at its fair value plus transaction costs that are directly attributable to these investments. Subsequent to initial measurement, held to maturity investments are measured at amortised cost using effective interest method. All investments categorised under held to maturity are subject to annual review for impairment. Provision for impairment in value, if any, is taken to unconsolidated profit and loss account.

Investment in subsidiary

Investment in subsidiary is valued at cost less impairment loss, if any. A reversal of an impairment loss on subsidiary is recognised as it arises provided the increased carrying value does not exceed cost.

Gain or loss on sale of investment in subsidiary is recognised in the unconsolidated profit and loss account for the year.

Date of recognition

purchases and sales of investments that require delivery within the time frame established by regulations or market convention (regular way) are recognised at the trade date. Trade date is the date on which the Company commits to purchase or sell the investments.

De-recognition

All investments are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risk and rewards of ownership.

3.6 Net investment in finance lease

Contractual arrangements, the fulfillment of which is dependent upon the use of a specific asset and whereby the right to use the underlying asset is conveyed to the customer, are classified as finance lease. Net investment in finance lease is recognised at an amount equal to the present value of the lease payments receivable, including any guaranteed residual value determined at the inception of lease. Discount rate used in the calculation of the present value of minimum lease payments is the interest rate implicit in the lease. Any recoveries from customers in respect of the service cost and contingent rent are excluded from the minimum lease payments and are recorded as recoveries of transmission and distribution cost from the lessee and gas transportation income respectively. Interest income from net investment in finance lease is recognised on a pattern reflecting a constant periodic return on the Company's net investment in finance lease.

3.7 Stores, spares and loose tools

These are valued at lower of cost and net realisable value less impairment loss, if any. Cost is determined under the moving average basis. Goods-in-transit are valued at lower of cost incurred up to the unconsolidated balance sheet date and net realisable value less impairment loss, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

3.8 Stock-in-trade

Gas in pipelines

Stock of gas in transmission pipelines is valued at the lower of cost, determined on weighted average basis, and net realisable value.

Meter manufacturing division

Components (materials) are valued at lower of moving average cost and net realisable value less impairment loss, if any. Work-in-process includes the cost of components only (determined on a moving average basis). Finished goods are stated at the lower of cost determined on an average basis and net realisable value and includes appropriate portion of labor and production overheads. Components in transit are stated at cost incurred up to the unconsolidated balance sheet date less impairment losses, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

3.9 Trade debts and other receivables

Trade debts and other receivables are recognised at fair values plus directly attributable cost, if any.

A provision for impairment of trade and other receivables is established when there is an objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. Trade debts and other receivables considered irrecoverable are written off.

3.10 Trade and other payables

Trade and other payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

3.11 Mark-up bearing borrowings

Long term financing

Mark-up bearing borrowings are recognised initially at fair value which is usually the cost, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognised in the unconsolidated profit and loss account over the period of the borrowings. Transaction cost is amortised over the term of the loan.

Long term loans received from the Government of Sindh with interest rate lower than prevailing market interest rates for a similar instrument are initially measured at fair value. The fair value is estimated at the present value of all future cash payments discounted using the prevailing market rate of interest for a similar instrument with a similar credit rating. Difference between fair value and proceed received is treated as government grant and is amortised over the useful life of related asset constructed.

Leases

The Company accounts for lease obligations by recording the asset and the corresponding liability determined on the basis of discounted value of minimum lease payments. Financial charges are recognised in the unconsolidated profit and loss account.

3.12 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

3.13 Deferred credit

Amounts received from customers before July 01, 2009 and the Government as contributions and grants for providing service connections, extension of gas mains, laying of distribution lines, etc. are deferred and recognised in the unconsolidated profit and loss account over the useful lives of the related assets starting from the commissioning of such assets.

Contribution from customers

Advance taken from customers on or after July 01, 2009 for laying of distribution lines is recognised in the unconsolidated profit and loss account when the connection to the network is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".

3.14 Taxation

Current

Provision for current taxation is based on taxable income at the current rates of taxation, after taking into account the available tax credits and rebates.

Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the balance sheet date.

The Company recognises a deferred tax asset to the extent that it is probable that the taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.15 Revenue recognition

- Revenue from gas sales is recognised on the basis of gas supplied to customers at rates periodically announced by the OGRA.
- Meter rental income is recognised monthly at specified rates for various categories of customers.
- Revenue from sale of meters, liquid petroleum gas and gas condensate is recognised on dispatch to the customers.
- Deferred credit from Government and customers before July 01, 2009 is amortised and related income is recognised in the unconsolidated profit and loss account over the useful lives on commissioning of the related assets.
- Deferred credit from customers after July 01, 2009 for laying of distribution lines is recognised in the unconsolidated profit and loss when the network connection is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".
- Income from new service connections is recognised in unconsolidated profit and loss account immediately on commissioning of related assets,
- Dividend income on equity investments is recognised when right to receive the payment is established.
- Return on term deposits and royalty income are recognised on time proportion basis by reference to the principal outstanding at the effective interest rate.
- Late payment surcharge is recognised from the date the billed amount is overdue.

3.16 Impairment

Financial assets

Financial assets are assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Non-financial assets

The carrying amounts of non-financial assets other than inventories and deferred tax assets, are assessed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognised, as an expense in the unconsolidated profit and loss account, for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Value in use is ascertained through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risks specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.17 Staff retirement benefits

The Company operates the following retirement schemes for its employees:

- Approved funded pension and gratuity schemes for all employees.

Contributions to the schemes are made on the basis of actuarial valuations that is carried out annually under the projected unit credit method. Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income.

Past service cost is recognised in the unconsolidated profit and loss account as an expense on a straight line basis over the average period until the benefits become vested. To the extent that the benefits are already vested, the expense is recognised immediately in the unconsolidated profit and loss account.

- Unfunded free medical and gas supply facility schemes for its executive employees.

Liability under these schemes is recognised in the period in which the benefit is earned based on the actuarial valuations that is carried out annually under the projected unit credit method. The medical and free gas supply facilities have been discontinued for employees retiring after December 31, 2000.

Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income. Gas development surcharge with respect to actuarial gains / losses are recognized in other comprehensive income, instead of profit and loss account.

- Approved contributory provident funds for all employees (defined contribution scheme).

 The Company operates a recognised provident fund for all its employees. Equal contributions are made, both by the Company and the employees, to the fund at the rate of 7.5% of basic salary in the case of executive employees and 8.33% of basic salary and adhoc relief cost of living allowance in the case of non executive employees and the same is charged to the unconsolidated profit and loss account.
- A non-contributory benevolent fund, under which only the employees contribute to the fund.

3.18 Compensated absences

The liability for accumulated compensated absences of employees is recognised based on actuarial valuation in the period in which employees render services that increase their entitlement to future compensated absences.

3.19 Foreign currency translation

Transactions in foreign currencies are translated into Pak rupees at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pak rupees at the rates of exchange ruling at the balance sheet date. Exchange gains and losses are taken to the unconsolidated profit and loss account.

3.20 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financials assets and liabilities are initially measured at fair value and subsequently at fair value or amortised cost as the case may be. Financial assets are derecognised at the time when the Company loses control of the contractual rights that comprise the financial asset. Financial liabilities are derecognised at the time when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled or expired. Any gains or losses on derecognition of financial assets and financial liabilities are taken to the unconsolidated profit and loss account immediately.

3,21 Derivative financial instruments

Derivative financial instruments if any are recognised initially at cost. Subsequent to initial recognition, the derivative financial instruments are stated at fair value. Changes in fair value of derivative financial instruments are recognised in the unconsolidated profit and loss account, along with any changes in the carrying value of the hedged liability. Derivative financial instruments are carried as assets when fair value is positive and as liabilities when fair value is negative.

3.22 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set-off the recognised amount and the Company intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

3.23 Segment reporting

Segment reporting is based on the operating (business) segments of the Company. An operating segment is an identifiable component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. An operating segment's operating results are reviewed regularly by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, income tax assets, liabilities and related income and expenditure. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment.

The business segments are engaged in providing products or services which are subject to risks and rewards which differ from the risk and rewards of other segments. Segments reported are as follows:

Gas transmission and distribution

Gas transmission and distribution segment is engaged in transmission and distribution of natural gas and construction contracts for laying of pipelines in Sindh and Balochistan.

Meter manufacturing

Meter manufacturing segment is engaged in manufacture and sale of gas meters.

3.24 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits in banks, short term running finance under mark-up arrangement availed by the Company and short term liquid investments that are readily convertible to known amounts of cash.

3.25 Earnings per share

Earnings per share is calculated by dividing the profit after tax for the year by the weighted average number of shares outstanding during the year.

3.26 Dividend and reserves appropriation

Dividend is recognised as a liability in the financial statements in the period in which it is declared. Movement in reserves is recognised in the year in which it is approved.

4, ISSUED, SUBSCRIBED AND PAID-UP CAPITAL

			4,672,533	4,672,533
			4,907,401	4,907,401

5.1 Share capital restructuring reserve

This represents the reduction of share capital of former Sui Gas Transmission Company Limited (SGTC) due to merger of Sui Gas Transmission Company Limited and Southern Gas Company Limited (SGC) in March 1989.

5.2 Fixed assets replacement reserve

This represents profit allocated in 1986 by former Southern Gas Company Limited for replacement of gas distribution lines in rural Sindh areas. Subsequently, all the rehabilitation activities were carried out from the Company's working capital.

5.3 Special reserve I

This represents accumulated balance arising on a price increase of Rs. 4.10 per MCF granted to the Company by the Government of Pakistan (GoP) in January 1987 retrospectively from July 01, 1985 to enable the Company to meet the requirements of Asian Development Bank regarding debt / equity ratio and other financial covenants specified in loan agreements with them.

5.4 Special reserve II

This represents special undistributable reserve created as per the decision of the Board of Directors to meet the future requirements of the Company.

5.5 Reserve for interest on sales tax refund

This represents the reserve for the interest accrued on the sales tax refundable under Section 67 of the Sales Tax Act, 1990, which is not available for distribution to shareholders till the time it is received.

6. SURPLUS ON REVALUATION OF FIXED ASSETS

This represents surplus over book values resulting from the revaluation of the Company's freehold and leasehold land carried out by means of an independent valuation by Oceanic Surveyors (Private) Limited to determine the fair value as of June 30, 2011. The valuation was based on market research.

Had the Company's freehold and leasehold land been measured on historical cost basis, the carrying amount would have been as follows:

	(Rupees in 1000)
Freehold land	56,751
Leasehold land	208,352
	265,103

- 11.1 This represents amount received from the Government for supply of gas to new towns and villages and is recognised as grant when the conditions specified by the Government are met and is amortised over the useful life of related projects.
- 11.2 This represents amount received from customers for the cost of service lines and gas mains, etc. These are taken to unconsolidated profit and loss account based on the policy stated in note 3.13 to these financial statements.
- 11.3 Pipelines constructed / built under deferred credit arrangement are not given 17% minimum guaranteed return. However, Unaccounted for Gas ("UFG") losses on such pipelines are considered in the determination of the Company's guaranteed return.

12. LONG TERM ADVANCES

These represent amounts received from Government of Pakistan for gas supply to new towns and villages and laying of distribution lines, etc. These advances are transferred to deferred credit once the related projects are commissioned. As stated in note 3.13 to these financial statements, such deferred credit is amortised over the estimated useful lives of related assets.

	Balance as at June 30	143,528	138,969

- This amount was received by the Company from Pak Arab Refinery Company Limited (PARCO) in accordance with an agreement dated October 12, 1988. It represents consideration for 50% share of PARCO in the Indus right bank pipeline common right of way and is the full settlement of PARCO's total liability for its share, irrespective of the final amount of compensation payable to the land owners by the Company. The final liability of the Company has not been estimated, as the amount of compensation due to land owners has not been determined by the Authorities. Accordingly, the amount received from PARCO has been classified as an advance.
- 15.4 Gas Infrastructure Development (GID) Cess has been levied since December 15, 2011 and is chargeable from industrial gas customers at different rates as prescribed by the Federal Government through OGRA notification. GID Cess is collected and deposited with the Ministry of Petroleum and Natural Resources (MPNR) in a manner prescribed by the Federal Government.

On June 13, 2013 the Honorable Peshawar High Court declared the levy, imposition and recovery of the Cess unconstitutional with the direction to refund the "Cess" so far collected. Honorable Supreme Court of Pakistan examined the case and in its decision dated August 22, 2014 concluded that GID Cess is a fee and not a tax and on either count the "Cess" could not have been introduced through a money bill under Article 73 of the Constitution and the same was therefore not validly levied in accordance with the Constitution. However, on September 25, 2014 the President of Pakistan had passed GID Cess Ordinance 2014, which is applicable in whole Pakistan and has to be complied by all parties.

On September 29, 2014, the Honorable Sindh High Court gave a stay order to various parties against the promulgation of Presidential order on September 25, 2014.

On May 22, 2015 the GID Cess Act is passed by Parliament applicable on all parties. Following the imposition of the said Act, many customers filed a petition in Honorable Sindh High Court and obtained stay order against Act passed by the Parliament. The Company has obtained legal opinion, which states that management has to comply with the stay order of Honorable High Court of Sindh.

The Company is a collecting agent and depositing GID Cess to the Ministry of Petroleum and Natural Resources (MPNR) and the Company will refund to the customers once it will be received from Ministry of Petroleum and Natural Resources (MPNR).

15.5 This includes Rs. 101.725 million (2013: Rs. 102.459 million) on account of amount payable to disconnected customers for gas supply deposits.

2014
(Rupees in '000)

17.1 Contingencies

17.1.1 Guarantees issued on behalf of the Company

125,032
24,905

- 17.1.2 Jamshoro Power Company Limited [(JPCL) WAPDA] has lodged a claim against the Company amounting to Rs. 23,000 million (2013: Rs. 765.024 million) for short supply of gas under the provisions of an agreement dated April 10, 1995 between the Company and JPCL. As at June 30, 2015 this amount has increased to Rs. 35,182 million. Management has not made provision against the said amount in the books of the Company as management is confident that ultimately this claim would not be payable. Furthermore, the Company is in the process of appointing arbitrator to resolve the matter in accordance with Arbitration Act, 1940.
- 17.1.3 JPCL has raised another claim of Rs. 5.793 million (2013: Rs. 5.793 million) for the alleged low Gas Calorific Value (GCV) measurement for the period from January 2002 to December 2002 and for the month of February 2003 as compared to the actual GCV billed by the Company. Management has not made provision against the said amount in the books of the Company as management is confident that ultimately this claim would not be payable.
- 17.1.4 Habibullah Coastal Power (Private) Company (HCPC) has claimed Rs. 1,899.96 million (2013: Rs 1,237.32 million) from the Company for short supply of gas under the provisions of an agreement dated March 31, 1996 between the Company and HCPC. As at June 30, 2015, this amount has increased to Rs. 2,382.76 million. Management has not made provision against the said amount as management is confident that ultimately this claim would not be payable. Further subsequent to the year end, HCPC has invoked arbitration as per article of Gas Sale Agreement.
- 17.1.5 Demand finance facilities have been given to the Company's employees by certain banks for purchase of vehicles against the Company's guarantee and hypothecation of the Company's present and future stocks, book debts, receivables and the Company's investment in shares having a face value of Rs. 0.5 million (2013: Rs. 0.5 million). Loan outstanding at the year end was Rs. 3.130 million (2013: Rs. 2.233 million).
- 17.1.6 Previously the Income Tax Appellate Tribunal (ITAT) had decided an Appeal in favor of Income Tax Department on the issue of capital gain made on disposal of LPG business in the financial year 2001 resulting in tax impact of Rs. 143 million. Management has filed an appeal before Honorable High Court. The management is of the view that sale of LPG business being in nature of slump transaction was not chargeable to tax under the Income Tax Ordinance, 2001. Accordingly, no provision regarding the said claim has been made in these unconsolidated financial statements as the management, based on its legal advisor's opinion, is confident that the matter would be resolved in favor of the Company.
- 17.1.7 Income tax authorities have passed an amended assessment order for the tax year 2005 resulting in additional tax liability amounting to Rs. 103.745 million, which has been adjusted from the sales tax refund of the Company. The Company preferred appeal in this case. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- 17.1.8 The Additional Collector (Adjudication) Sales Tax and Federal Excise passed an order against the Company with a demand of Rs. 311.397 million for the years 2002-03, 2003-04 and 2005-06 in respect of sales tax on disposal of fixed assets, incorrect adjustment against exempt supplies, non-payment of sales tax on transportation charges, late payment surcharge and service connection charges along with default surcharge and penalty. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- Income tax authorities have issued notices under section 122 / 177 of the Income Tax Ordinance, 2001 for the tax years 2008, 2009, 2010 and 2011, disallowing certain expenses. The Company has filed petition in the High Court of Sindh to seek the authoritative interpretation of the Honorable Court, in respect of disallowance of interest on delayed payment of gas bills on account of failure to deduct withholding tax under section 151(1)(d) read with section 158 of the Income Tax Ordinance, 2001 and disallowance of depreciation on fixed assets held under musharka arrangement. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- The Deputy Commissioner Inland Revenue passed an order for the financial year 2009-10 against the Company with a demand of Rs. 1,635 million, along with default surcharge and penalty on account of disallowance of input sales tax on line losses / Unaccounted for Gas (UFG) along with other observations. Upon appeal, the Commissioner (Appeals) has reduced the demand to Rs. 230 million plus default surcharge. The Company has filed appeal with Appellate Tribunal Inland Revenue on issues decided against the Company by Commissioner (Appeals) whereas the Tax Department has also filed appeal before Appellate Tribunal on issues decided in the Company's favor. Further, issue of allowability of input sales tax on UFG was also raised by Tax Department for financial year 2007-08.

On filing of suit by the Company, the Honourable High Court of Sindh has stayed demand for FY 2009-10 and stayed proceedings for FY 2007-08. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.

- The Additional Commissioner Inland Revenue passed an order against the Company with a demand of Rs. 1,725 million in respect of disallowance of tax depreciation on additions to fixed assets and exchange loss in income tax audit for tax year 2011. On filing of suit by the Company, the Honourable High Court of Sindh has stayed the demand. The Commissioner (Appeals) has decided the issue of exchange loss in Company's favour while remanding back the issue of tax depreciation to tax department for hearing the case afresh. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- 17.1.12 The Additional Collector Inland Revenue passed an order against the Company with demand of Rs. 1,314 million along with default surcharge. The principal tax demand was recovered by the authority. However, the Company has filed a reference with FBR for waiver of default surcharge and penalty, which is pending. The Honorable High Court of Sindh has also stayed the recovery of the additional tax and penalties. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- 17.1.13 The Deputy Commissioner Inland Revenue (DCIR) passed an order against the Company with a demand of Rs. 432 million. The demand is in respect of disallowance of exchange loss, addition on account of gain on disposal of fixed assets, interest free loans to employees and addition under section 34(5) of the Ordinance. Further the DCIR has not allowed credit for taxes paid, refund adjustment relating to tax year 2009 and adjustment of carry forward of minimum tax for financial years 2005-06, 2007-08 and 2008-09 claimed in the Income Tax Return for the financial year 2009-10. The Commissioner (Appeals) has maintained the disallowances except for interest free loans and directed tax department that credit of taxes paid, and minimum tax adjustments for FY 2005-2006 and FY 2008-09 be allowed after verification. The Commissioner (Appeals) has not given decision on addition under section 34(5) and refund ajustment. Against the Commissioner (Appeals) order, the Company is in the process of filing appeal before Appellate Tribunal Inland Revenue. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- 17.1.14 Income tax authorities have issued show cause notice to the Company for recovery of additional tax of Rs. 422 million for late deposit of withholding income tax on payment to permanent establishments of non-resident Exploration and Production Companies for the year 2013. The Company has filed an appeal in the Honorable High Court of Sindh, which has stayed the recovery proceedings. No provision has been made in these unconsolidated financial statements as the Company and its legal counsel is confident that the outcome of the case will be in favor of the Company.
- 17.1.15 The Company is subject to various other claims totalling Rs. 873 million by income tax and sales tax authorities. The management is confident that ultimately these claims would not be payable.
- 17.1.16 One of the gas supplier has claimed excess amount of late payment surcharge on gas bills payable by the Company. Management is of the view that amount recorded by the Company is adequate and believe that no further provision is required to be recorded in these financial statements.
- 17.1.17 The Company is party to number of cases in respect of billing disputes and related matters. Based on the opinion of the Company's legal department, the management is confident that the outcome of these cases will be in favor of the Company. Accordingly, no provision has been made in respect of those cases in these financial statements.

Inter State Gas Systems (Private) Limited (ISGSL) entered into a service agreement with the Company and SNGPL which was effective from July 01, 2003, whereby ISGSL is mainly required to ascertain, identify and advise to the Company and SNGPL on the most convenient and reliable sources of natural gas, which can be imported. The whole operation of ISGSL, is carried out in connection with the service agreement and ISGSL was allowed under the agreement to recover its cost / expenditure from the Company and SNGPL. The Company bears 51% of the expenses of ISGSL, as per the directives of Economic Coordination Committee of the Cabinet.

^{20.2} Sale of these shares has been restricted by the Government of Pakistan due to its privatisation, till further directives.

The Company entered into agreements with Oil and Gas Development Company Limited (OGDCL), Sui Northern Gas Pipelines Limited and ENI Pakistan Limited to use the Company's transmission pipelines for distribution of gas. The terms of the agreements entered into are for a substantial portion of the useful economic lives of the related assets. On June 30, 2013, agreement with OGDCL expired and the management is negotiating for renewal of agreement.

The interest rates used to discount future minimum lease payments under the leases are based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in finance leases. The effective interest rate ranges from 11.4% to 34.6% per annum.

Upon completion of work, the cost thereof is transferred to transmission and distribution cost and recoveries from such customers are shown as deduction there from as reflected in note 33.2 to these financial statements.

		Note	2014 (Bune	2013 es in '000)
26.	TRADE DEBTS		(114)	
	Considered good - secured - unsecured	26.1 & 26.2	16,038,079 62,867,614 78,905,693	14,235,172 62,049,580 76,284,752
	Considered doubtful		9,180,586	7,595,958 83,880,710
	Provision against impaired debts	26.3	(9,180,586) 78,905,693	(7,595,958) 76,284,752

As K-Electric Limited (KE) has been defaulting and not making payment of Late Payment Surcharge (LPS) and the Company filed a suit in the High Court of Sindh in November 2012, for recovery of its aggregate claim, the Company effective from July 01, 2012 decided to account for LPS from KE on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 41,302 million (2013: Rs. 44,303 million) as at June 30, 2014 receivables from KE. Out of this, Rs. 37,450 million (2013: Rs. 40,337 million) as at June 30, 2014 are overdue. However, the aggregate legal claim of the Company from KE amounts to Rs. 55,458 million (2013: Rs. 50,935 million). This amount has been arrived at as per the practice of the Company to charge LPS to customers who do not make timely payments.

Considering that the Company has valid legal claim for recovery of LPS together with outstanding principal amount, the Company filed the aforementioned suit against KE amounting to Rs. 55,705 million. The above suit has been filed based on the following grounds:

- As per the agreement dated June 30, 2009 which was entered between the Company and KE for making outstanding payment in 18 installments, the Company was entitled to charge LPS on outstanding principal amount at rate of:
- a. Highest OD rate being paid by SSGC or;
- b. Highest rate at which interest is payable on gas producer bills.
- As per the above agreement and as per the audited financial statements of KE as at June 30, 2010, KE, itself, acknowledged and recognized LPS till June 30, 2010, in its books of account which confirm management's assertion that the Company has legal claim over KE for charging of LPS

KE also filed case against the Company in the High Court of Sindh for recovery of damages / losses of Rs. 61,614 million as KE claimed that the Company had not supplied the committed quantity of natural gas to KE. However, the legal counsel of the Company is of the view that claim of KE is not valid and is not as per terms of the agreement where it was agreed that the Company would make excess supply of natural gas if KE would make timely payments. As KE defaulted on many instances in making payments on due dates, the Company was not bound to supply excess quantity of natural gas as per terms of the agreement.

Management has consulted with its legal counsel, who is of the view that the Company has a strong case over recovery of the outstanding amount due to which management considers outstanding balance good and recoverable. The legal counsel also viewed that the Company has a good claim over LPS on outstanding balance, but considering that the matter is in dispute, as discussed above, the Company has decided to recognize LPS from KE when either such claimed amounts are recovered or when these are decreed and their recovery is assured.

As Pakistan Steel Mills Corporation (Private) Limited (PSML) has been defaulting and not making payment of Late Payment Surcharge (LPS), the Company effective from July 01, 2012 decided to account for LPS from PSML on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 16,944 million (2013: Rs. 12,680 million) including overdue balance of Rs. 16,488 million (2013: Rs. 12,232 million) receivable from PSML. However, the aggregate legal claim of the Company from PSML amounts to Rs. 24,443 million (2013: Rs. 15,507 million). This amount has been arrived at as per the practice of the Company to charge LPS to customers who do not make timely payments.

Although PSML's financial position is adverse, and it has no capacity to repay its obligations on its own, management is confident that the entire amount will be ultimately recovered because PSML is a government-owned entity and is continuously being supported by the Government of Pakistan.

	Provision against other receivables	30.5	(2,346,359)	(2,028,106)
			58,970,492	36,652,321

30.1 Gas development surcharge receivable from GoP

30.1.1 This includes Rs. 390 million (2013: Rs. 390 million) recoverable from the Government of Pakistan (GoP) on account of remission of gas receivables from people of Ziarat under instructions from GoP. Although, management is confident that this amount is fully recoverable, as a matter of abundant caution full provision has been made in these financial statements.

2017

30.1.2 In the current year, the Company adopted the revised IAS 19 Employee Benefit (as revised in 2011) and the related consequential amendments. The amendments require recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous version of IAS 19.

As a result of adoption of the revised standard, management has recognized actuarial gains and losses which previously were unrecognized / deferred by the Company as such treatment was allowed by the previous version of IAS 19. The financial impacts due to recognition of actuarial losses were Rs. 1,392 million, Rs. 267 million, and Rs. 690 million, for the years ended June 30, 2014, 2013 and opening retained earnings respectively. The comparative amounts for the previous years, i.e. June 30, 2013 and 2012 have been restated to incorporate impact of actuarial losses related to these years. The Company has also claimed these losses in determining revenue requirement of the Company for the year ended June 30, 2014; having total impact of Rs. 2,349 million.

The Company has recognized such Gas development surcharge in other comprehensive income for the year ended June 30, 2014 instead of profit and loss account on the premise that actuarial losses have also been recognized in other comprehensive income.

This includes Rs. 12,211 million (2013: Rs. 3,976 million) receivable under the uniform cost of gas agreement with Sui Northern Gas Pipelines Limited and lease rental receivable and recoverable against lease service cost and contingent rent amounting to Rs. 144 million (2013: Rs. 109 million).

		2014	2013
		(Rup	ees in '000)
30.3	Workers' Profit Participation Fund		
	Balance as at July 01	452,655	59,912
	Amount refunded to the Company	-	(59,912)
	Allocation for the year	-	(17,345)
	Amount paid by the Company	777,000	470,000
	Balance as at June 30	1,229,655	452,655

Sales tax refunds arise due to uniform purchase price adjustment with SNGPL and zero rating of sales tax on gas sales for various industries. Sales Tax refunds are processed through FBR's Sales Tax Automated Refund Repository (STARR) system. Due to several snags in the functioning of STARR, valid input sales tax claims of the Company are deferred. Realizing the problems of STARR, in August 2010, dispensation from processing of sales tax refunds through the STARR system was allowed by FBR and substantial refunds were released after issuance of this letter under corporate guarantee (subject to post refund audit). However, above said dispensation was also withdrawn by FBR in May 2012. After withdrawal of said dispensation, the deferred refunds are issued to the Company on the basis of manual verification of documents (third party vendor sales tax returns) by tax authorities.

		2014	2013
		(Rup	ees in '000)
30.5	Movement of provision against impaired other receivables		
	Balance as at July 01	2,028,106	538,322
	Provision for the year	318,253	1,489,784
	Balance as at June 30	2,346,359	2,028,106

- During the year, the Supreme Court of Pakistan passed an order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 P of 2009, whereby the Implementation Agreement of Badin gas field dated August 12, 2003 signed between the Company and Jamshoro Joint Venture Limited was declared void from the date of its inception. The Court constituted a committee to calculate royalty payments (on the LPG extracted to date) on the basis of the Saudi Aramco reference price plus freight charges instead of the "Reference Price" for the full period during which the Implementation Agreement had been operational. However, the freight cost is yet to be finalised for which the Court has appointed an Advocate Supreme Court to determine the matter which is still pending.
- 30.7 This amount comprises of receivable in respect of royalty income, sale of liquid petroleum gas, Federal Excise Duty and Sindh Sales Tax on Franchise Services amounting to Rs. 7,474 million (2013: Rs. 2,247 million), Rs. 5,160 million (2013: Rs. 312 million), Rs. 1,070 million (2013: Rs. 896 million) and Rs. 646 million (2013: Rs. 501 million) respectively.

As at year end, amount payable to JJVL is Rs. 3,298 million (2013: Rs. 255 million) as disclosed in note 15 to these financial statements.

- 33.1.1 Under section 21 of the Oil and Gas Regulatory Authority Ordinance, 2002, the Government of Pakistan has issued a policy guideline to ensure the uniformity of gas prices for customers throughout the country. Accordingly, under this policy guideline and pursuant to an agreement between the Company and Sui Northern Gas Pipelines Limited effective from July 1, 2003, the cost of gas purchased is being worked out by both the companies on an overall average basis in such a manner that input of gas for both companies become uniform. Under this agreement, the company with lower weighted average cost of gas is required to pay to the other company so that the overall weighted average rate of well head gas price of both the companies is the same.
- 33.1.2 UFG in parlance of a gas distribution and transmission company means the difference between gas purchased in volume, gas billed in volume and gas used internally by the company for its operations. UFG results from a number of factors which inter alia comprises of gas leakages both above ground and underground, measurement errors, meter tampering, meter getting slow with time and use, illegal connections and such other connections which bypass the meters installed. While it is almost impossible to estimate the amount of gas theft in UFG, it is estimated that it is a significant percentage of the total UFG.

The Company is taking a number of measures to control and reduce UFG. These are elaborated below:

- Vigilance for identification of theft cases, illegal networks and necessary remedial measures thereafter.
- Measurement errors identification and rectification.
- Above ground and underground leakage identification and rectification.

The Company's actions are likely to be more effective with the co-operation of various stakeholders and law enforcement agencies.

Actual UFG for the year ended June 30, 2014 is 13.82 % (2013 8.43%). OGRA has restricted UFG to 7% due to stay order granted by the Honorable High Court of Sindh.

The Company entered into Implementation Agreement with Jamshoro Joint Venture Limited (JJVL) and granted 'exclusive rights' to process and extract Liquefied Petroleum Gas (LPG) and Natural Gas Liquids (NGL) from Composite Associated Gas Mixture (CAGM) made available at JJVL plant.

Gas Shrinkage charged to JJVL means the amount payable by JJVL to the Company as compensation for loss in volume and gross calorific value of CAGM due to recovery of LPG and NGL at the JJVL plant. This is in fact consideration for loss in volume of gas and its gross calorific value between Tie in Point and delivery point.

This amount was being recovered under the Implementation Agreement which has been declared void by the Supreme Court of Pakistan vide its Order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 - P of 2009. Thus no shrinkage has been charged after Supreme Court Order.

- This amount includes sale of LPG to SSGC LPG (Private) Limited (wholly owned subsidiary) amounting to Rs. 2,215 million (2013: Rs. 286 million).
- This amount includes Royalty income of Rs. 4,257 million pursuant to Supreme Court decision dated December 04, 2013 with respect to the Constitution Petition No.5 of 2011 and Human Rights Case No.15744 P of 2009, whereby the Implementation Agreement of Badin gas field dated August 12, 2003 signed between the Company and Jamshoro Joint Venture Limited (JJVL) was declared void from the date of its inception. A total amount of Rs. 4,257 million was worked out for the period from August 2003 to December 2013 by a committee constituted by Supreme Court to calculate royalty payments (on the LPG extracted to date) on the basis of the Saudi Aramco reference price plus freight, for the full period during which the Implementation Agreement had been operational. However, the difference of freight amount is yet to be finalised for which Supreme Court has appointed an Advocate Supreme Court to determine the matter which is still pending.
- 37.6 The Company signed various Memorandum of Understanding (MoUs) with Jamshoro Joint Venture Limited (JJVL) wherein JJVL was allowed to extract LPG from various gas fields. As per MoUs, 50% of extracted quantity is sold out to JJVL and 50% to other customers.

40. STAFF RETIREMENT BENEFITS

40.1 Funded post retirement pension and gratuity schemes

As mentioned in note 3.17 to these financial statements, the Company operates approved funded pension and gratuity schemes for all employees. Contributions are made to these schemes based on actuarial valuation. Latest actuarial valuations were carried out as at June 30, 2014 under the projected unit credit method for both non-executive and executive staff members.

Fair value of plan assets and present value of obligations

The fair value of plan assets and present value of defined benefit obligations of the pension and gratuity schemes at the valuation date were as follows:

	2014

Significant actuarial assumptions

Significant assumptions used for the valuation of above schemes are as follows:

	N	on-executives
	2014	2013
	(%)	(%)
Discount rate	13.25	11.00
Expected rate of increase in salary level	11.25	9.00
Increase in pension	6.25	4.00

Executives and

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected rate of salary and pension increase. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

	-	Impact of change in assumptions in present value of defined benefit obligation			
Change in	-	Exec	utives	Non-ex	ecutives
assumptior	1	Pension	Gratuity	Pension	Gratuity
			(Rupees	in '000)

In presenting the above sensitivity analysis, the present value of the define benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the unconsolidated balance sheet.

The expected pension and gratuity expense for the next one year from July 01, 2014 is as follows:

	Exec	Executives		Non-executives	
	Pension	Gratuity	Pension	Gratuity	
		(Rupee	s in '000)		
Current service cost	52,986	206,120	-	176,563	
nterest cost	87,142	451,811	2,275	439,292	
Expected return on plan assets	(154,072)	(270,642)	(36,772)	(335,910)	
Amount transferred out / (in)	216,001	(216,001)	176,598	(176,598)	
	202,057	171,288	142,101	103,347	

40.2 Unfunded post retirement medical benefit and gas supply facilities

As mentioned in note 3.17 to these financial statements, the Company provides free medical and gas supply facilities to its retired executive employees. The free gas supply facility has been discontinued for employees who had retired after December 31, 2000. The latest acturial valuations of the liability under these schemes were carried out as at June 30, 2014 under the projected unit credit method, results of which are as follows:

Number of employees under the scheme

The number of employees covered under the following defined benefit plans are 2,455 (2013: 2,479).

		2014	
	Post retirement medical facility	Post retirement gas facility -(Rupees in '000)	Total

47. FINANCIAL RISK MANAGEMENT

The objective of Company's overall financial risk management is to minimize earnings volatility and provide maximum return to shareholders. The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management frame work and policies.

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

47.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss without taking into account the fair value of any collateral. Credit risk arises from trade debts, net investment in finance lease, loans and advances, trade deposits, bank balances, interest accrued and other receivables. To reduce the exposure toward the credit risk, comprehensive customer category wise credit limits and terms have been established. In case of industrial and commercial customers gas supply deposits equivalent of three months estimated gas consumption and deposit from domestic customers as per rates notified by OGRA are taken to reduce credit exposure. The Company continuously monitors the credit given to customers and interest accrued thereon and has established a dedicated recovery department for follow-up, recovery or disconnection of gas supply as the case may be. Loans and advances given to employees are secured against retirement benefits of the employees and title deed of properties of employees. Balances are maintained with banks of sound credit rating. The Company attempts to control credit risk in respect of other receivables by monitoring credit exposures of counterparties.

^{**}Comparative balances with these parties have not been disclosed as these parties were not related parties in last year.

The maximum exposure to credit risk before any credit enhancement at year end is the carrying amount of the financial assets as set out below:

Financial assets - loans and receivables	2014 (Rupe	2013 es in '000)
Trade debts	78,905,693	76,284,752
Net investment in finance lease	692,877	802,950
Loans and advances	2,156,921	1,971,837
Deposits	7,064	18,233
Bank balances	1,189,182	838,733
Interest accrued	5,803,864	5,041,380
Other receivables	25,817,029	6,515,489
	114,572,630	91,473,374

47.1.1 Collateral and other credit enhancements obtained

Security against supply of gas to industrial and commercial customers is taken on the basis of average three months, gas consumption estimated at the time of connection in form of cash deposits (gas supply deposits) / bank guarantee / irrevocable letter of credit. Security against supply of gas to domestic customers are obtained at rates notified by the OGRA. These collaterals are adjusted / called following on disconnection of gas supply. Details of security held at year end is as follows:

Cash deposits	8,305,883	5,211,695
Bank guarantee / irrevocable letter of credit	24,637,936	21,229,159

47.1.2 Credit Quality

The Company monitors the credit quality of its financial assets with reference to historical performance of such assets and where available external credit ratings. The carrying values of all financial assets which are neither past due nor impaired are given in the note 47.1.3 below:

The credit quality of the Company's major bank accounts is assessed with reference to external credit ratings which are as follows:

47.1.3 Past due and impaired financial assets

Industrial and commercial customers

The age analysis of trade debt balances relating to industrial and commercial customers at year end is as follows:

Not due balances
Past due but not impaired
Past due and impaired
Disconnected customers
Total

2014			2	013		
Ī	Gross carrying	Impairment		Gross carrying		Impairment
	amount			amount		
		(Rupe	es ir	י '000)		
	16,745,784	-		15,391,500		-
	55,468,158	-		54,100,370		-
	3,801,603	2,646,215		3,076,949		3,076,949
	612,918	574,015		534,157		528,941
	76,628,463	3,220,230		73,102,976		3,605,890

Past due but not impaired balances include aggregate overdue balances of K-Electric, PSML and WAPDA amounting to Rs. 54,609 million and are subject to inter corporate circular debt of government entities and K-Electic.

The Company has collateral / security against industrial and commercial customers amounting to Rs. 25,876 million (2013: Rs. 25,081 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due. In case of past due balances the Company starts recovery process through recovery department and where the amount is in excess of collateral and is not recovered by recovery department, then disconnection of meter (disconnected customers) is considered. Receivables which are past due and against which recoveries are not made or which are disconnected are considered as impaired debts.

Domestic customers

The age analysis of trade debt balances relating to domestic customers at year end is as follows:

Not due balances
Past due but not impaired
Past due 1 - 6 months
Past due and impaired
Past due 7 - 9 months
Past due 10 - 12 months
Past due 13 - 18 months

The Company has collateral / security against domestic customers amounting to Rs. 4,068 million (2013: Rs. 1,360 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due.

Interest accrued

As at June 30, 2014 interest accrued was Rs. 5,804 million (2013: Rs. 5,041 million). Interest is mainly accrued on customer balances which are past due. Interest on past due balances includes aggregate over due balances of WAPDA and SNGPL amounting to Rs. 5,428 million (2013: 4,981 million), recovery of which is subject to inter corporate circular debt of Government entities.

Other receivables

As at June 30, 2014 other receivable financial assets amounted to Rs. 25,817 million (2013: Rs. 6,515 million). Past due other receivables amounting to Rs. 10,236 million (2013: Rs. 3,681 million) include over due balances of SNGPL amounting to Rs. 4,987 (2013: Rs. Nil) and JJVL amounting to Rs. 4,128 million (2013: Rs. 3,445 million) and of SSGC LPG amounting of Rs. 977 million (2013: Rs. 236 million).

47.1.4 Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Company's performance to developments affecting a particular industry. Concentration of credit risk is determined with references to the individual customers / counter parties, type as well as geographical distribution of customers / counter parties. Concentration of credit risk in financial assets of the Company is as follows:

Trade debts

Customer category wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2013
	(Rup	pees in '000)
Power generation companies	43,216,317	45,904,212
Cement industries	31,970	49,722
Fertilizer and steel industries	17,812,032	13,353,847
Other industries	10,985,706	8,951,865
Total industrial customers	72,046,025	68,259,646
Commercial customers	1,362,208	1,237,440
Domestic customers	5,497,460	6,787,666
	78,905,693	76,284,752

At year end the Company's most significant receivable balances were K-Electric, PSML and WAPDA which amounted to Rs. 41,302 million (2013: Rs. 44,303 million), Rs. 16,944 million (2013: Rs. 12,680 million) and Rs. 1,749 million (2013: Rs. 1,495 million) respectively. These balances have aggregated due to inter corporate circular debt.

Geographical region wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2013	
	(Rupees in '000)		
Karachi	69,883,672	68,040,968	
Sindh (excluding Karachi)	6,635,627	6,094,046	
Balochistan	2,386,394	2,149,738	
	78,905,693	76,284,752	

Net investment in finance lease

The Company's most significant investment in finance lease amounted to Rs. 561 million (2013: Rs. 627 million) in respect of SNGPL.

Interest accrued

Most significant counter parties of the Company in respect of interest accrued are disclosed in note 29 to these financial statements.

Other receivables

Most significant other receivables of the Company are in respect of lease rental, lease service cost, contingent rent and uniform cost of gas agreement with SNGPL as disclosed in note 30.2 to these financial statements. These balances are subject to inter circular corporate debt.

47.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Due to nature of the business, the Company maintains flexibility in funding by maintaining committed credit lines available. The Company's liquidity management involves projecting cash flows and considering the level of liquid assets necessary to fulfill its obligation, monitoring balance sheet liquidity ratios against internal and external requirements and maintaining debt financing plans.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date.

Contractual cash flows	Not later than six months	Later than six months but not later than 1 Year	Later than one year but not later than 2 Year	Later than 2 Year

2013

Long term finance Short term borrowings Trade and other payables Interest accrued Long term deposits The contractual cash flows relating to the above financial liabilities have been determined on the basis of latest available market rates. The rates of mark-up have been disclosed in notes 7 and 8 to these financial statements. Contractual cash flows of the long term deposits are determined on the assumption that adjusted / refund of these deposits will not be required before expiry of 40 years from balance sheet date.

47.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The market risk comprises of currency risk, interest rate risk and other price risk (equity price risk).

47.3.1 Currency risk

Foreign currency risk is the risk that the value of financial asset or a liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered into foreign currencies.

The Company is exposed to currency risk on creditors for gas that are denominated in a currency other than functional currency of the Company. The currency in which these transactions primarily are denominated is US Dollars. The Company's exposure to foreign currency risk is as follows:

	2014		201	3
	Rupees in '000	US Dollars in '000	Rupees in '000	US Dollars in '000
Creditors for gas	25,332,313	256,530	6,880,079	69,636
Estimated forecast gas purchases	142,280,012	1,382,702	178,776,736	1,844,961
Net exposure	167,612,325	1,639,232	185,656,815	1,914,597

Above net exposure is payable by the Company in Rupees at the rate on which these are settled by the Company. Currently, the Company does not obtain forward cover against the gross exposure as exchange loss / gain on purchases of gas and supplies is recovered from / paid to Government of Pakistan as part of guaranteed return.

The following significant exchange rates applied during the year:

<u> </u>	ge rates	Balance she	eet date rate
2014	2013	2014	2013
(Rı	ipees)	(Rup	pees)
102,90	96.90	98.75	98.80

Sensitivity analysis

A ten percent strengthening / (weakening) of the Rupee against US Dollar at June 30, 2014 would have (decreased) / increased trade creditors by Rs. 2,532 million (2013: Rs. 688 million). There is no effect of strengthening / (weakening) of US dollar on unconsolidated equity and unconsolidated profit and loss account of the Company as exchange loss / gain on purchases of gas and store and supplies is recovered from / paid to Government of Pakistan as part of 17% guaranteed return. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from short and long term borrowings from banks. At the balance sheet date the interest rate profile of the Company's interest-bearing financial instruments were as follows:

	2014	2013
	(Rup	ees in '000)
Fixed rate instruments		
Financial assets		
Net investment in finance lease	692,877	802,950
Loan and advances	3,375	4,650
Trade debts	28,195,466	22,171,360
Cash at banks	855,263	655,271
	29,746,981	23,634,231
Financial liabilities		
Long term deposits	(4,238,095)	(3,851,725)
Government of Sindh Ioan	(5,756,859)	(6,055,042)
Trade and other payables	(20,000,606)	(16,614,116)
That are the payables	(29,995,560)	(26,520,883)
	(248,579)	(2,886,652)
Variable rate instruments		
Financial assets	07.040.450	40 500 550
Trade debts Other receivables	37,642,158	40,529,553
Loan to related party	26,139,898 1,710,103	6,304,459 1,710,103
Loan to related party	65,492,159	48.544.115
Financial liabilities	05,492,139	40,344,113
Long term loan except Government of Sindh loan	(19,149,307)	(22,313,215)
Short term borrowings	(3,141,237)	(4,017,953)
Trade and other payables	(94,115,919)	(63,690,733)
• •	(116,406,463)	(90,021,901)
	(50,914,304)	(41,477,786)

Fixed rate instrument bear fixed interest rate while all other borrowings bear variable interest rate and are indexed to KIBOR. Borrowing is generally determined on the basis of business needs. The Company analyses its interest rate exposure on a regular basis by monitoring existing facilities against prevailing market interest rates and taking into account various other financing options available. Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit and loss. Therefore, a change in interest rates at the reporting date would not affect consolidated profit and loss account and the unconsolidated equity of the Company.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have net increased or (net decreased) the unconsolidated profit or loss of the Company as at June 30, 2014 by Rs. 509 million (2013: Rs. 415 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.3 Equity price risk

Equity price risk is the risk of changes in the fair value of equity securities as the result of changes in the levels of KSE-100 Index and the value of individual shares. The equity price risk exposure arises from the Company's investments in listed equity securities. This arises from investments held by the Company for which prices in the future are uncertain. The fair value of listed equity investments of the Company that are exposed to price risk as at June 30, 2014 is Rs. 131.290 million (2013: Rs. 89.684 million).

A ten percent increase / decrease in the prices of listed equity securities of the Company at the reporting date would have increased or (decreased) long term investment and consolidated equity by Rs. 13.129 million (2013: Rs. 8.968 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2013.

47.4 Fair value of financial assets and liabilities

The carrying values of all financial instruments reflected in the financial statements approximate their fair values except for investment in unquoted companies which are reflected at cost less impairment losses.

47.4.1 Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

		20	14	
	Level 1	Level 2	Level 3	Total
Available-for-sale financials assets		(Rupees	in '000)	
Quoted equity securities	131,290	-	-	131,290
	131,290	-	-	131,290
		20	13	
	Level 1	Level 2	Level 3	Total
		(Rupees	in '000)	
Available-for-sale financials assets				
Quoted equity securities	89,684	-	-	89,684
	89,684	-	-	89,684

There have been no transfers during the year (2013: no transfers in either direction).

47.5 Capital risk management

The objective of the Company when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders, benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its businesses.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to the shareholders or issue new shares.

The Company is not subject to externally imposed regulatory capital requirements.

The gearing ratio as at June 30 is as follows:

	2014	2013
	(Ru	pees in '000)
Total borrowings		
Long term finance	20,859,892	24,770,608
Current portion of long term finance	4,046,274	3,597,649
Short terms borrowings	3,141,237	4,017,953
	28,047,403	32,386,210
Less: Cash and bank balances	(1,199,837)	(847,680)
Net debts	26,847,566	31,538,530
Capital employed	41,662,351	48,268,889
Gearing ratio	64%	65%

48. OPERATING SEGMENTS

IFRS 8 -Operating Segments requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to segments and to assess their performance. As a result, management has identified the following two segments:

- 1) Gas transmission and distribution (sale of gas); and
- 2) Meter manufacturing (manufacturing and sale of gas meters)

Segment revenue and results

The following is analysis of the Company's revenue and results by reportable segment.

	Segment revenue		Segment (loss) / profit
	2014	2013 (Restated)	2014 In '000)	2013 (Restated)
Gas transmission and distribution Meter manufacturing	152,541,542 3,001,389	142,197,188 2,522,392	(6,750,352) 622,254	240,805 537,416
Total segments results	155,542,931	144,719,580	(6,128,098)	778,221
Unallocated - other expenses - Other operating expenses			(278,701)	(888,226)
Unallocated - other income - Non-operating income			596,393	490,110
(Loss) / profit before tax			(5,810,406)	380,105

The above revenue includes sale of meters by meter manufacturing segment to gas transmission and distribution amounting to Rs. 996 million (2013: Rs. 617 million).

The accounting policies of the reportable segments are same as disclosed in note 3.

Segment assets and liabilities	2014		2013
	(Rupe	es in 'O	000)
Cogment assets			
Segment assets	010 000 100	ſ	100 045 070
Gas transmission and distribution	216,690,196		189,245,672
Meter manufacturing	2,457,125	l	1,628,242
Total segment assets	219,147,321		190,873,914
Unallocated			
- Loans and advances	2,156,921		1,971,837
- Taxation - net	10,474,629		2,787,665
- Interest accrued	490,109		490,109
- Cash and bank balances	1,199,837		847,680
	14,321,496		6,097,291
Total assets as per balance sheet	233,468,817		196,971,205
Segment liabilities			
Gas transmission and distribution	205,641,732		168,039,463
Meter manufacturing	489,755		278,663
Total segment liabilities	206,131,487		168,318,126
Unallocated			
- Employee benefits	3,470,436		2,518,454
Total liabilities as per balance sheet	209,601,923		170,836,580

49. DETAILS OF INVESTMENTS BY EMPLOYEES RETIREMENT BENEFIT FUNDS

Detail of the value of investments by the following funds based on respective financial statements as at June 30, 2014 and June 30, 2013, are as follows:

	2014	201	3
	(R	upees in '000)	
Pension fund - executives	1,059,942	909	9,940
Gratuity fund - executives	2,160,209	2,022	2,765
Pension fund - non-executives	304,925	232	2,906
Gratuity fund - non-executives	2,655,441	2,351	,582
Provident fund - executives	* 2,409,680	2,456	5,323
Provident fund - non-executives	* 2,392,801	2,435	5,745
Benevolent fund - executives	132,880	120),148

^{*} Based on un-audited financial statements

50. ACCOUNTING ESTIMATES AND JUDGMENTS

50.1 Income tax

The Company takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

50.2 Staff retirement and other service benefit obligations

Certain actuarial assumptions have been adopted as disclosed in note 40 to these financial statements for valuation of these obligations and fair value of plan assets. Any changes in these assumptions in future years might affect unrecognised gains and losses in those years.

50.3 Property, plant and equipment

In accordance with the accounting policy, the management carries out an annual assessment of depreciable amount and useful lives of property, plant and equipment. Further, the Company reviews the value of the assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

50.4 Trade debts and other receivables

The Company reviews its receivable against provision required there against on an ongoing basis and appropriate provision is made against outstanding receivable based on systematic basis as approved by the Board of Directors.

50.5 Stock in trade and stores, spares and loose tools

The management continuously reviews its inventory for existence of any items which may have become obsolete. The estimates against slow moving and obsolete items are made based on systematic basis as approved by the Board of Directors.

50.6 Fair value of investments

Management has determined fair value of certain investments by using quotations from active market of the financial instruments.

50.7 Recognition of income from sale of Natural Gas Liquid (NGL) and Liquefied Petroleum Gas (LPG)

Income from sale of NGL and LPG to Jamshoro Joint Venture Limited is recognized based on provisional invoice price / quantity being the best estimate available. Any change in provisional price / quantity will be accounted for prospectively in the year in which there is change in price / quantity.

50.8 Recognition of gas development surcharge

Management has recognised income from gas development surcharge according to Final Revenue Requirement (FRR) issued by OGRA based on stay orders as mentioned in note 1.3.1. Further, gas development surcharge does not include the impact of stay orders as mentioned in note 1.3.2 since no revised FRR has been issued by OGRA in this regard.

51. BENAZIR EMPLOYEE STOCK OPTION SCHEME (BESOS)

On August 14, 2009, the Government of Pakistan (GoP) launched Benazir Employees' Stock Option Scheme ('the Scheme') for employees of certain State Owned Enterprises (SOEs) and non-State Owned Enterprises where GoP holds significant investments (non-SOEs). The scheme is applicable to permanent and contractual employees who were in the employment of these entities on the date of launch of the Scheme, subject to completion of five years vesting period by all contractual employees and by permanent employees in certain instances.

The Scheme provides for a cash payment to employees on retirement or termination based on the price of shares of respective entities. To administer this scheme, GoP shall transfer 12% of its investment in such SOEs and non-SOEs to a Trust Fund to be created for the purpose by each of such entities. The eligible employees would be allocated units by each Trust Fund in proportion to their respective length of service, and on retirement or termination, such employees would be entitled to receive such amounts from Trust Funds in exchange for the surrendered units as would be determined based on market price for listed entities or breakup value for non-listed entities. The shares relating to the surrendered units would be transferred back to GoP.

The scheme also provides that 50% of dividend related to shares transferred to the respective Trust Fund would be distributed amongst the unit holder employees. The balance 50% dividend would be transferred by the respective Trust Fund to the Central Revolving Fund managed by the Privatization Commission of Pakistan for payment to employees against surrendered units. The deficit, if any, in Trust Funds to meet the re-purchase commitment would be met by GoP.

The Scheme, developed in compliance with the stated GoP policy of empowerment of employees of State Owned Enterprises need to be accounted for by the covered entities, including the Company, under the provisions of amended International Financial Reporting Standard 2 – Share-based Payment (IFRS 2). However, keeping in view the difficulties that may be faced by the entities covered under the Scheme, the Securities & Exchange Commission of Pakistan on receiving representations from some of entities covered under the Scheme and after having consulted the Institute of Chartered Accountants of Pakistan has granted exemption to such entities from the application of IFRS 2 to the Scheme

Had the exemption not been granted there would have been no impact on the results of the Company as the annual return of the Company is determined under the regulatory revenue requirement, which would have covered any additional cost if incurred by the Company in respect of the aforesaid Scheme.

52. GENERAL

- 52.1 Figures have been rounded off to the nearest thousand rupees unless otherwise stated.
- 52.2 Corresponding figures have been rearranged and reclassified, wherever necessary.

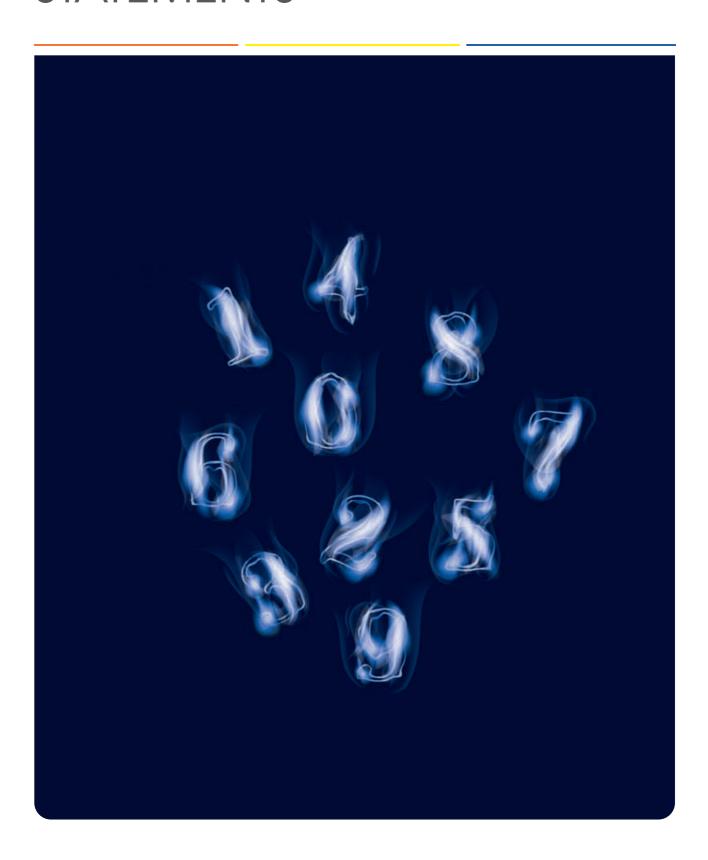

53. DATE OF AUTHORISATION

These financial statements were authorised for issue in Board of Directors meeting held on 05 March 2016.

Miftah Ismail

Chairman

Consolidated Financial STATEMENTS

Auditors' Report to the Members

We have audited the annexed consolidated financial statements comprising consolidated balance sheet of Sui Southern Gas Company Limited ("the Holding Company") and its subsidiary companies Sui Southern Gas Provident Fund Trust Company (Private) Limited and SSGC LPG (Private) Limited as at June 30, 2014, and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof for the year then ended. We have also expressed separate opinions on the financial statements of the Holding Company and its subsidiary companies. These financial statements are the responsibility of the Holding Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was conducted in accordance with International Standards on Auditing and accordingly included such tests of accounting records and such other audit procedures as we consider necessary in the circumstances.

As described in notes 26.1 and 26.2 to the consolidated financial statements, trade debts include receivables of Rs. 41,302 million (2013: Rs. 44,303 million) and Rs. 16,944 million (2013: Rs. 12,680 million) from K-Electric Limited (KE) and Pakistan Steel Mills Corporation (Private) Limited (PSML) respectively. As described in the aforesaid notes, significant portion of such receivables include overdue amounts, which have been considered good by management and classified as current assets in these financial statements. Further, KE and PSML have disputed Late Payment Surcharge (LPS) on their respective balances and the financial condition of PSML is such that it has not been able to pay its obligations, due to which management has decided to recognize LPS on a receipt basis from the aforesaid entities effective from July 01, 2012.

Due to the adverse financial condition of PSML, disputes by KE and PSML with the Holding Company on LPS, and large accumulation of their respective overdue amounts, we were unable to determine the extent to which the total amounts due from KE and PSML are likely to be recovered and the time frame over which such recovery will be made.

In our opinion, except for possible effects of the matter described in the preceding paragraph, the consolidated financial statements present fairly the financial position of Sui Southern Gas Company Limited and its subsidiary companies as at June 30, 2014, and the results of their operations for the year then ended,

We draw attention to:

(i) note 1.4 to the consolidated financial statements that describes that revenue requirement for the years ended June 30, 2011, 2012, 2013 and 2014 have been determined provisionally on the basis of stay orders of the High Court of Sindh (the Court) which were also considered by OGRA while determining revenue requirement except for impact of the orders dated November 20, 2015, whereby OGRA was directed to treat income from royalty (arrears) and income from LPG and NGL as non-operating income which was not considered by OGRA while determining revenue requirement of the Holding Company for the years ended June 30, 2013 and 2014.

Our opinion is not qualified in respect of this matter.

Deloitte Yousuf Adil Chartered Accountants Audit Engagement Partner Mushtaq Ali Hirani

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2014

THE GROUP AND ITS OPERATIONS

1.1 The "Group" consists of:

Holding Company

- Sui Southern Gas Company Limited

2014 2013 (Percentage of holding)

Subsidiary Companies

- SSGC LPG (Private) Limited

- Sui Southern Gas Provident Fund Trust Company (Private) Limited

100 100 100

The Group is principally engaged in transmission and distribution of natural gas and liquefied petroleum gas in Sindh and Balochistan. Brief profiles of the Holding Company and subsidiaries are as follows:

Sui Southern Gas Company Limited

Sui Southern Gas Company Limited ("the Holding Company") is a public limited Company incorporated in Pakistan and is listed on the Karachi, Lahore and Islamabad Stock Exchanges (now Pakistan Stock Exchange). The main activity of the Holding Company is transmission and distribution of natural gas in Sindh and Balochistan. The Holding Company is also engaged in certain activities related to the gas business including the manufacturing and sale of gas meters and construction contracts for laying of pipelines.

Sui Southern Gas Provident Fund Trust Company (Private) Limited

Sui Southern Gas Provident Fund Trust Company (Private) Limited is a wholly owned subsidiary of Sui Southern Gas Company Limited. Its registered office is situated at ST-4/B, Block-14, Sir Shah Muhammad Suleman Road, Gulshan-e-Iqbal, Karachi and was formed to facilitate administration of employees retirement funds of the Holding Company.

SSGC LPG (Private) Limited

SSGC LPG (Private) Limited is a wholly owned subsidiary of Sui Southern Gas Company Limited. Its registered office is situated at ST-4/B, Block-14, Sir Shah Muhammad Suleman Road, Gulshan-e-Iqbal, Karachi and its main activity is supply of liquefied petroleum gas and provision of terminal and storage services.

1.2 Basis of consolidation

- The consolidated financial statements include the financial statements of the Holding Company and its Subsidiary Companies, together "the Group".
- The financial statements of the subsidiaries are prepared for the same reporting year as the Holding Company for the purpose of consolidation, using consistent accounting policies.
- The assets, liabilities, income and expenses of subsidiaries have been consolidated on a line by line basis.
- Minority interest represents the portion of the net results of operations and of net assets of subsidiaries attributable to interests which
 are not owned by the Holding Company.
- Material intra-group balances and transactions have been eliminated.

1.3 Regulatory framework

Under the provisions of license given by the Oil and Gas Regulatory Authority (OGRA), the Holding Company is provided a minimum annual return before taxation of 17% per annum of the net average operating fixed assets (net of deferred credit) for the year, excluding financial and other non-operating expenses and non-operating income. The determination of annual required return is reviewed by OGRA under the terms of the license for transmission, distribution and sale of natural gas, targets and parameters set by OGRA. Income earned in excess / short of the above guaranteed return is payable to / recoverable from the Government of Pakistan (GoP) and is adjusted from / to the gas development surcharge balance payable to / receivable from the GoP.

1.4 Determination of revenue requirement

1.4.1 The Oil and Gas Regulatory Authority (OGRA) in its order dated December 02, 2010 and May 24, 2011 treated Royalty Income from Jamshoro Joint Venture Limited, Profit from Meter Manufacturing, Late Payment Surcharge and Sale of Gas Condensate as operating income which it had previously allowed as non-operating income in its decision dated September 24, 2010, for the year ended June 30, 2010. OGRA also in its aforesaid decision reduced benchmark of the allowable Unaccounted for Gas (UFG) from 7% to 4.25 % - 5%. Aggrieved by the above decision, the Holding Company had filed an appeal against the decision of the OGRA in the High Court of Sindh (the Court), on which the Court provided interim relief whereby OGRA was directed to determine the revenue requirement on the same principles as per its decision of September 24, 2010, till final order of the Court. Also, with regard to UFG benchmark, OGRA was directed to carry out an impact assessment study and submit its report to the Court. Therefore, the revenue requirement for June 30, 2011, was determined based on the relief provided by the Court.

For subsequent years including current year ended June 30, 2014, the Holding Company also obtained stay orders from the Court on the same principles which were fixed in the interim relief as discussed above, and thereafter, OGRA considered such principles in determining revenue requirement of the Holding Company. Management is confident that the final decision of the Court would be in favor of the Holding Company.

Had there been no stay in the current year, and these financial statements been prepared in accordance with the OGRA's decisions dated December 02, 2010 and May 24, 2011, the Holding Company would have reported loss for the year amounting to Rs. 23,923 million.

1.4.2 In determining the Final Revenue Requirement (FRR) for the years ended June 30, 2013 and 2014, the OGRA treated income from royalty (arrears) and income of LPG and NGL as operating income amounting to Rs. 2,501 million and Rs. 6,600 million respectively, on which the Holding Company filed application in the already pending Judicial Miscellaneous petitions in the High Court of Sindh that these income should have been treated as non-operating income as it was already decided by the Court in previous stay orders, while the cases are still to be finalised by the Court. The Court suspended the relevant paragraphs of OGRA orders wherein above income were treated as operating income thus requiring revision of FRR for 2013 and 2014; however, no revised FRR has been issued by the OGRA till the date of issue of these financial statements. Consequently, the impact of the new stay orders have not been taken and the aforesaid income have been treated as operating income in the financial statements of the current as well as previous year.

The management, based on the opinion of its legal counsel intends to get the above Court decision enforced and is confident that the OGRA will provide benefit of the aforesaid income to the Holding Company.

Had OGRA issued revised FRR based on the above mentioned stay orders of the Court and these financial statements been prepared in accordance with the revised FRR, the Holding Company would have claimed Rs. 6,600 million (2013: Rs. 2,501 million) as non-operating income which OGRA treated as operating income while determining revenue requirement of the Holding Company. The cumulative impact of these stay orders would result in decrease of reported loss for the year by Rs. 6,017 million and the Holding Company would have reported profit for the year amounting to Rs. 2,263 million.

2. BASIS FOR PREPARATION

2.1 Statement of compliance

These consolidated financial statements ("the financial statements") have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions of or directives issued under the Companies Ordinance, 1984 shall prevail.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except for certain investments stated in note 20 which are carried at their fair values, employee benefits which are valued at their present value using actuarial assumptions and freehold and leasehold land which are carried at revalued amount.

.3 Functional and presentation currency

The financial statements are presented in Pakistani Rupees, which is the Groups's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of the financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires the management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including reasonable expectation of future events. Revision to accounting estimates are recognised prospectively commencing from the period of revision.

Judgments and estimates made by management that may have a significant risk of material adjustments to the financial statements in the subsequent year are discussed in note 50.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 New accounting standards / amendments and IFRS interpretations that are effective for the year ended June 30, 2014

The following standards, amendments and interpretations are effective for the year ended June 30, 2014. These standards, interpretations and the amendments are either not relevant to the Group's operations or are not expected to have significant impact on the Group's financial statements other than certain additional disclosures.

Standards / Amendments / Interpretations

	Effective Date (accounting periods beginning on or after)
Amendments to IAS 1 - Presentation of Financial Statements – Clarification of Requirements for Comparative information	January 01, 2013
Amendments to IAS 16 - Property, Plant and Equipment – Classification of servicing equipment	January 01, 2013
Amendments to IAS 19 - Employee Benefits	January 01, 2013
Amendments to IAS 32 Financial Instruments: Presentation - Tax effects of distributions to holders of an equity instrument, and transaction costs of an equity transaction	January 01, 2013
Amendments to IAS 34 - Interim Financial Reporting - Interim reporting of segment information for total assets and total liabilities	January 01, 2013
Amendments to IFRS 7 Financial Instruments: Disclosures - Offsetting financial assets and financial liabilities	January 01, 2013
IFRIC 20 - Stripping Costs in the Production Phase of a Surface Mine	January 01, 2013

The amendments to IAS 19 - Employee Benefits is effective from accounting period beginning on or after January 01, 2013 and have significant impact on the Holding Company's financial statements for the year as discussed in the note 3.3.1. These changes are considered as change in policy.

3.2 New accounting standards / amendments and IFRS interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and the amendments are either not relevant to the Group's operations or are not expected to have significant impact on the Group's financial statements other than certain additional disclosures.

	Effective Date (accounting periods beginning on or after)
Amendments to IAS 19 Employee Benefits: Employee contributions	July 01, 2014
IAS 27 (Revised 2011) – Separate Financial Statements	January 01, 2015
	IAS 27 (Revised 2011) will concurrently apply with IFRS 10.
IAS 28 (Revised 2011) – Investments in Associates and Joint Ventures	January 01, 2015
Amendments to IAS 16 and IAS 38 - Clarification of acceptable methods of depreciation and amortization	January 01, 2016
Amendments to IAS 16 and IAS 41 Agriculture: Bearer plants	January 01, 2016
Amendments to IAS 32 Financial Instruments: Presentation - Offsetting financial assets and financial liabilities	January 01, 2014
IAS 36 Impairment of Assets - Recoverable Amount Disclosures for Non- Financial Assets	January 01, 2014
IAS 39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting	January 01, 2014
IFRS 10 – Consolidated Financial Statements	January 01, 2015
IFRS 11 – Joint Arrangements	January 01, 2015
IFRS 12 – Disclosure of Interests in Other Entities	January 01, 2015
IFRS 13 – Fair Value Measurement	January 01, 2015
IFRIC 21 - Levies	January 01, 2014

Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 First Time Adoption of International Financial Reporting Standards
- IFRS 9 Financial Instruments
- IFRS 14 Regulatory Deferral Accounts
- IFRS 15 Revenue from Contracts with Customers

3.3 Change in accounting policies

The accounting policies adopted in the preparation of these consolidated financial statements are same as those applied in the preparation of the consolidated financial statements of the Holding Company for the year ended June 30, 2013 except for change in accounting policy that is enumerated as follows:

3.3.1 AS 19 - Employee Benefits (Revised 2011)

In the current year, the Holding Company has applied IAS 19 Employee Benefits (as revised in 2011) and the related consequential amendments for the first time.

IAS 19 (as revised in 2011) changes the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in the fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous versions of IAS 19 and accelerate the recognition of past service costs. All actuarial gains and losses are recognised immediately through other comprehensive income in order for the net asset or liability recognised in the consolidated statement of financial position to reflect the full value of plan deficit or surplus.

Furthermore, the interest cost and expected return on plan assets used in the previous version of IAS 19 are replaced with a 'net interest' amount under IAS 19 (as revised in 2011), which is calculated by applying the discount rate to the net defined benefit liability or asset. These changes have had an impact on the amounts recognised in profit or loss and other comprehensive income in prior years. In addition, IAS 19 (as revised in 2011) introduces certain changes in the presentation of the defined benefit cost including more extensive disclosures.

Specific transitional provisions are applicable to first-time application of IAS 19 (Revised 2011). The Holding Company has applied the relevant transitional provisions and restated the comparatives on retrospective basis in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Effect of retrospective application of change in accounting policy is as follows:

	Amount as reported earlier	Effects of change in accounting policyRupees in '000'	Amount restated
Effect on balance sheet as at July 01, 2012			
Employee benefits	(2,154,237)	(9,307)	(2,163,544)

3.4 Property, plant and equipment

Initial recognition

The cost of an item of property plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably.

Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Property, plant and equipment except freehold land, leasehold land and capital work in progress are stated at cost less accumulated depreciation and impairment, if any. Capital work in progress are stated at cost, less accumulated impairment loss, if any.

Freehold land and leasehold land are stated at revalued amount and surplus arising on revaluation of freehold land and leasehold land is disclosed as surplus on revaluation of fixed assets.

The cost of the property, plant and equipment includes:

- (a) its purchase price including import duties, non refundable purchase taxes after deducting trade discounts and rebates; and
- (b) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent expenditure (including normal repairs and maintenance)

Expenditure incurred to replace a component of an item of operating assets is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other expenditure (including normal repairs and maintenance) is recognised in the consolidated profit and loss account as an expense when it is incurred.

Capital work in progress

Capital work in progress is stated at cost less impairment loss, if any. The cost consists of expenditure incurred and advances made in the course of their construction and installation. Transfers are made to the relevant asset category as and when assets are available for intended

Depreciation

Compressors and transmission lines

Depreciation on compressors and transmission lines is charged from the dates these projects are available for intended use up to the date these are disposed off.

Other operating assets

Depreciable value of operating assets other than compressors and transmission lines is depreciated over their estimated service life from the month the assets are available for use in service till the month they are disposed off or fully depreciated, except for assets sold to employees under the service rules, in which case, depreciation is charged up to the date of disposal.

Useful lives of the assets are mentioned in note18.1 to these financial statements.

Assets' residual values and their useful lives are reviewed and adjusted at each balance sheet date if significant and appropriate.

Intangible assets

An intangible asset is recognised as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably.

Definite life

Intangible assets are measured initially at cost and subsequently stated at cost less accumulated amortisation and impairment losses, if any.

Intangible asset with a finite useful life is amortised on a straight line basis over its useful life. Amortisation begins when the asset is available for use and ceases when the asset is derecognised. Amortisation charge is recognised in the consolidated profit and loss account.

The amortisation period for intangible assets with a finite useful life is reviewed at each year-end and is changed to reflect the useful life expected at respective year end.

Borrowing costs

Borrowing costs incurred on long term finances attributable for the construction of qualifying assets are capitalised up to the date the respective assets are available for the intended use. All other mark-up, interest and other related charges are taken to the consolidated profit and loss account.

Gains and losses on disposal

Gains and losses on disposal are taken to the consolidated profit and loss account.

Leased assets

Leased assets in terms of which the Holding Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired by way of finance lease are stated at an amount equal to the lower of their fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation and impairment loss, if any. Depreciation on assets subject to finance lease is recognised in the same manner as for owned operating assets.

3.5 Investments

Available-for-sale

Investments which are intended to be held for an indefinite period and may be sold in response to the need for liquidity or changes in interest rates are classified as available-for-sale investments. These investments are initially recognised at fair value, being the cost of the consideration given and transaction cost. After initial recognition, investments classified as available-for-sale are re-measured at fair value, determined with reference to the year-end quoted rates. Gains or losses on re-measurement of these investments are recognised in other comprehensive income and accumulated in the investment revaluation reserve until the investment is sold, collected or otherwise disposed off, or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in consolidated profit and loss account. Impairment losses recognised in consolidated profit and loss for an investment in an equity instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in consolidated profit and loss, the impairment loss shall be reversed, with the amount of the reversal recognised in consolidated profit and loss account.

Held to maturity

Investments with fixed or determinable maturity where management has both the positive intent and ability to hold till maturity are classified as held-to-maturity. These investments are measured initially at its fair value plus transaction costs that are directly attributable to these investments. Subsequent to initial measurement, held to maturity investments are measured at amortised cost using effective interest method. All investments categorised under held-to-maturity are subject to annual review for impairment. Provision for impairment in value, if any, is taken to consolidated profit and loss account.

Date of recognition

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention (regular way) are recognised at the trade date. Trade date is the date on which the Holding Company commits to purchase or sell the investments.

De-recognition

All investments are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Holding Company has transferred substantially all risk and rewards of ownership.

3,6 Net investment in finance lease

Contractual arrangements, the fulfillment of which is dependent upon the use of a specific asset and whereby the right to use the underlying asset is conveyed to the customer, are classified as finance lease. Net investment in finance lease is recognised at an amount equal to the present value of the lease payments receivable, including any guaranteed residual value determined at the inception of lease. Discount rate used in the calculation of the present value of minimum lease payments is the interest rate implicit in the lease. Any recoveries from customers in respect of the service cost and contingent rent are excluded from the minimum lease payments and are recorded as recoveries of transmission and distribution cost from the lessee and gas transportation income respectively. Interest income from net investment in finance lease is recognised on a pattern reflecting a constant periodic return on the Holding Company's net investment in finance lease.

3.7 Stores, spares and loose tools

These are valued at lower of cost and net realisable value less impairment loss, if any. Cost is determined under the moving average basis. Goods-in-transit are valued at lower of cost incurred up to the consolidated balance sheet date and net realisable value less impairment loss, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

3.8 Stock-in-trade

Gas in pipelines

Stock of gas in transmission pipelines is valued at the lower of cost, determined on weighted average basis, and net realisable value.

Liquefied petroleum gas

Stocks of liquified petroleum gas in storage is valued at the lower of cost or net realisable value. Cost is recognised on weighted average basis on net realisable value which is arrived at after deducting impairment loss, if any.

Meter manufacturing division

Components (materials) are valued at lower of moving average cost and net realisable value less impairment loss, if any. Work-in-process includes the cost of components only (determined on a moving average basis). Finished goods are stated at the lower of cost determined on an average basis and net realisable value and includes appropriate portion of labor and production overheads. Components in transit are stated at cost incurred up to the consolidated balance sheet date less impairment losses, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

3.9 Trade debts and other receivables

Trade debts and other receivables are recognised at fair values plus directly attributable cost, if any.

A provision for impairment of trade and other receivables is established when there is an objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. Trade debts and other receivables considered irrecoverable are written off.

3.10 Trade and other payables

Trade and other payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Group.

3.11 Mark-up bearing borrowings

Long term financing

Mark-up bearing borrowings are recognised initially at fair value which is usually the cost, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognised in the consolidated profit and loss account over the period of the borrowings. Transaction cost is amortised over the term of the loan.

Long term loans received from the Government of Sindh with interest rate lower than prevailing market interest rates for a similar instrument are initially measured at fair value. The fair value is estimated at the present value of all future cash payments discounted using the prevailing market rate of interest for a similar instrument with a similar credit rating. Difference between fair value and proceed received is treated as government grant and is amortised over the useful life of related asset constructed.

Leases

The Holding Company accounts for lease obligations by recording the asset and the corresponding liability determined on the basis of discounted value of minimum lease payments. Financial charges are recognised in the consolidated profit and loss account.

3.12 Provisions

Provisions are recognised when the Group Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

3.13 Deferred credit

Amounts received from customers before July 01, 2009 and the Government as contributions and grants for providing service connections, extension of gas mains, laying of distribution lines, etc. are deferred and recognised in the consolidated profit and loss account over the useful lives of the related assets starting from the commissioning of such assets.

Contribution from customers

Advance taken from customers on or after July 01, 2009 for laying of distribution lines is recognised in the consolidated profit and loss account when the connection to the network is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".

3.14 Taxation

Current

Provision for current taxation is based on taxable income at the current rates of taxation, after taking into account the available tax credits and rebates.

Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the balance sheet date.

The Group recognises a deferred tax asset to the extent that it is probable that the taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.15 Revenue recognition

- Revenue from gas sales is recognised on the basis of gas supplied to customers at rates periodically announced by the OGRA.
- Meter rental income is recognised monthly at specified rates for various categories of customers.
- Revenue from sale of meters, liquid petroleum gas and gas condensate is recognised on dispatch to the customers.
- Revenue from terminal and storage services are recognised on the basis of service rendered to the customers.
- Deferred credit from Government and customers before July 01, 2009 is amortised and related income is recognised in the consolidated profit and loss account over the useful lives on commissioning of the related assets.
- Deferred credit from customers after July 01, 2009 for laying of distribution lines is recognised in the consolidated profit and loss when the network connection is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".
- Income from new service connections is recognised in consolidated profit and loss account immediately on commissioning of related
- Dividend income on equity investments is recognised when right to receive the payment is established.
- Return on term deposits and royalty income are recognised on time proportion basis by reference to the principal outstanding at the effective interest rate
- Late payment surcharge is recognised from the date the billed amount is overdue.

3,16 Impairment

Financial assets

Financial assets are assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Non-financial assets

The carrying amounts of non-financial assets other than inventories and deferred tax assets, are assessed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognised, as an expense in the consolidated profit and loss account, for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Value in use is ascertained through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risks specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3,17 Staff retirement benefits

The Holding Company operates the following retirement schemes for its employees:

Approved funded pension and gratuity schemes for all employees.
 Contributions to the schemes are made on the basis of actuarial valuations that is carried out annually under the projected unit credit method. Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income.

Past service cost is recognised in the consolidated profit and loss account as an expense on a straight line basis over the average period until the benefits become vested. To the extent that the benefits are already vested, the expense is recognised immediately in the consolidated profit and loss account.

- Unfunded free medical and gas supply facility schemes for its executive employees.

Liability under these schemes is recognised in the period in which the benefit is earned based on the actuarial valuations that is carried out annually under the projected unit credit method. The medical and free gas supply facilities have been discontinued for employees retiring after December 31, 2000.

Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income. Gas development surcharge with respect to actuarial gains / losses are recognized in other comprehensive income, instead of Consolidated profit and loss account.

- Approved contributory provident funds for all employees (defined contribution scheme).

The Holding Company operates a recognised provident fund for all its employees. Equal contributions are made, both by the Holding Company and the employees, to the fund at the rate of 7.5% of basic salary in the case of executive employees and 8.33% of basic salary and adhoc relief cost of living allowance in the case of non executive employees and the same is charged to the consolidated profit and loss account.

- A non-contributory benevolent fund, under which only the employees contribute to the fund.
- SSGC LPG operates an unfunded fratuity scheme for its permanent and contractual employees who served for 1 year. The Company's
 net obligation in respect of unfunded gratuity scheme is determined annualy by a qualified actuary using the Projected Unit Credit method.
- Remeasurement component, which is the net of acturial gains and losses is recognised immediately in other comprehensive in come whereas service cost and net interest income / expense are charged to Consolidated profit and loss acount.

3.18 Compensated absences

The liability for accumulated compensated absences of employees is recognised based on actuarial valuation in the period in which employees render services that increase their entitlement to future compensated absences.

3.19 Foreign currency translation

Transactions in foreign currencies are translated into Pak rupees at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pak rupees at the rates of exchange ruling at the balance sheet date. Exchange gains and losses are taken to the consolidated profit and loss account.

3,20 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financials assets and liabilities are initially measured at fair value and subsequently at fair value or amortised cost as the case may be. Financial assets are derecognised at the time when the Group loses control of the contractual rights that comprise the financial asset. Financial liabilities are derecognised at the time when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled or expired. Any gains or losses on derecognition of financial assets and financial liabilities are taken to the consolidated profit and loss account immediately.

3.21 Derivative financial instruments

Derivative financial instruments if any are recognised initially at cost. Subsequent to initial recognition, the derivative financial instruments are stated at fair value. Changes in fair value of derivative financial instruments are recognised in the consolidated profit and loss account, along with any changes in the carrying value of the hedged liability. Derivative financial instruments are carried as assets when fair value is positive and as liabilities when fair value is negative.

3.22 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the Consolidated financial statements only when there is a legally enforceable right to set-off the recognised amount and the Group intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

3.23 Segment reporting

Segment reporting is based on the operating (business) segments of the Group. An operating segment is an identifiable component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, income tax assets, liabilities and related income and expenditure. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment.

The business segments are engaged in providing products or services which are subject to risks and rewards which differ from the risk and rewards of other segments. Segments reported are as follows:

Gas transmission and distribution

Gas transmission and distribution segment is engaged in transmission and distribution of natural gas and construction contracts for laying of pipelines in Sindh and Balochistan.

Meter manufacturing

Meter manufacturing segment is engaged in manufacture and sale of gas meters.

3.24 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits in banks, short term running finance under mark-up arrangement availed by the Group and short term liquid investments that are readily convertible to known amounts of cash.

3.25 Earnings per share

Earnings per share is calculated by dividing the profit after tax for the year by the weighted average number of shares outstanding during the year.

3.26 Dividend and reserves appropriation

Dividend is recognised as a liability in the financial statements in the period in which it is declared. Movement in reserves is recognised in the year in which it is approved.

4. ISSUED, SUBSCRIBED AND PAID-UP CAPITAL

	Special reserve I	5.3	333,141	333,141
	Special reserve II	5.4	1,800,000	1,800,000
	General reserve		2,015,653	2,015,653
	Reserve for interest on sales tax refund	5.5	487,739	487,739
			4,672,533	4,672,533
			4,907,401	4,907,401

5.1 Share capital restructuring reserve

This represents the reduction of share capital of former Sui Gas Transmission Company Limited (SGTC) due to merger of Sui Gas Transmission Company Limited and Southern Gas Company Limited (SGC) in March 1989.

5.2 Fixed assets replacement reserve

This represents profit allocated in 1986 by former Southern Gas Company Limited for replacement of gas distribution lines in rural Sindh areas. Subsequently, all the rehabilitation activities were carried out from the Holding Company's working capital.

5.3 Special reserve I

This represents accumulated balance arising on a price increase of Rs. 4.10 per MCF granted to the Holding Company by the Government of Pakistan (GoP) in January 1987 retrospectively from July 01, 1985 to enable the Holding Company to meet the requirements of Asian Development Bank regarding debt / equity ratio and other financial covenants specified in loan agreements with them.

5.4 Special reserve II

This represents special undistributable reserve created as per the decision of the Board of Directors to meet the future requirements of the Holding Company.

5.5 Reserve for interest on sales tax refund

This represents the reserve for the interest accrued on the sales tax refundable under Section 67 of the Sales Tax Act, 1990, which is not available for distribution to shareholders till the time it is received.

6. SURPLUS ON REVALUATION OF FIXED ASSETS

This represents surplus over book values resulting from the revaluation of the Holding Company's freehold and leasehold land carried out by means of an independent valuation by Oceanic Surveyors (Private) Limited to determine the fair value as of June 30, 2011. The valuation was based on market research.

Had the Holding Company's freehold and leasehold land been measured on historical cost basis, the carrying amount would have been as follows:

(Rupees in '000)

Freehold land 56,751 Leasehold land 208,352 265,103 2014 2013 (Rupees in '000) Note 7. 						5,248,513	5,756,859	

- 7.4.1 The Holding Company has obtained unsecured development loans from Government of Sindh for supply of gas to various districts and areas of Sindh.
- 7.4.2 This represents the benefit of lower interest rate on Government of Sindh Loan II, III, IV, V, VI and VII and is calculated as difference between the proceeds received in respect of Government of Sindh Loan II, III, IV, V, VI and VII amounting to Rs. 900 million, Rs. 1,000 million, Rs. 1,000 million, Rs. 1,000 million, Rs. 1,000 million, Rs. 1,500 million respectively, and its initial fair value amounting to Rs. 582.076 million, Rs. 660.888 million, Rs. 625.281 million, Rs. 736.958 million, Rs. 768.534 million and Rs. 714.077 million respectively. These are calculated at 3 month average KIBOR prevailing at respective year ends in which the loans were disbursed. This benefit is treated as Government grant and would be amortised over the estimated useful life of related assets when constructed.

		Note	2014 2013 (Rupees in '000)	
8.	LONG TERM DEPOSITS			
	Security deposits from: - gas customers - gas contractors	8.1 8.2	8,305,883 49,235	5,211,695 48,852
			8,355,118	5,260,547

8.1 These represent deposits from industrial, commercial and domestic customers. The customers deposits are based on annual average gas sales of 3 months.

Mark-up is payable on deposits of industrial and commercial customers at the rate of 5% per annum, while no mark-up is paid on deposits from domestic customers.

The Holding Company may at its option, use these deposits for its own purpose from time to time and shall on disconnection of gas supply to the customer, return the security deposits as per the terms and conditions of the contract.

8.2 These represent security deposits received from contractors. These deposits are free of mark-up and are refundable upon completion / cancellation of the contract.

9. DEFERRED TAX

	Balance as at June 30		1,673,245	1,859,805
			5,448,852	5,747,643

- 11.1 This represents amount received from the Government for supply of gas to new towns and villages and is recognised as grant when the conditions specified by the Government are met and is amortised over the useful life of related projects.
- This represents amount received from customers for the cost of service lines and gas mains, etc. These are taken to consolidated profit and loss account based on the policy stated in note 3.13 to these financial statements.
- Pipelines constructed / built under deferred credit arrangement are not given 17% minimum guaranteed return. However, Unaccounted for Gas ("UFG") losses on such pipelines are considered in the determination of the Holding Company's guaranteed return.

12. LONG TERM ADVANCES

These represent amounts received from Government of Pakistan for gas supply to new towns and villages and laying of distribution lines, etc. These advances are transferred to deferred credit once the related projects are commissioned. As stated in note 3.13 to these financial statements, such deferred credit is amortised over the estimated useful lives of related assets.

As at June 30, 2014, amount of Rs. 84,195 million (2013: Rs. 61,809 million) is payable to 0il and Gas Development Company Limited, Pakistan Petroleum Limited and Government Holdings (Private) Limited in respect of gas purchases along with interest of Rs. 26,289 million (2013: Rs. 21,362 million) on their balances which have been presented in note 16.

		2014	2013
		(Rupees in '000)
15.2	Provision for compensated absences - non executives		
	Balance as at July 01	138,969	134,410
	Provision during the year	4,559	4,559
	Balance as at June 30	143,528	138,969

- This amount was received by the Holding Company from Pak Arab Refinery Company Limited (PARCO) in accordance with an agreement dated October 12, 1988. It represents consideration for 50% share of PARCO in the Indus right bank pipeline common right of way and is the full settlement of PARCO's total liability for its share, irrespective of the final amount of compensation payable to the land owners by the Holding Company. The final liability of the Holding Company has not been estimated, as the amount of compensation due to land owners has not been determined by the Authorities. Accordingly, the amount received from PARCO has been classified as an advance.
- 15.4 Gas Infrastructure Development (GID) Cess has been levied since December 15, 2011 and is chargeable from industrial gas customers at different rates as prescribed by the Federal Government through OGRA notification. GID Cess is collected and deposited with the Ministry of Petroleum and Natural Resources (MPNR) in a manner prescribed by the Federal Government.

On June 13, 2013, the Honorable Peshawar High Court declared the levy, imposition and recovery of the Cess unconstitutional with the direction to refund the "Cess" so far collected. Honorable Supreme Court of Pakistan examined the case and in its decision dated August 22, 2014 concluded that GID Cess is a fee and not a tax and on either count the "Cess" could not have been introduced through a money bill under Article 73 of the Constitution and the same was therefore not validly levied in accordance with the Constitution. However, on September 25, 2014, the President of Pakistan had passed GID Cess Ordinance 2014, which is applicable in whole Pakistan and has to be complied by all parties.

On September 29, 2014, the Honorable Sindh High Court gave a stay order to various parties against the promulgation of Presidential order on September 25, 2014.

On May 22, 2015, the GID Cess Act is passed by Parliament applicable on all parties. Following the imposition of the said Act, many customers filed a petition in Honorable Sindh High Court and obtained stay order against Act passed by the Parliament. The Holding Company has obtained legal opinion, which states that management has to comply with the stay order of Honorable Sindh High Court.

The Holding Company is a collecting agent and depositing GID Cess to the Ministry of Petroleum and Natural Resources (MPNR) and the Holding Company will refund to the customers once it will be received from Ministry of Petroleum and Natural Resources (MPNR).

This includes Rs. 101.725 million (2013: Rs. 102.459 million) on account of amount payable to disconnected customers for gas supply deposits.

		Note	2014 (F	2013 Rupees in '000)

17.1	Contingencies			
17.1.1	Guarantees issued on behalf of the Group		172,362	64,235

- Jamshoro Power Company Limited [(JPCL) WAPDA] has lodged a claim against the Holding Company amounting to Rs. 23,000 million (2013: Rs. 765.024 million) for short supply of gas under the provisions of an agreement dated April 10, 1995 between the Holding Company and JPCL. As at June 30, 2015 this amount has increased to Rs. 35,182 million. Management has not made provision against the said amount in the books of the Holding Company as management is confident that ultimately this claim would not be payable. Furthermore, the Holding Company is in the process of appointing arbitrator to resolve the matter in accordance with Arbitration Act, 1940.
- 17.1.3 JPCL has raised another claim of Rs. 5.793 million (2013: Rs. 5.793 million) for the alleged low Gas Calorific Value (GCV) measurement for the period from January 2002 to December 2002 and for the month of February 2003 as compared to the actual GCV billed by the Holding Company. Management has not made provision against the said amount in the books of the Holding Company as management is confident that ultimately this claim would not be payable.

- Habibullah Coastal Power (Private) Company (HCPC) has claimed Rs. 1,899.96 million (2013: Rs 1,237.32 million) from the Holding Company for short supply of gas under the provisions of an agreement dated March 31, 1996 between the Holding Company and HCPC. As at June 30, 2015, this amount has increased to Rs. 2,382.76 million. Management has not made provision against the said amount as management is confident that ultimately this claim would not be payable. Further subsequent to the year end, HCPC has invoked arbitration as per article of Gas Sale Agreement.
- 17.1.5 Demand finance facilities have been given to the Holding Company's employees by certain banks for purchase of vehicles against the Holding Company's guarantee and hypothecation of the Holding Company's present and future stocks, book debts, receivables and the Holding Company's investment in shares having a face value of Rs. 0.5 million (2013: Rs. 0.5 million). Loan outstanding at the year end was Rs. 3.130 million (2013: Rs. 2.233 million).
- 17.1.6 Previously the Income Tax Appellate Tribunal (ITAT) had decided an Appeal in favor of Income Tax Department on the issue of capital gain made on disposal of LPG business in the financial year 2001 resulting in tax impact of Rs. 143 million. Management has filed an appeal before Honorable High Court. The management is of the view that sale of LPG business being in nature of slump transaction was not chargeable to tax under the Income Tax Ordinance, 2001. Accordingly, no provision regarding the said claim has been made in these consolidated financial statements as the management, based on its legal advisor's opinion, is confident that the matter would be resolved in favor of the Holding Company.
- 17.1.7 Income tax authorities have passed an amended assessment order for the tax year 2005 resulting in additional tax liability amounting to Rs. 103.745 million, which has been adjusted from the sales tax refund of the Holding Company. The Holding Company preferred appeal in this case. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.8 The Additional Collector (Adjudication) Sales Tax and Federal Excise passed an order against the Holding Company with a demand of Rs. 311.397 million for the years 2002-03, 2003-04 and 2005-06 in respect of sales tax on disposal of fixed assets, incorrect adjustment against exempt supplies, non-payment of sales tax on transportation charges, late payment surcharge and service connection charges along with default surcharge and penalty. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.9 Income tax authorities have issued notices under section 122 / 177 of the Income Tax Ordinance, 2001 for the tax years 2008, 2009, 2010 and 2011, disallowing certain expenses. The Holding Company has filed petition in the High Court of Sindh to seek the authoritative interpretation of the Honorable Court, in respect of disallowance of interest on delayed payment of gas bills on account of failure to deduct withholding tax under section 151(1)(d) read with section 158 of the Income Tax Ordinance, 2001 and disallowance of depreciation on fixed assets held under musharka arrangement. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.10 The Deputy Commissioner Inland Revenue passed an order for the financial year 2009-10 against the Holding Company with a demand of Rs. 1,635 million, along with default surcharge and penalty on account of disallowance of input sales tax on line losses / Unaccounted for Gas (UFG) along with other observations. Upon appeal, the Commissioner (Appeals) has reduced the demand to Rs. 230 million plus default surcharge. The Holding Company has filed appeal with Appellate Tribunal Inland Revenue on issues decided against the Holding Company by Commissioner (Appeals) whereas the Tax Department has also filed appeal before Appellate Tribunal on issues decided in the Holding Company's favor. Further, issue of allowability of input sales tax on UFG was also raised by Tax Department for financial year 2007-08.

On filing of suit by the Holding Company, the Honourable High Court of Sindh has stayed demand for FY 2009-10 and stayed proceedings for FY 2007-08. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.

- 17.1.11 The Additional Commissioner Inland Revenue passed an order against the Holding Company with a demand of Rs. 1,725 million in respect of disallowance of tax depreciation on additions to fixed assets and exchange loss in income tax audit for tax year 2011. On filing of suit by the Holding Company, the Honourable High Court of Sindh has stayed the demand. The Commissioner (Appeals) has decided the issue of exchange loss in Holding Company's favour while remanding back the issue of tax depreciation to tax department for hearing the case afresh. No provision has been made in these financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.12 The Additional Collector Inland Revenue passed an order against the Holding Company with demand of Rs. 1,314 million along with default surcharge. The principal tax demand was recovered by the authority. However, the Holding Company has filed a reference with FBR for waiver of default surcharge and penalty, which is pending. The Honorable High Court of Sindh has also stayed the recovery of the additional tax and penalties. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.

- 17.1.13 The Deputy Commissioner Inland Revenue (DCIR) passed an order against the Holding Company with a demand of Rs. 432 million. The demand is in respect of disallowance of exchange loss, addition on account of gain on disposal of fixed assets, interest free loans to employees and addition under section 34(5) of the Ordinance. Further the DCIR has not allowed credit for taxes paid, refund adjustment relating to tax year 2009 and adjustment of carry forward of minimum tax for financial years 2005-06, 2007-08 and 2008-09 claimed in the Income Tax Return for the financial year 2009-10. The Commissioner (Appeals) has maintained the disallowances except for interest free loans and directed tax department that credit of taxes paid, and minimum tax adjustments for FY 2005-2006 and FY 2008-09 be allowed after verification. The Commissioner (Appeals) has not given decision on addition under section 34(5) and refund ajustment. Against the Commissioner (Appeals) order, the Holding Company is in the process of filing appeal before Appellate Tribunal Inland Revenue. No provision has been made in these financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.14 Income tax authorities have issued show cause notice to the Holding Company for recovery of additional tax of Rs. 422 million for late deposit of withholding income tax on payment to permanent establishments of non-resident Exploration and Production Companies for the year 2013. The Holding Company has filed an appeal in the Honorable High Court of Sindh, which has stayed the recovery proceedings. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.15 The Holding Company is subject to various other claims totalling Rs. 873 million by income tax and sales tax authorities. The management is confident that ultimately these claims would not be payable.
- 17.1.16 One of the gas supplier has claimed excess amount of late payment surcharge on gas bills payable by the Holding Company. Management is of the view that amount recorded by the Holding Company is adequate and believe that no further provision is required to be recorded in these financial statements.
- 17.1.17 The Holding Company is party to number of cases in respect of billing disputes and related matters. Based on the opinion of the Holding Company's legal department, the management is confident that the outcome of these cases will be in favor of the Holding Company. Accordingly, no provision has been made in respect of those cases in these financial statements.

- Inter State Gas Systems (Private) Limited (ISGSL) entered into a service agreement with the Holding Company and SNGPL which was effective from July 01, 2003, whereby ISGSL is mainly required to ascertain, identify and advise the Holding Company and SNGPL on the most convenient and reliable sources of natural gas, which can be imported. The whole operation of ISGSL, is carried out in connection with the service agreement and ISGSL, was allowed under the agreement to recover its cost / expenditure from the Holding Company and SNGPL. The Holding Company bears 51% of the expenses of ISGSL, as per the directives of Economic Coordination Committee of the Cabinet.
- 20.2 Sale of these shares has been restricted by the Government of Pakistan due to its privatisation, till further directives.

The Holding Company entered into agreements with Oil and Gas Development Company Limited (OGDCL), Sui Northern Gas Pipelines Limited and ENI Pakistan Limited to use the Holding Company's transmission pipelines for distribution of gas. The terms of the agreements entered into are for a substantial portion of the useful economic lives of the related assets. On June 30, 2013, agreement with OGDCL expired and the management is negotiating for renewal of agreement.

The interest rates used to discount future minimum lease payments under the leases are based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in finance leases. The effective interest rate ranges from 11.4% to 34.6% per annum.

	Provision against impaired debts	26.3	(9,213,280) 78,911,633	(7,595,958) 76,367,960

As K-Electric Limited (KE) has been defaulting and not making payment of Late Payment Surcharge (LPS) and the Holding Company filed a suit in the High Court of Sindh in November 2012, for recovery of its aggregate claim, the Holding Company effective from July 01, 2012 decided to account for LPS from KE on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 41,302 million (2013: Rs. 44,303 million) as at June 30, 2014 receivables from KE. Out of this, Rs. 37,450 million (2013: Rs. 40,337 million) as at June 30, 2014 are overdue. However, the aggregate legal claim of the Holding Company from KE amounts to Rs. 55,458 million (2013: Rs. 50,935 million). This amount has been arrived at as per the practice of the Holding Company to charge LPS to customers who do not make timely payments.

Considering that the Holding Company has valid legal claim for recovery of LPS together with outstanding principal amount, the Holding Company filed the aforementioned suit against KE amounting to Rs. 55,705 million. The above suit has been filed based on the following grounds:

- As per the agreement dated June 30, 2009 which was entered between the Holding Company and KE for making outstanding payment in 18 installments, the Holding Company was entitled to charge LPS on outstanding principal amount at rate of:
- a. Highest OD rate being paid by SSGC or;
- b. Highest rate at which interest is payable on gas producer bills.
- As per the above agreement and as per the audited financial statements of KE as at June 30, 2010, KE, itself, acknowledged and recognized LPS till June 30, 2010, in its books of account which confirm management's assertion that the Holding Company has legal claim over KE for charging of LPS.

KE also filed case against the Holding Company in the High Court of Sindh for recovery of damages / losses of Rs. 61,614 million as KE claimed that the Holding Company had not supplied the committed quantity of natural gas to KE. However, the legal counsel of the Holding Company is of the view that claim of KE is not valid and is not as per terms of the agreement where it was agreed that the Holding Company would make excess supply of natural gas if KE would make timely payments. As KE defaulted on many instances in making payments on due dates, the Holding Company was not bound to supply excess quantity of natural gas as per terms of the agreement.

Management has consulted with its legal counsel, who is of the view that the Holding Company has a strong case over recovery of the outstanding amount due to which management considers outstanding balance good and recoverable. The legal counsel also viewed that the Holding Company has a good claim over LPS on outstanding balance, but considering that the matter is in dispute, as discussed above, the Holding Company has decided to recognize LPS from KE when either such claimed amounts are recovered or when these are decreed and their recovery is assured.

As Pakistan Steel Mills Corporation (Private) Limited (PSML) has been defaulting and not making payment of Late Payment Surcharge (LPS), the Holding Company effective from July 01, 2012 decided to account for LPS from PSML on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 16,944 million (2013: Rs. 12,680 million) including overdue balance of Rs. 16,488 million (2013: Rs. 12,232 million) receivable from PSML. However, the aggregate legal claim of the Holding Company from PSML amounts to Rs. 24,443 million (2013: Rs. 15,507 million). This amount has been arrived at as per the practice of the Holding Company to charge LPS to customers who do not make timely payments.

Although PSML's financial position is adverse, and it has no capacity to repay its obligations on its own, management is confident that the entire amount will be ultimately recovered because PSML is a government-owned entity and is continuously being supported by the Government of Pakistan.

	Gas development surcharge receivable from GoP Staff pension fund Receivable for sale of gas condensate Sui Northern Gas Pipelines Limited Jamshoro Joint Venture Limited Workers' Profit Participation Fund Sales tax receivable Sindh sales tax Pipeline rentals Miscellaneous receivables Provision against other receivables	30.1 40.1 30.2 30.6 & 30.7 30.3 30.4	20,737,160 659,934 206,909 12,354,923 14,349,882 1,229,655 10,496,392 135,646 33,779 83,179 60,287,459 (2,346,359)	17,159,475 648,635 75,637 4,085,098 3,955,853 452,655 11,944,614 - 15,620 135,922 38,473,509 (2,028,106)
30.1	Gas development surcharge receivable from GoP		57,941,100	36,445,403

30.1.1 This includes Rs. 390 million (2013: Rs. 390 million) recoverable from the Government of Pakistan (GoP) on account of remission of gas receivables from people of Ziarat under instructions from GoP. Although, management is confident that this amount is fully recoverable, as a matter of abundant caution full provision has been made in these financial statements.

30.1.2 In the current year, the Holding Company adopted the revised IAS 19 Employee Benefit (as revised in 2011) and the related consequential amendments. The amendments require recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous version of IAS 19.

As a result of adoption of the revised standard, management has recognized actuarial gains and losses which previously were unrecognized / deferred by the Holding Company as such treatment was allowed by the previous version of IAS 19. The financial impacts due to recognition of actuarial losses were Rs. 1,392 million, Rs. 267 million, and Rs. 690 million, for the years ended June 30, 2014, 2013 and opening retained earnings respectively. The comparative amounts for the previous years, i.e. June 30, 2013 and 2012 have been restated to incorporate impact of actuarial losses related to these years. The Holding Company has also claimed these losses in determining revenue requirement of the Holding Company for the year ended June 30, 2014; having total impact of Rs. 2,349 million.

The Holding Company has recognized such Gas development surcharge in other comprehensive income for the year ended June 30, 2014 instead of profit and loss account on the premise that actuarial losses have also been recognized in other comprehensive income.

This includes Rs. 12,211 million (2013: Rs. 3,976 million) receivable under the uniform cost of gas agreement with Sui Northern Gas Pipelines Limited and lease rental receivable and recoverable against lease service cost and contingent rent amounting to Rs. 144 million (2013: Rs. 109 million).

		2014	`2013

30.3	Workers' Profit Participation Fund		
	Balance as at July 01	452,655	59,912
	Amount refunded to the Company	-	(59,912)
	Allocation for the year	-	(17,345)
	Amount paid by the Company	777,000	470,000
	Balance as at June 30	1,229,655	452,655

Sales tax refunds arise due to uniform purchase price adjustment with SNGPL and zero rating of sales tax on gas sales for various industries. Sales Tax refunds are processed through FBR's Sales Tax Automated Refund Repository (STARR) system. Due to several snags in the functioning of STARR, valid input sales tax claims of the Holding Company are deferred. Realizing the problems of STARR, in August 2010, dispensation from processing of sales tax refunds through the STARR system was allowed by FBR and substantial refunds were released after issuance of this letter under corporate guarantee (subject to post refund audit). However, above said dispensation was also withdrawn by FBR in May 2012. After withdrawal of said dispensation, the deferred refunds are issued to the Holding Company on the basis of manual verification of documents (third party vendor sales tax returns) by tax authorities.

30.5	Movement of provision against other receivables		
	Balance as at July 01 Provision for the year	2,028,106 318,253	538,322 1,489,784
	Balance as at June 30	2,346,359	2,028,106

- 30.6 During the year, the Supreme Court of Pakistan passed an order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 P of 2009, whereby the Implementation Agreement of Badin gas field dated August 12, 2003 signed between the Holding Company and Jamshoro Joint Venture Limited was declared void from the date of its inception. The Court constituted a committee to calculate royalty payments (on the LPG extracted to date) on the basis of the Saudi Aramco reference price plus freight charges instead of the "Reference Price" for the full period during which the Implementation Agreement had been operational. However, the freight cost is yet to be finalised for which the Court has appointed an Advocate Supreme Court to determine the matter which is still pending.
- This amount comprises of receivable in respect of royalty income, sale of liquid petroleum gas, Federal Excise Duty and Sindh Sales Tax on Franchise Services amounting to Rs. 7,474 million (2013: Rs. 2,247 million), Rs. 5,160 million (2013: Rs. 312 million), Rs. 1,070 million (2013: Rs. 896 million) and Rs. 646 million (2013: Rs. 501 million) respectively.

As at year end, amount payable to JJVL is Rs. 3,298 million (2013: Rs. 255 million) as disclosed in note 15 to these financial statements.

33.1	Cost of natural gas			
	Gas in pipelines as at July 01 Gas purchases		272,267 188,809,213 189,081,480	259,688 170,640,857 170,900,545
	Gas consumed internally Inward price adjustment Gas in pipelines as at June 30	33.1.1	(603,328) (37,629,552) (332,529) (38,565,409) 150,516,071	(514,196) (34,665,146) (272,267) (35,451,609) 135,448,936

33.1.1 Under section 21 of the Oil and Gas Regulatory Authority Ordinance, 2002, the Government of Pakistan has issued a policy guideline to ensure the uniformity of gas prices for customers throughout the country. Accordingly, under this policy guideline and pursuant to an agreement between the Holding Company and Sui Northern Gas Pipelines Limited effective from July 1, 2003, the cost of gas purchased is being worked out by both the companies on an overall average basis in such a manner that input of gas for both companies become uniform. Under this agreement, the Company with lower weighted average cost of gas is required to pay to the other Company so that the overall weighted average rate of well head gas price of both the companies is the same.

33.1.2 UFG in parlance of a gas distribution and transmission Holding Company means the difference between gas purchased in volume, gas billed in volume and gas used internally by the Holding Company for its operations. UFG results from a number of factors which inter alia comprises of gas leakages both above ground and underground, measurement errors, meter tampering, meter getting slow with time and use, illegal connections and such other connections which bypass the meters installed. While it is almost impossible to estimate the amount of gas theft in UFG, it is estimated that it is a significant percentage of the total UFG.

The Holding Company is taking a number of measures to control and reduce UFG. These are elaborated below:

- Vigilance for identification of theft cases, illegal networks and necessary remedial measures thereafter.
- Measurement errors identification and rectification.
- Above ground and underground leakage identification and rectification.

The Holding Company's actions are likely to be more effective with the co-operation of various stakeholders and law enforcement agencies.

Actual UFG for the year ended June 30, 2014 is 13.82 % (2013: 8.43%). OGRA has restricted UFG to 7% due to stay order granted by the Honorable High Court of Sindh.

36.2 The Holding Company entered into Implementation Agreement with Jamshoro Joint Venture Limited (JJVL) and granted 'exclusive rights' to process and extract Liquefied Petroleum Gas (LPG) and Natural Gas Liquids (NGL) from Composite Associated Gas Mixture (CAGM) made available at JJVL plant.

Gas Shrinkage charged to JJVL means the amount payable by JJVL to the Holding Company as compensation for loss in volume and gross calorific value of CAGM due to recovery of LPG and NGL at the JJVL plant. This is in fact consideration for loss in volume of gas and its gross calorific value between Tie in Point and delivery point.

This amount was being recovered under the Implementation Agreement which has been declared void by the Honourable Supreme Court of Pakistan vide its Order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 - P of 2009. Thus no shrinkage has been charged after Supreme Court Order.

- This amount includes Royalty income of Rs. 4,257 million pursuant to Supreme Court decision dated December 04, 2013 with respect to the Constitution Petition No.5 of 2011 and Human Rights Case No.15744 P of 2009, whereby the Implementation Agreement of Badin gas field dated August 12, 2003 signed between the Holding Company and Jamshoro Joint Venture Limited (JJVL) was declared void from the date of its inception. A total amount of Rs. 4,257 million was worked out for the period from August 2003 to December 2013 by a committee constituted by Supreme Court to calculate royalty payments (on the LPG extracted to date) on the basis of the Saudi Aramco reference price plus freight, for the full period during which the Implementation Agreement had been operational. However, the difference of freight amount is yet to be finalised for which Supreme Court has appointed an Advocate Supreme Court to determine the matter which is still pending.
- 37.5 The Holding Company signed various Memorandum of Understanding (MoUs) with Jamshoro Joint Venture Limited (JJVL) wherein JJVL was allowed to extract LPG from various gas fields. As per MoUs, 50% of extracted quantity is sold out to JJVL and 50% to other customers.

40. STAFF RETIREMENT BENEFITS

40.1 Funded post retirement pension and gratuity schemes

As mentioned in note 3.17 to these financial statements, the Holding Company operates approved funded pension and gratuity schemes for all employees. Contributions are made to these schemes based on actuarial valuation. Latest actuarial valuations were carried out as at June 30, 2014 under the projected unit credit method for both non-executive and executive staff members.

Fair value of plan assets and present value of obligations

The fair value of plan assets and present value of defined benefit obligations of the pension and gratuity schemes at the valuation date were as follows:

Total	928,978	2,035,279	245,127	2,357,051

Significant actuarial assumptions

Significant assumptions used for the valuation of above schemes are as follows:

	Exe	ecutives and	
	Noi	Non-executives	
	2014	2013	
	(%)	(%)	
	13.25	11.00	
increase in salary level	11.25	9.00	
	6.25	4.00	

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected rate of salary and pension increase. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

			Impact of change in assumptions in present value of defined benefit obligation				
	Change in		Executi	ves	Non-executives		
	assumptio	on .	Pension	Gratuity	Pension	Gratuity	
			(Rupees in '000)				
Discount rate	1%	Increase in	(42,047)	(219,412)	(1,057)	(243,919)	
Salary increase rate	1%	assumption	35,675	263,855	-	371,991	
Pension increase rate	1%		40,707	-	1,264	-	
Discount rate	1%	Decrease in	47.261	244.783	1.193	275,291	
Salary growth rate	1%	assumption	(32,408)	(239,774)	, -	(131,638)	
Pension increase rate	1%		(35,362)	-	(1,132)	- -	

In presenting the above sensitivity analysis, the present value of the define benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the consolidated balance sheet.

The expected pension and gratuity expense for the next one year from July 01, 2014 is as follows:

Current service cost
Interest cost
Expected return on plan assets
Amount transferred out / (in)

Executi	Executives Non-executives		
Pension	Gratuity	Pension	Gratuity
	(Rupees i	n ' <u>000)</u>

87,142	451,811	2,275	439,292
(154,072)	(270,642)	(36,772)	(335,910)
216,001	(216,001)	176,598	(176,598)
202,057	171,288	142,101	103,347

40.2 Unfunded post retirement medical benefit and gas supply facilities

As mentioned in note 3.17 to these financial statements, the Holding Company provides free medical and gas supply facilities to its retired executive employees. The free gas supply facility has been discontinued for employees who had retired after December 31, 2000. The latest acturial valuations of the liability under these schemes were carried out as at June 30, 2014 under the projected unit credit method, results of which are as follows:

Number of employees under the scheme

The number of employees covered under the following defined benefit plans are 2,455 (2013: 2,479).

		2014

47. FINANCIAL RISK MANAGEMENT

The objective of Group's overall financial risk management is to minimize earnings volatility and provide maximum return to shareholders. The Board of Directors of the Holding Company has overall responsibility for the establishment and oversight of the Group's risk management frame work and policies.

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

47.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss without taking into account the fair value of any collateral. Credit risk arises from trade debts, net investment in finance lease, loans and advances, trade deposits, bank balances, interest accrued and other receivables. To reduce the exposure toward the credit risk, comprehensive customer category wise credit limits and terms have been established. In case of industrial and commercial customers gas supply deposits equivalent of three months estimated gas consumption and deposit from domestic customers as per rates notified by OGRA are taken to reduce credit exposure. The Holding Company continuously monitors the credit given to customers and interest accrued thereon and has established a dedicated recovery department for follow-up, recovery or disconnection of gas supply as the case may be. Loans and advances given to employees are secured against retirement benefits of the employees and title deed of properties of employees. Balances are maintained with banks of sound credit rating. The Holding Company attempts to control credit risk in respect of other receivables by monitoring credit exposures of counterparties.

^{**}Comparative balances with these parties have not been disclosed as these parties were not related parties in last year.

89,654,085

112,108,807

The maximum exposure to credit risk before any credit enhancement at year end is the carrying amount of the financial assets as set out below:

	(Rupe	(Rupees in '000)	
Financial assets - loans and receivabales			
Trade debts	78,911,633	76,367,960	
Net investment in finance lease	692,877	802,950	
Loans and advances	449,373	262,007	
Deposits	10,834	19,524	
Bank balances	1,602,642	934,259	
Interest accrued	5,623,489	5,027,361	
Other receivables	24,817,959	6,240,024	

47.1.1 Collateral and other credit enhancements obtained

Security against supply of gas to industrial and commercial customers is taken on the basis of average three months, gas consumption estimated at the time of connection in form of cash deposits (gas supply deposits) / bank guarantee / irrevocable letter of credit. Security against supply of gas to domestic customers are obtained at rates notified by the OGRA. These collaterals are adjusted / called following on disconnection of gas supply. Details of security held at year end is as follows:

Cash deposits	8,305,883	5,211,695
Bank guarantee / irrevocable letter of credit	24,637,936	21,229,159

47.1.2 Credit Quality

The Group monitors the credit quality of its financial assets with reference to historical performance of such assets and where available external credit ratings. The carrying values of all financial assets which are neither past due nor impaired are given in the note 47.1.3 below:

The credit quality of the Group's major bank accounts is assessed with reference to external credit ratings which are as follows:

47.1.3 Past due and impaired financial assets

Industrial and commercial customers

The age analysis of trade debt balances relating to industrial and commercial customers at year end is as follows:

	2014		2013	
	Gross carrying	Impairment	Gross carrying	Impairment
	amount	amount (Rupe	es in '000)	
Not due balances	16,745,784	-	15,391,500	-
Past due but not impaired	55,506,792	-	54,183,578	-
Past due and impaired	3,801,603	2,678,909	3,076,949	3,076,949
Disconnected customers	612,918	574,015	534,157	528,941
Total	76,667,097	3,252,924	73,186,184	3,605,890

Past due but not impaired balances include aggregate overdue balances of K-Electric, PSML and WAPDA amounting to Rs. 54,609 million and are subject to inter corporate circular debt of government entities and K-Electric.

The Holding Company has collateral / security against industrial and commercial customers amounting to Rs. 25,876 million (2013: Rs. 25,081 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due. In case of past due balances the Holding Company starts recovery process through recovery department and where the amount is in excess of collateral and is not recovered by recovery department, then disconnection of meter (disconnected customers) is considered. Receivables which are past due and against which recoveries are not made or which are disconnected are considered as impaired debts.

Domestic customers

The age analysis of trade debt balances relating to domestic customers at year end is as follows:

	2014 2013			
	Gross carrying Impairment		Gross carrying	Impairment
	amount		amount	
	(Rupees in '000)			
Not due balances	1,470,478	-	2,280,706	-
Past due but not impaired				
Past due 1 - 6 months	1,011,197	-	3,515,980	-
Past due and impaired				
Past due 7 - 9 months	582,368	-	196,390	-
Past due 10 - 12 months	499,546	-	174,154	-
Past due 13 - 18 months	954,176	-	437,502	183,089
Past due 19 - 24 months	509,658	-	205,883	205,883
Past due Over 2 years	3,489,640	3,376,699	1,472,407	1,472,407
	6,035,388	3,376,699	2,486,336	1,867,379
Disconnected customers	2,940,753	2,583,657	2,494,712	2,122,689
Total	11,457,816	5,960,356	10,777,734	3,990,068

The Holding Company has collateral / security against domestic customers amounting to Rs. 4,068 million (2013: Rs. 1,360 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due.

Interest accrued

As at June 30, 2014 interest accrued was Rs. 5,623 million (2013: Rs. 5,027 million). Interest is mainly accrued on customer balances which are past due. Interest on past due balances includes aggregate over due balances of WAPDA and SNGPL amounting to Rs. 5,428 million (2013: 4,981 million), recovery of which is subject to inter corporate circular debt of Government entities.

Other receivables

As at June 30, 2014 other receivable financial assets amounted to Rs. 24,818 million (2013: Rs. 6,240 million). Past due other receivables amounting to Rs. 10,236 million (2013: Rs. 3,681 million) include over due balances of SNGPL amounting to Rs. 4,987 (2013: Rs. Nil) and JJVL amounting to Rs. 4,128 million (2013: Rs. 3,445 million).

47.1.4 Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Holding Company's performance to developments affecting a particular industry. Concentration of credit risk is determined with references to the individual customers / counter parties, type as well as geographical distribution of customers / counter parties. Concentration of credit risk in financial assets of the Holding Company is as follows:

Trade debts

Customer category wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2	013
	(Rupees in '000)		
Power generation companies	43,216,317	45,	904,212
Cement industries	31,970		49,722
Fertilizer and steel industries	17,812,032	13,	353,847
Other industries	10,991,646	9,	035,073
Total industrial customers	72,051,965	68,	342,854
Commercial customers	1,362,208	1,	237,440
Domestic customers	5,497,460	6,	787,666
	78,911,633	76,	367,960

At year end the Holding Company's most significant receivable balances were K-Electric, PSML and WAPDA which amounted to Rs. 41,302 million (2013: Rs. 44,303 million), Rs. 16,944 million (2013: Rs. 12,680 million) and Rs. 1,749 million (2013: Rs. 1,495 million) respectively. These balances have aggregated due to inter corporate circular debt.

Geographical region wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2013
	(R	upees in '000)
Karachi	69,889,612	68,124,176
Sindh (excluding Karachi)	6,635,627	6,094,046
Balochistan	2,386,394	2,149,738
	78,911,633	76,367,960

Net investment in finance lease

The Holding Company's most significant investment in finance lease amounted to Rs. 561 million (2013: Rs. 627 million) in respect of SNGPL.

Interest accrued

Most significant counter parties of the Holding Company in respect of interest accrued are disclosed in note 29 to these financial statements.

Other receivables

Most significant other receivables of the Holding Company are in respect of lease rental, lease service cost, contingent rent and uniform cost of gas agreement with SNGPL as disclosed in note 30.2 to these financial statements. These balances are subject to inter circular corporate debt.

47.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Group could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Group's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Due to nature of the business, the Group maintains flexibility in funding by maintaining committed credit lines available. The Group's liquidity management involves projecting cash flows and considering the level of liquid assets necessary to fulfill its obligation, monitoring balance sheet liquidity ratios against internal and external requirements and maintaining debt financing plans.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date.

	2014							
	Carrying amount	Contractual cash flows	Not later than six months	Later than six months but not later than 1 Year s in '000)	Later than one year but not later than 2 Year	Later than 2 Year		
			(, 000)

Trade and other payables	84,383,439	(84,383,439)	(84,383,439)	=	-	=		
Interest accrued	21,904,891	(21,904,891)	(21,904,891)	-	-	-		
Deposits	5,317,335	(13,020,785)	(153,081)	(96,293)	(192,586)	(12,578,825)		
	144,249,172	(158,405,949)	(113,027,916)	(3,351,218)	(6,277,916)	(35,748,899)		

The contractual cash flows relating to the above financial liabilities have been determined on the basis of latest available market rates. The rates of mark-up have been disclosed in notes 7 and 8 to these financial statements. Contractual cash flows of the long term deposits are determined on the assumption that adjusted / refund of these deposits will not be required before expiry of 40 years from balance sheet date.

47.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The market risk comprises of currency risk, interest rate risk and other price risk (equity price risk).

47.3.1 Currency risk

Foreign currency risk is the risk that the value of financial asset or a liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered into foreign currencies.

The Holding Company is exposed to currency risk on creditors for gas that are denominated in a currency other than functional currency of the Holding Company. The currency in which these transactions primarily are denominated is US Dollars. The Holding Company's exposure to foreign currency risk is as follows:

	20	14	201	2013			
	Rupees	US Dollars	Rupees	US Dollars			
	in '000	in '000	in '000	in '000			
Creditors for gas	25,332,313	256,530	6,880,079	69,636			
Estimated forecast gas purchases	142,280,012	1,382,702	178,776,736	1,844,961			
Net exposure	167,612,325	1,639,232	185,656,815	1,914,597			

Above net exposure is payable by the Holding Company in Rupees at the rate on which these are settled by the Holding Company. Currently, the Holding Company does not obtain forward cover against the gross exposure as exchange loss / gain on purchases of gas and supplies is recovered from / paid to Government of Pakistan as part of guaranteed return.

The following significant exchange rates applied during the year:

	Avera	age rates	Balance sheet date rate		
	2014 2013		2014	2013	
	(R	upees)	(Rupees)		
US Dollars	102.90	96.90	98.75	98.80	

Sensitivity analysis

A ten percent strengthening / (weakening) of the Rupee against US Dollar at June 30, 2014 would have (decreased) / increased trade creditors by Rs. 2,532 million (2013: Rs. 688 million). There is no effect of strengthening / (weakening) of US dollar on consolidated equity and consolidated profit and loss account of the Holding Company as exchange loss / gain on purchases of gas and store and supplies is recovered from / paid to Government of Pakistan as part of 17% guaranteed return. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from short and long term borrowings from banks. At the balance sheet date the interest rate profile of the Group's interest-bearing financial instruments were as follows:

	2014	2013
	(Ru	pees in '000)
Fixed rate instruments		
Financial assets		
Net investment in finance lease	692,877	802,950
Loan and advances	3,375	4,650
Trade debts	28,195,466	22,171,360
Cash at banks	1,268,585	750,722
	30,160,303	23,729,682
Financial liabilities		
Long term deposits	(4,238,095)	(3,851,725)
Government of Sindh Ioan	(5,756,859)	(6,055,042)
Trade and other payables	(20,000,606)	(16,614,116)
	(29,995,560)	(26,520,883)
	164,743	(2,791,201)
Variable rate instruments		
Financial assets		
Trade debts	37,642,158	40,529,553
Other receivables	26,139,898	6,304,459
	63,782,056	46,834,012
Financial liabilities		
Long term loan except Government of Sindh loan	(19,149,307)	(22,313,215)
Short term borrowings	(3,141,237)	(4,017,953)
Trade and other payables	(94,115,919)	(63,690,733)
	(116,406,463)	(90,021,901)
	(,,	(,,
	(52,624,407)	(43,187,889)

2017

2012

Fixed rate instrument bear fixed interest rate while all other borrowings bear variable interest rate and are indexed to KIBOR. Borrowing is generally determined on the basis of business needs. The Group analysis its interest rate exposure on a regular basis by monitoring existing facilities against prevailing market interest rates and taking into account various other financing options available.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit and loss. Therefore, a change in interest rates at the reporting date would not affect consolidated profit and loss account and the consolidated equity of the Group.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have net increased or (net decreased) the consolidated profit or loss of the Group as at June 30, 2014 by Rs. 509 million (2013: Rs. 415 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.3 Equity price risk

Equity price risk is the risk of changes in the fair value of equity securities as the result of changes in the levels of KSE-100 Index and the value of individual shares. The equity price risk exposure arises from the Group's investments in listed equity securities. This arises from investments held by the Group for which prices in the future are uncertain. The fair value of listed equity investments of the Group that are exposed to price risk as at June 30, 2014 is Rs. 131.290 million (2013: Rs. 89.684 million).

A ten percent increase / decrease in the prices of listed equity securities of the Group at the reporting date would have increased or (decreased) long term investment and consolidated equity by Rs. 13.129 million (2013: Rs. 8.968 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2013.

47.4 Fair value of financial assets and liabilities

The carrying values of all financial instruments reflected in the financial statements approximate their fair values except for investment in unquoted companies which are reflected at cost less impairment losses.

47.4.1 Fair value hierarchy

The table below analysis financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Available-for-sale financials assets	Level 1	Level 2 (Rupees i	Level 3 n '000)	Total			
Quoted equity securities	131,290	-	-	131,290			
	131,290	-	-	131,290			
		201	3				
Available-for-sale financials assets	Level 1	Level 2 (Rupees	n '000)	Total			
Quoted equity securities	89,684	-	-	89,684			
	89,684	-	-	89,684			

There have been no transfers during the year (2013: no transfers in either direction).

47.5 Capital risk management

The objective of the Group when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders, benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its businesses.

The Group manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend paid to the shareholders or issue new shares.

The Group is not subject to externally imposed regulatory capital requirements.

The gearing ratio as at June 30 is as follows:

	2014	2013
	(R	upees in '000)
Total borrowings		
Long term finance	20,859,892	24,770,608
Current portion of long term finance	4,046,274	3,597,649
Short term borrowings	3,141,237	4,275,250
	28,047,403	32,643,507
Less: Cash and bank balances	(1,613,575)	(943,220)
Net debts	26,433,828	31,700,822
Capital employed	40,758,357	48,183,227
Gearing ratio	65%	66%

48. OPERATING SEGMENTS

IFRS 8 -Operating Segments requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to segments and to assess their performance. As a result, management has identified the following two segments:

- 1) Gas transmission and distribution (sale of gas); and
- 2) Meter manufacturing (manufacturing and sale of gas meters)

Segment revenue and results

The following is analysis of the Group's revenue and results by reportable segment.

	Segmer	nt revenue	Segment (loss) / profit		
	2014 2013		2014	2013	
		(Restated)		(Restated)	
		(Rupees	in '000)		
Gas transmission and distribution	152,541,542	142,197,188	(7,112,861)	54,247	
Meter manufacturing	3,001,389	2,522,392	622,254	537,416	
Total segments results	155,542,931	144,719,580	(6,490,607)	591,663	
Has Has a total at the way as we are a					
Unallocated - other expenses			(079 001)	(000 406)	
- Other operating expenses			(278,901)	(888,426)	
Unallocated - other income					
- Non-operating income			473,684	357,670	
			0,001	55.,576	
(Loss) / profit before tax			(6,295,824)	60,907	

The above revenue includes sale of meters by meter manufacturing segment to gas transmission and distribution amounting to Rs. 996 million (2013: Rs. 617 million).

The accounting policies of the reportable segments are same as disclosed in note 3.

The accounting policies of the reportable segments are same as disclosed in note 3.	2014	2013

Benevolent fund - executives	132,880	120,148

^{- *} Based on un-audited financial statements

50. ACCOUNTING ESTIMATES AND JUDGMENTS

50.1 Income tax

The Group takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Group's view differs from the view taken by the income tax department at the assessment stage and where the Group considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

50.2 Staff retirement and other service benefit obligations

Certain actuarial assumptions have been adopted as disclosed in note 40 to these financial statements for valuation of these obligations and fair value of plan assets. Any changes in these assumptions in future years might affect unrecognised gains and losses in those years.

50.3 Property, plant and equipment

In accordance with the accounting policy, the management carries out an annual assessment of depreciable amount and useful lives of property, plant and equipment. Further, the Group reviews the value of the assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

50.4 Trade debts and other receivables

The Group reviews its receivable against provision required there against on an ongoing basis and appropriate provision is made against outstanding receivable based on systematic basis as approved by the Board of Directors.

50.5 Stores, spares and loose tools

The management continuously reviews its inventory for existence of any items which may have become obsolete. The estimates against slow moving and obsolete items are made based on systematic basis as approved by the Board of Directors.

50.6 Fair value of investments

Management has determined fair value of certain investments by using quotations from active market of the financial instruments.

50.7 Recognition of income from sale of Natural Gas Liquid (NGL) and Liquefied Petroleum Gas (LPG)

Income from sale of NGL and LPG to Jamshoro Joint Venture Limited is recognized based on provisional invoice price / quantity being the best estimate available. Any change in provisional price / quantity will be accounted for prospectively in the year in which there is change in price / quantity.

50.8 Recognition of gas development surcharge

Management has recognised income from gas development surcharge according to Final Revenue Requirement (FRR) issued by OGRA based on stay orders as mentioned in note 1.4.1. Further, gas development surcharge does not include the impact of stay orders as mentioned in note 1.4.2 since no revised FRR has been issued by OGRA in this regard.

51. BENAZIR EMPLOYEE STOCK OPTION SCHEME (BESOS)

On August 14, 2009, the Government of Pakistan (GoP) launched Benazir Employees' Stock Option Scheme ('the Scheme') for employees of certain State Owned Enterprises (SOEs) and non-State Owned Enterprises where GoP holds significant investments (non-SOEs). The scheme is applicable to permanent and contractual employees who were in the employment of these entities on the date of launch of the Scheme, subject to completion of five years vesting period by all contractual employees and by permanent employees in certain instances.

The Scheme provides for a cash payment to employees on retirement or termination based on the price of shares of respective entities. To administer this scheme, GoP shall transfer 12% of its investment in such SOEs and non-SOEs to a Trust Fund to be created for the purpose by each of such entities. The eligible employees would be allocated units by each Trust Fund in proportion to their respective length of service, and on retirement or termination, such employees would be entitled to receive such amounts from Trust Funds in exchange for the surrendered units as would be determined based on market price for listed entities or breakup value for non-listed entities. The shares relating to the surrendered units would be transferred back to GoP.

The scheme also provides that 50% of dividend related to shares transferred to the respective Trust Fund would be distributed amongst the unit holder employees. The balance 50% dividend would be transferred by the respective Trust Fund to the Central Revolving Fund managed by the Privatization Commission of Pakistan for payment to employees against surrendered units. The deficit, if any, in Trust Funds to meet the re-purchase commitment would be met by GoP.

The Scheme, developed in compliance with the stated GoP policy of empowerment of employees of State Owned Enterprises need to be accounted for by the covered entities, including the Holding Company, under the provisions of amended International Financial Reporting Standard 2 – Share-based Payment (IFRS 2). However, keeping in view the difficulties that may be faced by the entities covered under the Scheme, the Securities & Exchange Commission of Pakistan on receiving representations from some of entities covered under the Scheme and after having consulted the Institute of Chartered Accountants of Pakistan has granted exemption to such entities from the application of IFRS 2 to the Scheme.

Had the exemption not been granted there would have been no impact on the results of the Holding Company as the annual return of the Holding Company is determined under the regulatory revenue requirement, which would have covered any additional cost if incurred by the Holding Company in respect of the aforesaid Scheme.

52. GENERAL

- 52.1 Figures have been rounded off to the nearest thousand rupees unless otherwise stated.
- 52.2 Corresponding figures have been rearranged and reclassified, wherever necessary.

53. DATE OF AUTHORISATION

These financial statements were authorised for issue in Board of Directors meeting held on 05 March 2016.

Miftah Ismail Chairman Khalid Rahman Managing Director

FORM OF PROXY

60th Annual General Meeting

of				
Being a Memb	per of Sui Southern Gas	Company Limited and holder of		ordinary shares as per
Share Register	Folio No./CDC particip	oant I/O No./ Account No.		
-				
Hereby appoin	t (Name)			
Who is also me	ember of Sui Southern	Gas Company Limited, as my Proxy to	o vote for me and on my	behalf at the 60 th Annual
General Meeti	ng of the Company to	be held on 16 April 2016 and at any adj	journment thereof.	
Signed this		day of	2016	6
Folio No.	Witnesses:			
1.	Signature			
	Name			CICNATURE ON
	Address			SIGNATURE ON RUPEES FIVE
				REVENUE
	CNIC			STAMP
	or			
	Passport No. —			
				The Signature shoud agree
2.	Signature			with the specimen registered with the Company.
	Name			. ,
	Address			
	CNIC			
	or			
	Doggovert No			

Notes

- 1. This form must be signed across Five Rupees Revenue Stamp and it should be deposited in Share Registar's Office of the Company not later than 48 hours before the time of holding the meeting (Article 67).
- 2. No person shall be appointed a proxy who is not a member of the Company and qualified to vote, save that a Corporation being a member of the Company may appoint as its proxy, any person though not to be a member. An agent duly authorized under a power of attorney shall not be entitled to be present and vote on behalf of his appointer unless the agent is himself a member qualified to vote at the time of his being present at the meeting at which he proposes to vote as such agent (Article 65).

For CDC account holders/corporate entities:

In addition to the above, the following requirements have to be met:

- i) The Proxy Form shall be witnessed by two persons whose name, addresses and CNIC numbers shall be mentioned on the form.
- ii) Attested copies of CNIC or the passport of the beneficial owners and the proxy shall be furnished with the Proxy Form.
- iii) The Proxy shall produce his orginal CNIC or original passport at time of the meeting.
