

Consolidated Financial STATEMENTS

Auditors' Report to the Members

We have audited the annexed consolidated financial statements comprising consolidated balance sheet of Sui Southern Gas Company Limited ("the Holding Company") and its subsidiary companies Sui Southern Gas Provident Fund Trust Company (Private) Limited and SSGC LPG (Private) Limited as at June 30, 2014, and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof for the year then ended. We have also expressed separate opinions on the financial statements of the Holding Company and its subsidiary companies. These financial statements are the responsibility of the Holding Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was conducted in accordance with International Standards on Auditing and accordingly included such tests of accounting records and such other audit procedures as we consider necessary in the circumstances.

As described in notes 26.1 and 26.2 to the consolidated financial statements, trade debts include receivables of Rs. 41,302 million (2013: Rs. 44,303 million) and Rs. 16,944 million (2013: Rs. 12,680 million) from K-Electric Limited (KE) and Pakistan Steel Mills Corporation (Private) Limited (PSML) respectively. As described in the aforesaid notes, significant portion of such receivables include overdue amounts, which have been considered good by management and classified as current assets in these financial statements. Further, KE and PSML have disputed Late Payment Surcharge (LPS) on their respective balances and the financial condition of PSML is such that it has not been able to pay its obligations, due to which management has decided to recognize LPS on a receipt basis from the aforesaid entities effective from July 01, 2012.

Due to the adverse financial condition of PSML, disputes by KE and PSML with the Holding Company on LPS, and large accumulation of their respective overdue amounts, we were unable to determine the extent to which the total amounts due from KE and PSML are likely to be recovered and the time frame over which such recovery will be made.

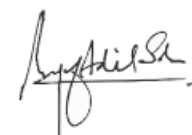

In our opinion, except for possible effects of the matter described in the preceding paragraph, the consolidated financial statements present fairly the financial position of Sui Southern Gas Company Limited and its subsidiary companies as at June 30, 2014, and the results of their operations for the year then ended.

We draw attention to:

- (i) note 1.4 to the consolidated financial statements that describes that revenue requirement for the years ended June 30, 2011, 2012, 2013 and 2014 have been determined provisionally on the basis of stay orders of the High Court of Sindh (the Court) which were also considered by OGRA while determining revenue requirement except for impact of the orders dated November 20, 2015, whereby OGRA was directed to treat income from royalty (arrears) and income from LPG and NGL as non-operating income which was not considered by OGRA while determining revenue requirement of the Holding Company for the years ended June 30, 2013 and 2014.

Our opinion is not qualified in respect of this matter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2014

1. THE GROUP AND ITS OPERATIONS

1.1 The 'Group' consists of:

Holding Company

- Sui Southern Gas Company Limited

2014 2013
(Percentage of holding)

Subsidiary Companies

- SSGC LPG (Private) Limited	100	100
- Sui Southern Gas Provident Fund Trust Company (Private) Limited	100	100

The Group is principally engaged in transmission and distribution of natural gas and liquefied petroleum gas in Sindh and Balochistan. Brief profiles of the Holding Company and subsidiaries are as follows:

Sui Southern Gas Company Limited

Sui Southern Gas Company Limited ("the Holding Company") is a public limited Company incorporated in Pakistan and is listed on the Karachi, Lahore and Islamabad Stock Exchanges (now Pakistan Stock Exchange). The main activity of the Holding Company is transmission and distribution of natural gas in Sindh and Balochistan. The Holding Company is also engaged in certain activities related to the gas business including the manufacturing and sale of gas meters and construction contracts for laying of pipelines.

Sui Southern Gas Provident Fund Trust Company (Private) Limited

Sui Southern Gas Provident Fund Trust Company (Private) Limited is a wholly owned subsidiary of Sui Southern Gas Company Limited. Its registered office is situated at ST-4/B, Block-14, Sir Shah Muhammad Suleman Road, Gulshan-e-Iqbal, Karachi and was formed to facilitate administration of employees retirement funds of the Holding Company.

SSGC LPG (Private) Limited

SSGC LPG (Private) Limited is a wholly owned subsidiary of Sui Southern Gas Company Limited. Its registered office is situated at ST-4/B, Block-14, Sir Shah Muhammad Suleman Road, Gulshan-e-Iqbal, Karachi and its main activity is supply of liquefied petroleum gas and provision of terminal and storage services.

1.2 Basis of consolidation

- The consolidated financial statements include the financial statements of the Holding Company and its Subsidiary Companies, together "the Group".
- The financial statements of the subsidiaries are prepared for the same reporting year as the Holding Company for the purpose of consolidation, using consistent accounting policies.
- The assets, liabilities, income and expenses of subsidiaries have been consolidated on a line by line basis.
- Minority interest represents the portion of the net results of operations and of net assets of subsidiaries attributable to interests which are not owned by the Holding Company.
- Material intra-group balances and transactions have been eliminated.

1.3 Regulatory framework

Under the provisions of license given by the Oil and Gas Regulatory Authority (OGRA), the Holding Company is provided a minimum annual return before taxation of 17% per annum of the net average operating fixed assets (net of deferred credit) for the year, excluding financial and other non-operating expenses and non-operating income. The determination of annual required return is reviewed by OGRA under the terms of the license for transmission, distribution and sale of natural gas, targets and parameters set by OGRA. Income earned in excess / short of the above guaranteed return is payable to / recoverable from the Government of Pakistan (GoP) and is adjusted from / to the gas development surcharge balance payable to / receivable from the GoP.

1.4 Determination of revenue requirement

1.4.1 The Oil and Gas Regulatory Authority (OGRA) in its order dated December 02, 2010 and May 24, 2011 treated Royalty Income from Jamshoro Joint Venture Limited, Profit from Meter Manufacturing, Late Payment Surcharge and Sale of Gas Condensate as operating income which it had previously allowed as non-operating income in its decision dated September 24, 2010, for the year ended June 30, 2010. OGRA also in its aforesaid decision reduced benchmark of the allowable Unaccounted for Gas (UFG) from 7% to 4.25 % - 5%. Aggrieved by the above decision, the Holding Company had filed an appeal against the decision of the OGRA in the High Court of Sindh (the Court), on which the Court provided interim relief whereby OGRA was directed to determine the revenue requirement on the same principles as per its decision of September 24, 2010, till final order of the Court. Also, with regard to UFG benchmark, OGRA was directed to carry out an impact assessment study and submit its report to the Court. Therefore, the revenue requirement for June 30, 2011, was determined based on the relief provided by the Court.

For subsequent years including current year ended June 30, 2014, the Holding Company also obtained stay orders from the Court on the same principles which were fixed in the interim relief as discussed above, and thereafter, OGRA considered such principles in determining revenue requirement of the Holding Company. Management is confident that the final decision of the Court would be in favor of the Holding Company.

Had there been no stay in the current year, and these financial statements been prepared in accordance with the OGRA's decisions dated December 02, 2010 and May 24, 2011, the Holding Company would have reported loss for the year amounting to Rs. 23,923 million.

1.4.2 In determining the Final Revenue Requirement (FRR) for the years ended June 30, 2013 and 2014, the OGRA treated income from royalty (arrears) and income of LPG and NGL as operating income amounting to Rs. 2,501 million and Rs. 6,600 million respectively, on which the Holding Company filed application in the already pending Judicial Miscellaneous petitions in the High Court of Sindh that these income should have been treated as non-operating income as it was already decided by the Court in previous stay orders, while the cases are still to be finalised by the Court. The Court suspended the relevant paragraphs of OGRA orders wherein above income were treated as operating income thus requiring revision of FRR for 2013 and 2014; however, no revised FRR has been issued by the OGRA till the date of issue of these financial statements. Consequently, the impact of the new stay orders have not been taken and the aforesaid income have been treated as operating income in the financial statements of the current as well as previous year.

The management, based on the opinion of its legal counsel intends to get the above Court decision enforced and is confident that the OGRA will provide benefit of the aforesaid income to the Holding Company.

Had OGRA issued revised FRR based on the above mentioned stay orders of the Court and these financial statements been prepared in accordance with the revised FRR, the Holding Company would have claimed Rs. 6,600 million (2013: Rs. 2,501 million) as non-operating income which OGRA treated as operating income while determining revenue requirement of the Holding Company. The cumulative impact of these stay orders would result in decrease of reported loss for the year by Rs. 6,017 million and the Holding Company would have reported profit for the year amounting to Rs. 2,263 million.

2. BASIS FOR PREPARATION

2.1 Statement of compliance

These consolidated financial statements ("the financial statements") have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions of or directives issued under the Companies Ordinance, 1984 shall prevail.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention, except for certain investments stated in note 20 which are carried at their fair values, employee benefits which are valued at their present value using actuarial assumptions and freehold and leasehold land which are carried at revalued amount.

2.3 Functional and presentation currency

The financial statements are presented in Pakistani Rupees, which is the Groups's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of the financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires the management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including reasonable expectation of future events. Revision to accounting estimates are recognised prospectively commencing from the period of revision.

Judgments and estimates made by management that may have a significant risk of material adjustments to the financial statements in the subsequent year are discussed in note 50.

Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 – First Time Adoption of International Financial Reporting Standards
- IFRS 9 – Financial Instruments
- IFRS 14 – Regulatory Deferral Accounts
- IFRS 15 – Revenue from Contracts with Customers

3.3 Change in accounting policies

The accounting policies adopted in the preparation of these consolidated financial statements are same as those applied in the preparation of the consolidated financial statements of the Holding Company for the year ended June 30, 2013 except for change in accounting policy that is enumerated as follows:

3.3.1 AS 19 - Employee Benefits (Revised 2011)

In the current year, the Holding Company has applied IAS 19 Employee Benefits (as revised in 2011) and the related consequential amendments for the first time.

IAS 19 (as revised in 2011) changes the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in the fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous versions of IAS 19 and accelerate the recognition of past service costs. All actuarial gains and losses are recognised immediately through other comprehensive income in order for the net asset or liability recognised in the consolidated statement of financial position to reflect the full value of plan deficit or surplus.

Furthermore, the interest cost and expected return on plan assets used in the previous version of IAS 19 are replaced with a 'net interest' amount under IAS 19 (as revised in 2011), which is calculated by applying the discount rate to the net defined benefit liability or asset. These changes have had an impact on the amounts recognised in profit or loss and other comprehensive income in prior years. In addition, IAS 19 (as revised in 2011) introduces certain changes in the presentation of the defined benefit cost including more extensive disclosures.

Specific transitional provisions are applicable to first-time application of IAS 19 (Revised 2011). The Holding Company has applied the relevant transitional provisions and restated the comparatives on retrospective basis in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Effect of retrospective application of change in accounting policy is as follows:

3.4 Property, plant and equipment

Initial recognition

The cost of an item of property plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably.

Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Property, plant and equipment except freehold land, leasehold land and capital work in progress are stated at cost less accumulated depreciation and impairment, if any. Capital work in progress are stated at cost, less accumulated impairment loss, if any.

Freehold land and leasehold land are stated at revalued amount and surplus arising on revaluation of freehold land and leasehold land is disclosed as surplus on revaluation of fixed assets.

The cost of the property, plant and equipment includes:

- (a) its purchase price including import duties, non refundable purchase taxes after deducting trade discounts and rebates; and
- (b) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent expenditure (including normal repairs and maintenance)

Expenditure incurred to replace a component of an item of operating assets is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other expenditure (including normal repairs and maintenance) is recognised in the consolidated profit and loss account as an expense when it is incurred.

Capital work in progress

Capital work in progress is stated at cost less impairment loss, if any. The cost consists of expenditure incurred and advances made in the course of their construction and installation. Transfers are made to the relevant asset category as and when assets are available for intended use.

Depreciation

Compressors and transmission lines

Depreciation on compressors and transmission lines is charged from the dates these projects are available for intended use up to the date these are disposed off.

Other operating assets

Depreciable value of operating assets other than compressors and transmission lines is depreciated over their estimated service life from the month the assets are available for use in service till the month they are disposed off or fully depreciated, except for assets sold to employees under the service rules, in which case, depreciation is charged up to the date of disposal.

Useful lives of the assets are mentioned in note 18.1 to these financial statements.

Assets' residual values and their useful lives are reviewed and adjusted at each balance sheet date if significant and appropriate.

Intangible assets

An intangible asset is recognised as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably.

Definite life

Intangible assets are measured initially at cost and subsequently stated at cost less accumulated amortisation and impairment losses, if any.

Intangible asset with a finite useful life is amortised on a straight line basis over its useful life. Amortisation begins when the asset is available for use and ceases when the asset is derecognised. Amortisation charge is recognised in the consolidated profit and loss account.

The amortisation period for intangible assets with a finite useful life is reviewed at each year-end and is changed to reflect the useful life expected at respective year end.

Borrowing costs

Borrowing costs incurred on long term finances attributable for the construction of qualifying assets are capitalised up to the date the respective assets are available for the intended use. All other mark-up, interest and other related charges are taken to the consolidated profit and loss account.

Gains and losses on disposal

Gains and losses on disposal are taken to the consolidated profit and loss account.

Leased assets

Leased assets in terms of which the Holding Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired by way of finance lease are stated at an amount equal to the lower of their fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation and impairment loss, if any. Depreciation on assets subject to finance lease is recognised in the same manner as for owned operating assets.

3.5

Investments

Available-for-sale

Investments which are intended to be held for an indefinite period and may be sold in response to the need for liquidity or changes in interest rates are classified as available-for-sale investments. These investments are initially recognised at fair value, being the cost of the consideration given and transaction cost. After initial recognition, investments classified as available-for-sale are re-measured at fair value, determined with reference to the year-end quoted rates. Gains or losses on re-measurement of these investments are recognised in other comprehensive income and accumulated in the investment revaluation reserve until the investment is sold, collected or otherwise disposed off, or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in consolidated profit and loss account. Impairment losses recognised in consolidated profit and loss for an investment in an equity instrument classified as available-for-sale shall not be reversed through consolidated profit and loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in consolidated profit and loss, the impairment loss shall be reversed, with the amount of the reversal recognised in consolidated profit and loss account.

Held to maturity

Investments with fixed or determinable maturity where management has both the positive intent and ability to hold till maturity are classified as held-to-maturity. These investments are measured initially at its fair value plus transaction costs that are directly attributable to these investments. Subsequent to initial measurement, held to maturity investments are measured at amortised cost using effective interest method. All investments categorised under held-to-maturity are subject to annual review for impairment. Provision for impairment in value, if any, is taken to consolidated profit and loss account.

Date of recognition

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention (regular way) are recognised at the trade date. Trade date is the date on which the Holding Company commits to purchase or sell the investments.

De-recognition

All investments are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Holding Company has transferred substantially all risk and rewards of ownership.

3.6 Net investment in finance lease

Contractual arrangements, the fulfillment of which is dependent upon the use of a specific asset and whereby the right to use the underlying asset is conveyed to the customer, are classified as finance lease. Net investment in finance lease is recognised at an amount equal to the present value of the lease payments receivable, including any guaranteed residual value determined at the inception of lease. Discount rate used in the calculation of the present value of minimum lease payments is the interest rate implicit in the lease. Any recoveries from customers in respect of the service cost and contingent rent are excluded from the minimum lease payments and are recorded as recoveries of transmission and distribution cost from the lessee and gas transportation income respectively. Interest income from net investment in finance lease is recognised on a pattern reflecting a constant periodic return on the Holding Company's net investment in finance lease.

3.7 Stores, spares and loose tools

These are valued at lower of cost and net realisable value less impairment loss, if any. Cost is determined under the moving average basis. Goods-in-transit are valued at lower of cost incurred up to the consolidated balance sheet date and net realisable value less impairment loss, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

3.8 Stock-in-trade

Gas in pipelines

Stock of gas in transmission pipelines is valued at the lower of cost, determined on weighted average basis, and net realisable value.

Liquefied petroleum gas

Stocks of liquified petroleum gas in storage is valued at the lower of cost or net realisable value. Cost is recognised on weighted average basis on net realisable value which is arrived at after deducting impairment loss, if any.

Meter manufacturing division

Components (materials) are valued at lower of moving average cost and net realisable value less impairment loss, if any. Work-in-process includes the cost of components only (determined on a moving average basis). Finished goods are stated at the lower of cost determined on an average basis and net realisable value and includes appropriate portion of labor and production overheads. Components in transit are stated at cost incurred up to the consolidated balance sheet date less impairment losses, if any.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

3.9 Trade debts and other receivables

Trade debts and other receivables are recognised at fair values plus directly attributable cost, if any.

A provision for impairment of trade and other receivables is established when there is an objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. Trade debts and other receivables considered irrecoverable are written off.

3.10 Trade and other payables

Trade and other payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Group.

3.11 Mark-up bearing borrowings

Long term financing

Mark-up bearing borrowings are recognised initially at fair value which is usually the cost, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognised in the consolidated profit and loss account over the period of the borrowings. Transaction cost is amortised over the term of the loan.

Long term loans received from the Government of Sindh with interest rate lower than prevailing market interest rates for a similar instrument are initially measured at fair value. The fair value is estimated at the present value of all future cash payments discounted using the prevailing market rate of interest for a similar instrument with a similar credit rating. Difference between fair value and proceed received is treated as government grant and is amortised over the useful life of related asset constructed.

Leases

The Holding Company accounts for lease obligations by recording the asset and the corresponding liability determined on the basis of discounted value of minimum lease payments. Financial charges are recognised in the consolidated profit and loss account.

3.12 Provisions

Provisions are recognised when the Group Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

3.13 Deferred credit

Amounts received from customers before July 01, 2009 and the Government as contributions and grants for providing service connections, extension of gas mains, laying of distribution lines, etc. are deferred and recognised in the consolidated profit and loss account over the useful lives of the related assets starting from the commissioning of such assets.

Contribution from customers

Advance taken from customers on or after July 01, 2009 for laying of distribution lines is recognised in the consolidated profit and loss account when the connection to the network is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".

3.14 Taxation

Current

Provision for current taxation is based on taxable income at the current rates of taxation, after taking into account the available tax credits and rebates.

Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the balance sheet date.

The Group recognises a deferred tax asset to the extent that it is probable that the taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.15 Revenue recognition

- Revenue from gas sales is recognised on the basis of gas supplied to customers at rates periodically announced by the OGRA.
- Meter rental income is recognised monthly at specified rates for various categories of customers.
- Revenue from sale of meters, liquid petroleum gas and gas condensate is recognised on dispatch to the customers.
- Revenue from terminal and storage services are recognised on the basis of service rendered to the customers.
- Deferred credit from Government and customers before July 01, 2009 is amortised and related income is recognised in the consolidated profit and loss account over the useful lives on commissioning of the related assets.
- Deferred credit from customers after July 01, 2009 for laying of distribution lines is recognised in the consolidated profit and loss when the network connection is completed, immediately in accordance with the requirements of IFRIC-18 "Transfer of Assets from Customers".
- Income from new service connections is recognised in consolidated profit and loss account immediately on commissioning of related assets.
- Dividend income on equity investments is recognised when right to receive the payment is established.
- Return on term deposits and royalty income are recognised on time proportion basis by reference to the principal outstanding at the effective interest rate.
- Late payment surcharge is recognised from the date the billed amount is overdue.

3.16 Impairment

Financial assets

Financial assets are assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Non-financial assets

The carrying amounts of non-financial assets other than inventories and deferred tax assets, are assessed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognised, as an expense in the consolidated profit and loss account, for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Value in use is ascertained through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risks specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.17 Staff retirement benefits

The Holding Company operates the following retirement schemes for its employees:

- Approved funded pension and gratuity schemes for all employees.
Contributions to the schemes are made on the basis of actuarial valuations that is carried out annually under the projected unit credit method. Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income.

Past service cost is recognised in the consolidated profit and loss account as an expense on a straight line basis over the average period until the benefits become vested. To the extent that the benefits are already vested, the expense is recognised immediately in the consolidated profit and loss account.

- Unfunded free medical and gas supply facility schemes for its executive employees.

Liability under these schemes is recognised in the period in which the benefit is earned based on the actuarial valuations that is carried out annually under the projected unit credit method. The medical and free gas supply facilities have been discontinued for employees retiring after December 31, 2000.

Actuarial gains and losses arising from the actuarial valuation are recognized immediately and presented in statement of comprehensive income. Gas development surcharge with respect to actuarial gains / losses are recognized in other comprehensive income, instead of Consolidated profit and loss account.

- Approved contributory provident funds for all employees (defined contribution scheme).

The Holding Company operates a recognised provident fund for all its employees. Equal contributions are made, both by the Holding Company and the employees, to the fund at the rate of 7.5% of basic salary in the case of executive employees and 8.33% of basic salary and adhoc relief cost of living allowance in the case of non executive employees and the same is charged to the consolidated profit and loss account.

- A non-contributory benevolent fund, under which only the employees contribute to the fund.
- SSGC LPG operates an unfunded fraternity scheme for its permanent and contractual employees who served for 1 year. The Company's net obligation in respect of unfunded gratuity scheme is determined annually by a qualified actuary using the Projected Unit Credit method.
- Remeasurement component, which is the net of actuarial gains and losses is recognised immediately in other comprehensive income whereas service cost and net interest income / expense are charged to Consolidated profit and loss account.

3.18 Compensated absences

The liability for accumulated compensated absences of employees is recognised based on actuarial valuation in the period in which employees render services that increase their entitlement to future compensated absences.

3.19 Foreign currency translation

Transactions in foreign currencies are translated into Pak rupees at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pak rupees at the rates of exchange ruling at the balance sheet date. Exchange gains and losses are taken to the consolidated profit and loss account.

3.20 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value and subsequently at fair value or amortised cost as the case may be. Financial assets are derecognised at the time when the Group loses control of the contractual rights that comprise the financial asset. Financial liabilities are derecognised at the time when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled or expired. Any gains or losses on derecognition of financial assets and financial liabilities are taken to the consolidated profit and loss account immediately.

3.21 Derivative financial instruments

Derivative financial instruments if any are recognised initially at cost. Subsequent to initial recognition, the derivative financial instruments are stated at fair value. Changes in fair value of derivative financial instruments are recognised in the consolidated profit and loss account, along with any changes in the carrying value of the hedged liability. Derivative financial instruments are carried as assets when fair value is positive and as liabilities when fair value is negative.

3.22 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the Consolidated financial statements only when there is a legally enforceable right to set-off the recognised amount and the Group intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

3.23 Segment reporting

Segment reporting is based on the operating (business) segments of the Group. An operating segment is an identifiable component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, income tax assets, liabilities and related income and expenditure. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment.

The business segments are engaged in providing products or services which are subject to risks and rewards which differ from the risk and rewards of other segments. Segments reported are as follows:

Gas transmission and distribution

Gas transmission and distribution segment is engaged in transmission and distribution of natural gas and construction contracts for laying of pipelines in Sindh and Balochistan.

Meter manufacturing

Meter manufacturing segment is engaged in manufacture and sale of gas meters.

3.24 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits in banks, short term running finance under mark-up arrangement availed by the Group and short term liquid investments that are readily convertible to known amounts of cash.

3.25 Earnings per share

Earnings per share is calculated by dividing the profit after tax for the year by the weighted average number of shares outstanding during the year.

3.26 Dividend and reserves appropriation

Dividend is recognised as a liability in the financial statements in the period in which it is declared. Movement in reserves is recognised in the year in which it is approved.

15.3 This amount was received by the Holding Company from Pak Arab Refinery Company Limited (PARCO) in accordance with an agreement dated October 12, 1988. It represents consideration for 50% share of PARCO in the Indus right bank pipeline common right of way and is the full settlement of PARCO's total liability for its share, irrespective of the final amount of compensation payable to the land owners by the Holding Company. The final liability of the Holding Company has not been estimated, as the amount of compensation due to land owners has not been determined by the Authorities. Accordingly, the amount received from PARCO has been classified as an advance.

15.4 Gas Infrastructure Development (GID) Cess has been levied since December 15, 2011 and is chargeable from industrial gas customers at different rates as prescribed by the Federal Government through OGRA notification. GID Cess is collected and deposited with the Ministry of Petroleum and Natural Resources (MPNR) in a manner prescribed by the Federal Government.

On June 13, 2013, the Honorable Peshawar High Court declared the levy, imposition and recovery of the Cess unconstitutional with the direction to refund the "Cess" so far collected. Honorable Supreme Court of Pakistan examined the case and in its decision dated August 22, 2014 concluded that GID Cess is a fee and not a tax and on either count the "Cess" could not have been introduced through a money bill under Article 73 of the Constitution and the same was therefore not validly levied in accordance with the Constitution. However, on September 25, 2014, the President of Pakistan had passed GID Cess Ordinance 2014, which is applicable in whole Pakistan and has to be complied by all parties.

On September 29, 2014, the Honorable Sindh High Court gave a stay order to various parties against the promulgation of Presidential order on September 25, 2014.

On May 22, 2015, the GID Cess Act is passed by Parliament applicable on all parties. Following the imposition of the said Act, many customers filed a petition in Honorable Sindh High Court and obtained stay order against Act passed by the Parliament. The Holding Company has obtained legal opinion, which states that management has to comply with the stay order of Honorable Sindh High Court.

The Holding Company is a collecting agent and depositing GID Cess to the Ministry of Petroleum and Natural Resources (MPNR) and the Holding Company will refund to the customers once it will be received from Ministry of Petroleum and Natural Resources (MPNR).

15.5 This includes Rs. 101.725 million (2013: Rs. 102.459 million) on account of amount payable to disconnected customers for gas supply deposits.

17.1.2	Jamshoro Power Company Limited [(JPCL) WAPDA] has lodged a claim against the Holding Company amounting to Rs. 23,000 million (2013: Rs. 765.024 million) for short supply of gas under the provisions of an agreement dated April 10, 1995 between the Holding Company and JPCL. As at June 30, 2015 this amount has increased to Rs. 35,182 million. Management has not made provision against the said amount in the books of the Holding Company as management is confident that ultimately this claim would not be payable. Furthermore, the Holding Company is in the process of appointing arbitrator to resolve the matter in accordance with Arbitration Act, 1940.		
17.1.3	JPCL has raised another claim of Rs. 5.793 million (2013: Rs. 5.793 million) for the alleged low Gas Calorific Value (GCV) measurement for the period from January 2002 to December 2002 and for the month of February 2003 as compared to the actual GCV billed by the Holding Company. Management has not made provision against the said amount in the books of the Holding Company as management is confident that ultimately this claim would not be payable.		

- 17.1.4** Habibullah Coastal Power (Private) Company (HCPC) has claimed Rs. 1,899.96 million (2013: Rs 1,237.32 million) from the Holding Company for short supply of gas under the provisions of an agreement dated March 31, 1996 between the Holding Company and HCPC. As at June 30, 2015, this amount has increased to Rs. 2,382.76 million. Management has not made provision against the said amount as management is confident that ultimately this claim would not be payable. Further subsequent to the year end, HCPC has invoked arbitration as per article of Gas Sale Agreement.
- 17.1.5** Demand finance facilities have been given to the Holding Company's employees by certain banks for purchase of vehicles against the Holding Company's guarantee and hypothecation of the Holding Company's present and future stocks, book debts, receivables and the Holding Company's investment in shares having a face value of Rs. 0.5 million (2013: Rs. 0.5 million). Loan outstanding at the year end was Rs. 3.130 million (2013: Rs. 2.233 million).
- 17.1.6** Previously the Income Tax Appellate Tribunal (ITAT) had decided an Appeal in favor of Income Tax Department on the issue of capital gain made on disposal of LPG business in the financial year 2001 resulting in tax impact of Rs. 143 million. Management has filed an appeal before Honorable High Court. The management is of the view that sale of LPG business being in nature of slump transaction was not chargeable to tax under the Income Tax Ordinance, 2001. Accordingly, no provision regarding the said claim has been made in these consolidated financial statements as the management, based on its legal advisor's opinion, is confident that the matter would be resolved in favor of the Holding Company.
- 17.1.7** Income tax authorities have passed an amended assessment order for the tax year 2005 resulting in additional tax liability amounting to Rs. 103.745 million, which has been adjusted from the sales tax refund of the Holding Company. The Holding Company preferred appeal in this case. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.8** The Additional Collector (Adjudication) Sales Tax and Federal Excise passed an order against the Holding Company with a demand of Rs. 311.397 million for the years 2002-03, 2003-04 and 2005-06 in respect of sales tax on disposal of fixed assets, incorrect adjustment against exempt supplies, non-payment of sales tax on transportation charges, late payment surcharge and service connection charges along with default surcharge and penalty. The Income Tax Appellate Tribunal has set-aside the case and remanded back to Tax Department for hearing the case afresh. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.9** Income tax authorities have issued notices under section 122 / 177 of the Income Tax Ordinance, 2001 for the tax years 2008, 2009, 2010 and 2011, disallowing certain expenses. The Holding Company has filed petition in the High Court of Sindh to seek the authoritative interpretation of the Honorable Court, in respect of disallowance of interest on delayed payment of gas bills on account of failure to deduct withholding tax under section 151(1)(d) read with section 158 of the Income Tax Ordinance, 2001 and disallowance of depreciation on fixed assets held under musharka arrangement. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.10** The Deputy Commissioner Inland Revenue passed an order for the financial year 2009-10 against the Holding Company with a demand of Rs. 1,635 million, along with default surcharge and penalty on account of disallowance of input sales tax on line losses / Unaccounted for Gas (UFG) along with other observations. Upon appeal, the Commissioner (Appeals) has reduced the demand to Rs. 230 million plus default surcharge. The Holding Company has filed appeal with Appellate Tribunal Inland Revenue on issues decided against the Holding Company by Commissioner (Appeals) whereas the Tax Department has also filed appeal before Appellate Tribunal on issues decided in the Holding Company's favor. Further, issue of allowability of input sales tax on UFG was also raised by Tax Department for financial year 2007-08.
- On filing of suit by the Holding Company, the Honourable High Court of Sindh has stayed demand for FY 2009-10 and stayed proceedings for FY 2007-08. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.11** The Additional Commissioner Inland Revenue passed an order against the Holding Company with a demand of Rs. 1,725 million in respect of disallowance of tax depreciation on additions to fixed assets and exchange loss in income tax audit for tax year 2011. On filing of suit by the Holding Company, the Honourable High Court of Sindh has stayed the demand. The Commissioner (Appeals) has decided the issue of exchange loss in Holding Company's favour while remanding back the issue of tax depreciation to tax department for hearing the case afresh. No provision has been made in these financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.12** The Additional Collector Inland Revenue passed an order against the Holding Company with demand of Rs. 1,314 million along with default surcharge. The principal tax demand was recovered by the authority. However, the Holding Company has filed a reference with FBR for waiver of default surcharge and penalty, which is pending. The Honorable High Court of Sindh has also stayed the recovery of the additional tax and penalties. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.

- 17.1.13** The Deputy Commissioner Inland Revenue (DCIR) passed an order against the Holding Company with a demand of Rs. 432 million. The demand is in respect of disallowance of exchange loss, addition on account of gain on disposal of fixed assets, interest free loans to employees and addition under section 34(5) of the Ordinance. Further the DCIR has not allowed credit for taxes paid, refund adjustment relating to tax year 2009 and adjustment of carry forward of minimum tax for financial years 2005-06, 2007-08 and 2008-09 claimed in the Income Tax Return for the financial year 2009-10. The Commissioner (Appeals) has maintained the disallowances except for interest free loans and directed tax department that credit of taxes paid, and minimum tax adjustments for FY 2005-2006 and FY 2008-09 be allowed after verification. The Commissioner (Appeals) has not given decision on addition under section 34(5) and refund adjustment. Against the Commissioner (Appeals) order, the Holding Company is in the process of filing appeal before Appellate Tribunal Inland Revenue. No provision has been made in these financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.14** Income tax authorities have issued show cause notice to the Holding Company for recovery of additional tax of Rs. 422 million for late deposit of withholding income tax on payment to permanent establishments of non-resident Exploration and Production Companies for the year 2013. The Holding Company has filed an appeal in the Honorable High Court of Sindh, which has stayed the recovery proceedings. No provision has been made in these consolidated financial statements as the Holding Company and its legal counsel is confident that the outcome of the case will be in favor of the Holding Company.
- 17.1.15** The Holding Company is subject to various other claims totalling Rs. 873 million by income tax and sales tax authorities. The management is confident that ultimately these claims would not be payable.
- 17.1.16** One of the gas supplier has claimed excess amount of late payment surcharge on gas bills payable by the Holding Company. Management is of the view that amount recorded by the Holding Company is adequate and believe that no further provision is required to be recorded in these financial statements.
- 17.1.17** The Holding Company is party to number of cases in respect of billing disputes and related matters. Based on the opinion of the Holding Company's legal department, the management is confident that the outcome of these cases will be in favor of the Holding Company. Accordingly, no provision has been made in respect of those cases in these financial statements.

The Holding Company entered into agreements with Oil and Gas Development Company Limited (OGDCL), Sui Northern Gas Pipelines Limited and ENI Pakistan Limited to use the Holding Company's transmission pipelines for distribution of gas. The terms of the agreements entered into are for a substantial portion of the useful economic lives of the related assets. On June 30, 2013, agreement with OGDCL expired and the management is negotiating for renewal of agreement.

The interest rates used to discount future minimum lease payments under the leases are based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in finance leases. The effective interest rate ranges from 11.4% to 34.6% per annum.

26.1 As K-Electric Limited (KE) has been defaulting and not making payment of Late Payment Surcharge (LPS) and the Holding Company filed a suit in the High Court of Sindh in November 2012, for recovery of its aggregate claim, the Holding Company effective from July 01, 2012 decided to account for LPS from KE on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 41,302 million (2013: Rs. 44,303 million) as at June 30, 2014 receivables from KE. Out of this, Rs. 37,450 million (2013: Rs. 40,337 million) as at June 30, 2014 are overdue. However, the aggregate legal claim of the Holding Company from KE amounts to Rs. 55,458 million (2013: Rs. 50,935 million). This amount has been arrived at as per the practice of the Holding Company to charge LPS to customers who do not make timely payments.

Considering that the Holding Company has valid legal claim for recovery of LPS together with outstanding principal amount, the Holding Company filed the aforementioned suit against KE amounting to Rs. 55,705 million. The above suit has been filed based on the following grounds:

- As per the agreement dated June 30, 2009 which was entered between the Holding Company and KE for making outstanding payment in 18 installments, the Holding Company was entitled to charge LPS on outstanding principal amount at rate of:
 - a. Highest OD rate being paid by SSGC or;
 - b. Highest rate at which interest is payable on gas producer bills.
- As per the above agreement and as per the audited financial statements of KE as at June 30, 2010, KE, itself, acknowledged and recognized LPS till June 30, 2010, in its books of account which confirm management's assertion that the Holding Company has legal claim over KE for charging of LPS.

KE also filed case against the Holding Company in the High Court of Sindh for recovery of damages / losses of Rs. 61,614 million as KE claimed that the Holding Company had not supplied the committed quantity of natural gas to KE. However, the legal counsel of the Holding Company is of the view that claim of KE is not valid and is not as per terms of the agreement where it was agreed that the Holding Company would make excess supply of natural gas if KE would make timely payments. As KE defaulted on many instances in making payments on due dates, the Holding Company was not bound to supply excess quantity of natural gas as per terms of the agreement.

Management has consulted with its legal counsel, who is of the view that the Holding Company has a strong case over recovery of the outstanding amount due to which management considers outstanding balance good and recoverable. The legal counsel also viewed that the Holding Company has a good claim over LPS on outstanding balance, but considering that the matter is in dispute, as discussed above, the Holding Company has decided to recognize LPS from KE when either such claimed amounts are recovered or when these are decreed and their recovery is assured.

26.2 As Pakistan Steel Mills Corporation (Private) Limited (PSML) has been defaulting and not making payment of Late Payment Surcharge (LPS), the Holding Company effective from July 01, 2012 decided to account for LPS from PSML on receipt basis as per International Accounting Standards 18 "Revenue" based on opinions from firms of Chartered Accountants.

In accordance with the revised accounting treatment, the trade debts includes Rs. 16,944 million (2013: Rs. 12,680 million) including overdue balance of Rs. 16,488 million (2013: Rs. 12,232 million) receivable from PSML. However, the aggregate legal claim of the Holding Company from PSML amounts to Rs. 24,443 million (2013: Rs. 15,507 million). This amount has been arrived at as per the practice of the Holding Company to charge LPS to customers who do not make timely payments.

Although PSML's financial position is adverse, and it has no capacity to repay its obligations on its own, management is confident that the entire amount will be ultimately recovered because PSML is a government-owned entity and is continuously being supported by the Government of Pakistan.

30.1.1 This includes Rs. 390 million (2013: Rs. 390 million) recoverable from the Government of Pakistan (GoP) on account of remission of gas receivables from people of Ziarat under instructions from GoP. Although, management is confident that this amount is fully recoverable, as a matter of abundant caution full provision has been made in these financial statements.

- 30.12** In the current year, the Holding Company adopted the revised IAS 19 Employee Benefit (as revised in 2011) and the related consequential amendments. The amendments require recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the 'corridor approach' permitted under the previous version of IAS 19.

As a result of adoption of the revised standard, management has recognized actuarial gains and losses which previously were unrecognized / deferred by the Holding Company as such treatment was allowed by the previous version of IAS 19. The financial impacts due to recognition of actuarial losses were Rs. 1,392 million, Rs. 267 million, and Rs. 690 million, for the years ended June 30, 2014, 2013 and opening retained earnings respectively. The comparative amounts for the previous years, i.e. June 30, 2013 and 2012 have been restated to incorporate impact of actuarial losses related to these years. The Holding Company has also claimed these losses in determining revenue requirement of the Holding Company for the year ended June 30, 2014; having total impact of Rs. 2,349 million.

The Holding Company has recognized such Gas development surcharge in other comprehensive income for the year ended June 30, 2014 instead of profit and loss account on the premise that actuarial losses have also been recognized in other comprehensive income.

- 30.2** This includes Rs. 12,211 million (2013: Rs. 3,976 million) receivable under the uniform cost of gas agreement with Sui Northern Gas Pipelines Limited and lease rental receivable and recoverable against lease service cost and contingent rent amounting to Rs. 144 million (2013: Rs. 109 million).

- 30.4** Sales tax refunds arise due to uniform purchase price adjustment with SNGPL and zero rating of sales tax on gas sales for various industries. Sales Tax refunds are processed through FBR's Sales Tax Automated Refund Repository (STARR) system. Due to several snags in the functioning of STARR, valid input sales tax claims of the Holding Company are deferred. Realizing the problems of STARR, in August 2010, dispensation from processing of sales tax refunds through the STARR system was allowed by FBR and substantial refunds were released after issuance of this letter under corporate guarantee (subject to post refund audit). However, above said dispensation was also withdrawn by FBR in May 2012. After withdrawal of said dispensation, the deferred refunds are issued to the Holding Company on the basis of manual verification of documents (third party vendor sales tax returns) by tax authorities.

- 30.6** During the year, the Supreme Court of Pakistan passed an order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 - P of 2009, whereby the Implementation Agreement of Badin gas field dated August 12, 2003 signed between the Holding Company and Jamshoro Joint Venture Limited was declared void from the date of its inception. The Court constituted a committee to calculate royalty payments (on the LPG extracted to date) on the basis of the Saudi Aramco reference price plus freight charges instead of the "Reference Price" for the full period during which the Implementation Agreement had been operational. However, the freight cost is yet to be finalised for which the Court has appointed an Advocate Supreme Court to determine the matter which is still pending.

- 30.7** This amount comprises of receivable in respect of royalty income, sale of liquid petroleum gas, Federal Excise Duty and Sindh Sales Tax on Franchise Services amounting to Rs. 7,474 million (2013: Rs. 2,247 million), Rs. 5,160 million (2013: Rs. 312 million), Rs. 1,070 million (2013: Rs. 896 million) and Rs. 646 million (2013: Rs. 501 million) respectively.

As at year end, amount payable to JJVL is Rs. 3,298 million (2013: Rs. 255 million) as disclosed in note 15 to these financial statements.

33.1.1 Under section 21 of the Oil and Gas Regulatory Authority Ordinance, 2002, the Government of Pakistan has issued a policy guideline to ensure the uniformity of gas prices for customers throughout the country. Accordingly, under this policy guideline and pursuant to an agreement between the Holding Company and Sui Northern Gas Pipelines Limited effective from July 1, 2003, the cost of gas purchased is being worked out by both the companies on an overall average basis in such a manner that input of gas for both companies become uniform. Under this agreement, the Company with lower weighted average cost of gas is required to pay to the other Company so that the overall weighted average rate of well head gas price of both the companies is the same.

33.1.2 UFG in parlance of a gas distribution and transmission Holding Company means the difference between gas purchased in volume, gas billed in volume and gas used internally by the Holding Company for its operations. UFG results from a number of factors which inter alia comprises of gas leakages both above ground and underground, measurement errors, meter tampering, meter getting slow with time and use, illegal connections and such other connections which bypass the meters installed. While it is almost impossible to estimate the amount of gas theft in UFG, it is estimated that it is a significant percentage of the total UFG.

The Holding Company is taking a number of measures to control and reduce UFG. These are elaborated below:

- Vigilance for identification of theft cases, illegal networks and necessary remedial measures thereafter.
- Measurement errors identification and rectification.
- Above ground and underground leakage identification and rectification.

The Holding Company's actions are likely to be more effective with the co-operation of various stakeholders and law enforcement agencies.

Actual UFG for the year ended June 30, 2014 is 13.82 % (2013: 8.43%). OGRA has restricted UFG to 7% due to stay order granted by the Honorable High Court of Sindh.

36.2 The Holding Company entered into Implementation Agreement with Jamshoro Joint Venture Limited (JJVL) and granted 'exclusive rights' to process and extract Liquefied Petroleum Gas (LPG) and Natural Gas Liquids (NGL) from Composite Associated Gas Mixture (CAGM) made available at JJVL plant.

Gas Shrinkage charged to JJVL means the amount payable by JJVL to the Holding Company as compensation for loss in volume and gross calorific value of CAGM due to recovery of LPG and NGL at the JJVL plant. This is in fact consideration for loss in volume of gas and its gross calorific value between Tie in Point and delivery point.

This amount was being recovered under the Implementation Agreement which has been declared void by the Honourable Supreme Court of Pakistan vide its Order dated December 04, 2013 with respect to the Constitution Petition No. 5 of 2011 and Human Rights Case No.15744 - P of 2009. Thus no shrinkage has been charged after Supreme Court Order.

Significant actuarial assumptions

Significant assumptions used for the valuation of above schemes are as follows:

	Executives and Non-executives	
	2014 (%)	2013 (%)
Discount rate	13.25	11.00
Expected rate of increase in salary level	11.25	9.00
Increase in pension	6.25	4.00

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected rate of salary and pension increase. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

	Change in assumption		Impact of change in assumptions in present value of defined benefit obligation			
			Executives		Non-executives	
			Pension	Gratuity	Pension	Gratuity
----- (Rupees in '000) -----						
Discount rate	1%	Increase in	(42,047)	(219,412)	(1,057)	(243,919)

Pension increase rate	1%		(35,362)	-	(1,132)	-

In presenting the above sensitivity analysis, the present value of the define benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the consolidated balance sheet.

The expected pension and gratuity expense for the next one year from July 01, 2014 is as follows:

	Executives		Non-executives	
	Pension	Gratuity	Pension	Gratuity

47. FINANCIAL RISK MANAGEMENT

The objective of Group's overall financial risk management is to minimize earnings volatility and provide maximum return to shareholders. The Board of Directors of the Holding Company has overall responsibility for the establishment and oversight of the Group's risk management frame work and policies.

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

47.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss without taking into account the fair value of any collateral. Credit risk arises from trade debts, net investment in finance lease, loans and advances, trade deposits, bank balances, interest accrued and other receivables. To reduce the exposure toward the credit risk, comprehensive customer category wise credit limits and terms have been established. In case of industrial and commercial customers gas supply deposits equivalent of three months estimated gas consumption and deposit from domestic customers as per rates notified by OGRA are taken to reduce credit exposure. The Holding Company continuously monitors the credit given to customers and interest accrued thereon and has established a dedicated recovery department for follow-up, recovery or disconnection of gas supply as the case may be. Loans and advances given to employees are secured against retirement benefits of the employees and title deed of properties of employees. Balances are maintained with banks of sound credit rating. The Holding Company attempts to control credit risk in respect of other receivables by monitoring credit exposures of counterparties.

The maximum exposure to credit risk before any credit enhancement at year end is the carrying amount of the financial assets as set out below:

	2014	2013
	(Rupees in '000)	
Financial assets - loans and receivables		
Trade debts	78,911,633	76,367,960
Net investment in finance lease	692,877	802,950
Loans and advances	449,373	262,007
Deposits	10,834	19,524
Bank balances	1,602,642	934,259
Interest accrued	5,623,489	5,027,361
Other receivables	24,817,959	6,240,024
	<u>112,108,807</u>	<u>89,654,085</u>

47.1.1 Collateral and other credit enhancements obtained

Security against supply of gas to industrial and commercial customers is taken on the basis of average three months, gas consumption estimated at the time of connection in form of cash deposits (gas supply deposits) / bank guarantee / irrevocable letter of credit. Security against supply of gas to domestic customers are obtained at rates notified by the OGRA. These collaterals are adjusted / called following on disconnection of gas supply. Details of security held at year end is as follows:

Cash deposits	8,305,883	5,211,695
Bank guarantee / irrevocable letter of credit	24,637,936	21,229,159

47.1.2 Credit Quality

The Group monitors the credit quality of its financial assets with reference to historical performance of such assets and where available external credit ratings. The carrying values of all financial assets which are neither past due nor impaired are given in the note 47.1.3 below:

The credit quality of the Group's major bank accounts is assessed with reference to external credit ratings which are as follows:

47.1.3 Past due and impaired financial assets

Industrial and commercial customers

The age analysis of trade debt balances relating to industrial and commercial customers at year end is as follows:

	2014		2013	
	Gross carrying amount	Impairment amount	Gross carrying amount	Impairment amount
------(Rupees in '000)-----				
Not due balances	16,745,784	-	15,391,500	-
Past due but not impaired	55,506,792	-	54,183,578	-

Disconnected customers	612,918	574,015	534,157	528,941
Total	76,667,097	3,252,924	73,186,184	3,605,890

Past due but not impaired balances include aggregate overdue balances of K-Electric, PSML and WAPDA amounting to Rs. 54,609 million and are subject to inter corporate circular debt of government entities and K-Electric.

The Holding Company has collateral / security against industrial and commercial customers amounting to Rs. 25,876 million (2013: Rs. 25,081 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due. In case of past due balances the Holding Company starts recovery process through recovery department and where the amount is in excess of collateral and is not recovered by recovery department, then disconnection of meter (disconnected customers) is considered. Receivables which are past due and against which recoveries are not made or which are disconnected are considered as impaired debts.

Domestic customers

The age analysis of trade debt balances relating to domestic customers at year end is as follows:

	2014		2013	
	Gross carrying amount	Impairment amount	Gross carrying amount	Impairment amount
------(Rupees in '000)-----				
Not due balances	1,470,478	-	2,280,706	-

	6,035,388	3,376,699	2,486,336	1,867,379
Disconnected customers	2,940,753	2,583,657	2,494,712	2,122,689
Total	11,457,816	5,960,356	10,777,734	3,990,068

The Holding Company has collateral / security against domestic customers amounting to Rs. 4,068 million (2013: Rs. 1,360 million) and replenishes such collateral based on gas consumption and requirement of the customers. When recovery is not made within one month, such customers balances are generally considered past due.

Interest accrued

As at June 30, 2014 interest accrued was Rs. 5,623 million (2013: Rs. 5,027 million). Interest is mainly accrued on customer balances which are past due. Interest on past due balances includes aggregate over due balances of WAPDA and SNGPL amounting to Rs. 5,428 million (2013: 4,981 million), recovery of which is subject to inter corporate circular debt of Government entities.

Other receivables

As at June 30, 2014 other receivable financial assets amounted to Rs. 24,818 million (2013: Rs. 6,240 million). Past due other receivables amounting to Rs. 10,236 million (2013: Rs. 3,681 million) include over due balances of SNGPL amounting to Rs. 4,987 (2013: Rs. Nil) and JJVL amounting to Rs. 4,128 million (2013: Rs. 3,445 million).

47.1.4 Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Holding Company's performance to developments affecting a particular industry. Concentration of credit risk is determined with references to the individual customers / counter parties, type as well as geographical distribution of customers / counter parties. Concentration of credit risk in financial assets of the Holding Company is as follows:

Trade debts

Customer category wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2013
	(Rupees in '000)	
Power generation companies	43,216,317	45,904,212
Cement industries	31,970	49,722
Fertilizer and steel industries	17,812,032	13,353,847
Other industries	10,991,646	9,035,073
Total industrial customers	72,051,965	68,342,854
Commercial customers	1,362,208	1,237,440
Domestic customers	5,497,460	6,787,666
	<u>78,911,633</u>	<u>76,367,960</u>

At year end the Holding Company's most significant receivable balances were K-Electric, PSML and WAPDA which amounted to Rs. 41,302 million (2013: Rs. 44,303 million), Rs. 16,944 million (2013: Rs. 12,680 million) and Rs. 1,749 million (2013: Rs. 1,495 million) respectively. These balances have aggregated due to inter corporate circular debt.

Geographical region wise concentration of credit risk in respect of trade debts at year end is as follows:

	2014	2013
	(Rupees in '000)	
Karachi	69,889,612	68,124,176
Sindh (excluding Karachi)	6,635,627	6,094,046
Balochistan	2,386,394	2,149,738
	<u>78,911,633</u>	<u>76,367,960</u>

Net investment in finance lease

The Holding Company's most significant investment in finance lease amounted to Rs. 561 million (2013: Rs. 627 million) in respect of SNGPL.

Interest accrued

Most significant counter parties of the Holding Company in respect of interest accrued are disclosed in note 29 to these financial statements.

Other receivables

Most significant other receivables of the Holding Company are in respect of lease rental, lease service cost, contingent rent and uniform cost of gas agreement with SNGPL as disclosed in note 30.2 to these financial statements. These balances are subject to inter circular corporate debt.

47.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Group could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Group's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Due to nature of the business, the Group maintains flexibility in funding by maintaining committed credit lines available. The Group's liquidity management involves projecting cash flows and considering the level of liquid assets necessary to fulfill its obligation, monitoring balance sheet liquidity ratios against internal and external requirements and maintaining debt financing plans.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date.

	2014					
	Carrying amount	Contractual cash flows	Not later than six months	Later than six months but not later than 1 Year	Later than one year but not later than 2 Year	Later than 2 Year

	144,249,172	(158,405,949)	(113,027,916)	(3,351,218)	(6,277,916)	(35,748,899)

The contractual cash flows relating to the above financial liabilities have been determined on the basis of latest available market rates. The rates of mark-up have been disclosed in notes 7 and 8 to these financial statements. Contractual cash flows of the long term deposits are determined on the assumption that adjusted / refund of these deposits will not be required before expiry of 40 years from balance sheet date.

47.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The market risk comprises of currency risk, interest rate risk and other price risk (equity price risk).

47.3.1 Currency risk

Foreign currency risk is the risk that the value of financial asset or a liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered into foreign currencies.

The Holding Company is exposed to currency risk on creditors for gas that are denominated in a currency other than functional currency of the Holding Company. The currency in which these transactions primarily are denominated is US Dollars. The Holding Company's exposure to foreign currency risk is as follows:

	2014		2013	
	Rupees in '000	US Dollars in '000	Rupees in '000	US Dollars in '000
Creditors for gas	25,332,313	256,530	6,880,079	69,636
Estimated forecast gas purchases	142,280,012	1,382,702	178,776,736	1,844,961
Net exposure	167,612,325	1,639,232	185,656,815	1,914,597

Above net exposure is payable by the Holding Company in Rupees at the rate on which these are settled by the Holding Company. Currently, the Holding Company does not obtain forward cover against the gross exposure as exchange loss / gain on purchases of gas and supplies is recovered from / paid to Government of Pakistan as part of guaranteed return.

The following significant exchange rates applied during the year:

	Average rates		Balance sheet date rate	
	2014	2013	2014	2013
	(Rupees)		(Rupees)	
US Dollars	102.90	96.90	98.75	98.80

Sensitivity analysis

A ten percent strengthening / (weakening) of the Rupee against US Dollar at June 30, 2014 would have (decreased) / increased trade creditors by Rs. 2,532 million (2013: Rs. 688 million). There is no effect of strengthening / (weakening) of US dollar on consolidated equity and consolidated profit and loss account of the Holding Company as exchange loss / gain on purchases of gas and store and supplies is recovered from / paid to Government of Pakistan as part of 17% guaranteed return. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from short and long term borrowings from banks. At the balance sheet date the interest rate profile of the Group's interest-bearing financial instruments were as follows:

	2014	2013
	(Rupees in '000)	
Fixed rate instruments		
Financial assets		
Net investment in finance lease	692,877	802,950
Loan and advances	3,375	4,650
Trade debts	28,195,466	22,171,360
Cash at banks	1,268,585	750,722
	<u>30,160,303</u>	<u>23,729,682</u>
Financial liabilities		
Long term deposits	(4,238,095)	(3,851,725)
Government of Sindh loan	(5,756,859)	(6,055,042)
Trade and other payables	(20,000,606)	(16,614,116)
	<u>(29,995,560)</u>	<u>(26,520,883)</u>
	<u>164,743</u>	<u>(2,791,201)</u>
Variable rate instruments		
Financial assets		
Trade debts	37,642,158	40,529,553
Other receivables	26,139,898	6,304,459
	<u>63,782,056</u>	<u>46,834,012</u>
Financial liabilities		
Long term loan except Government of Sindh loan	(19,149,307)	(22,313,215)
Short term borrowings	(3,141,237)	(4,017,953)
Trade and other payables	(94,115,919)	(63,690,733)
	<u>(116,406,463)</u>	<u>(90,021,901)</u>
	<u>(52,624,407)</u>	<u>(43,187,889)</u>

Fixed rate instrument bear fixed interest rate while all other borrowings bear variable interest rate and are indexed to KIBOR. Borrowing is generally determined on the basis of business needs. The Group analysis its interest rate exposure on a regular basis by monitoring existing facilities against prevailing market interest rates and taking into account various other financing options available.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit and loss. Therefore, a change in interest rates at the reporting date would not affect consolidated profit and loss account and the consolidated equity of the Group.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have net increased or (net decreased) the consolidated profit or loss of the Group as at June 30, 2014 by Rs. 509 million (2013: Rs. 415 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2013.

47.3.3 Equity price risk

Equity price risk is the risk of changes in the fair value of equity securities as the result of changes in the levels of KSE-100 Index and the value of individual shares. The equity price risk exposure arises from the Group's investments in listed equity securities. This arises from investments held by the Group for which prices in the future are uncertain. The fair value of listed equity investments of the Group that are exposed to price risk as at June 30, 2014 is Rs. 131.290 million (2013: Rs. 89.684 million).

A ten percent increase / decrease in the prices of listed equity securities of the Group at the reporting date would have increased or (decreased) long term investment and consolidated equity by Rs. 13.129 million (2013: Rs. 8.968 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2013.

47.4 Fair value of financial assets and liabilities

The carrying values of all financial instruments reflected in the financial statements approximate their fair values except for investment in unquoted companies which are reflected at cost less impairment losses.

47.4.1 Fair value hierarchy

The table below analysis financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	2014			Total
	Level 1	Level 2 (Rupees in '000)	Level 3	
Available-for-sale financials assets				
Quoted equity securities	131,290	-	-	131,290

Quoted equity securities	89,684	-	-	89,684
	89,684	-	-	89,684

There have been no transfers during the year (2013: no transfers in either direction).

47.5 Capital risk management

The objective of the Group when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders, benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its businesses.

The Group manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend paid to the shareholders or issue new shares.

The Group is not subject to externally imposed regulatory capital requirements.

50. ACCOUNTING ESTIMATES AND JUDGMENTS

50.1 Income tax

The Group takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Group's view differs from the view taken by the income tax department at the assessment stage and where the Group considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

50.2 Staff retirement and other service benefit obligations

Certain actuarial assumptions have been adopted as disclosed in note 40 to these financial statements for valuation of these obligations and fair value of plan assets. Any changes in these assumptions in future years might affect unrecognised gains and losses in those years.

50.3 Property, plant and equipment

In accordance with the accounting policy, the management carries out an annual assessment of depreciable amount and useful lives of property, plant and equipment. Further, the Group reviews the value of the assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

50.4 Trade debts and other receivables

The Group reviews its receivable against provision required there against on an ongoing basis and appropriate provision is made against outstanding receivable based on systematic basis as approved by the Board of Directors.

50.5 Stores, spares and loose tools

The management continuously reviews its inventory for existence of any items which may have become obsolete. The estimates against slow moving and obsolete items are made based on systematic basis as approved by the Board of Directors.

50.6 Fair value of investments

Management has determined fair value of certain investments by using quotations from active market of the financial instruments.

50.7 Recognition of income from sale of Natural Gas Liquid (NGL) and Liquefied Petroleum Gas (LPG)

Income from sale of NGL and LPG to Jamshoro Joint Venture Limited is recognized based on provisional invoice price / quantity being the best estimate available. Any change in provisional price / quantity will be accounted for prospectively in the year in which there is change in price / quantity.

50.8 Recognition of gas development surcharge

Management has recognised income from gas development surcharge according to Final Revenue Requirement (FRR) issued by OGRA based on stay orders as mentioned in note 1.4.1. Further, gas development surcharge does not include the impact of stay orders as mentioned in note 1.4.2 since no revised FRR has been issued by OGRA in this regard.

51. BENAZIR EMPLOYEE STOCK OPTION SCHEME (BESOS)

On August 14, 2009, the Government of Pakistan (GoP) launched Benazir Employees' Stock Option Scheme ('the Scheme') for employees of certain State Owned Enterprises (SOEs) and non-State Owned Enterprises where GoP holds significant investments (non-SOEs). The scheme is applicable to permanent and contractual employees who were in the employment of these entities on the date of launch of the Scheme, subject to completion of five years vesting period by all contractual employees and by permanent employees in certain instances.

The Scheme provides for a cash payment to employees on retirement or termination based on the price of shares of respective entities. To administer this scheme, GoP shall transfer 12% of its investment in such SOEs and non-SOEs to a Trust Fund to be created for the purpose by each of such entities. The eligible employees would be allocated units by each Trust Fund in proportion to their respective length of service, and on retirement or termination, such employees would be entitled to receive such amounts from Trust Funds in exchange for the surrendered units as would be determined based on market price for listed entities or breakup value for non-listed entities. The shares relating to the surrendered units would be transferred back to GoP.

The scheme also provides that 50% of dividend related to shares transferred to the respective Trust Fund would be distributed amongst the unit holder employees. The balance 50% dividend would be transferred by the respective Trust Fund to the Central Revolving Fund managed by the Privatization Commission of Pakistan for payment to employees against surrendered units. The deficit, if any, in Trust Funds to meet the re-purchase commitment would be met by GoP.

The Scheme, developed in compliance with the stated GoP policy of empowerment of employees of State Owned Enterprises need to be accounted for by the covered entities, including the Holding Company, under the provisions of amended International Financial Reporting Standard 2 – Share-based Payment (IFRS 2). However, keeping in view the difficulties that may be faced by the entities covered under the Scheme, the Securities & Exchange Commission of Pakistan on receiving representations from some of entities covered under the Scheme and after having consulted the Institute of Chartered Accountants of Pakistan has granted exemption to such entities from the application of IFRS 2 to the Scheme.

Had the exemption not been granted there would have been no impact on the results of the Holding Company as the annual return of the Holding Company is determined under the regulatory revenue requirement, which would have covered any additional cost if incurred by the Holding Company in respect of the aforesaid Scheme.

52. GENERAL

52.1 Figures have been rounded off to the nearest thousand rupees unless otherwise stated.

52.2 Corresponding figures have been rearranged and reclassified, wherever necessary.
