Message from the Managing Director

Dear colleagues,

Ramadan is the month of blessings. It is a chance for us to make things right and make a difference in a lot of different ways. One such way is by giving charity. It can be an act of goodwill or a deed that goes unnoticed by many, but in the eyes of the ones you've helped and in the eyes of our Creator, such deeds can be a beautiful thing.

This year, Ramadan is going to be tough, not only due to the rising heat, but also because of the prevailing COVID19 crisis.

SSGC has always believed in bringing a positive change in the society, one step at a time. This year too, we have stepped up our efforts to help those in need. Our teams have dedicatedly been working towards resolving our esteemed customers' issues. Furthermore, we have heightened our CSR efforts to aid those fighting COVID19.

I hope and pray that all of us are able to come out of this crisis stronger, better and more determined than before.

God bless us all.

Best Regards,
M. Amin Rajput

Dear readers,

C OVID-19 has led to the emergence of new type of soldiers, be it doctors, other healthcare professionals, law enforcement agencies, and all those who are playing a key role in helping the victims of COVID-19. While it is imperative to salute and applaud the efforts of those who have been fighting this Pandemic at the front lines, let us not forget our own SSGC heroes, who go out of their way to provide their customers a seamless experience and resolve their complaints on time.

In the wake of this crisis, we must appreciate the efforts of those brave soldiers in SSGC ranks who are still going outside and risking their lives for the sake of others. Let us take a moment to thank these precious souls, and pray for their safety. Let us also do all that we can to reduce the number of rising cases and take all the precautions together we can stent the spread of COVID-19.

Stay safe. Take extreme care.

May we all get through this crisis with ease. Amen!

SSGC provides monetary
support to healthcare
institutions to fight
against COVID-19

Sui Southern Gas Company Limited

Truly sensing the gravity of this current pandemic situation in the country where the menace of Coronavirus is spreading fast, SSGC realizing the hardships of doctors and paramedic staffs in fighting COVID-19 with difficulties in accessing the protective gears, and relevant items in this fight, rose to the occasion and supported leading hospitals/health institutions spread over SSGC's franchise provinces of Sindh and Balochistan that are offering COVID tests/isolation services without charging any amount to the patients.

SSGC under its CSR program facilitated

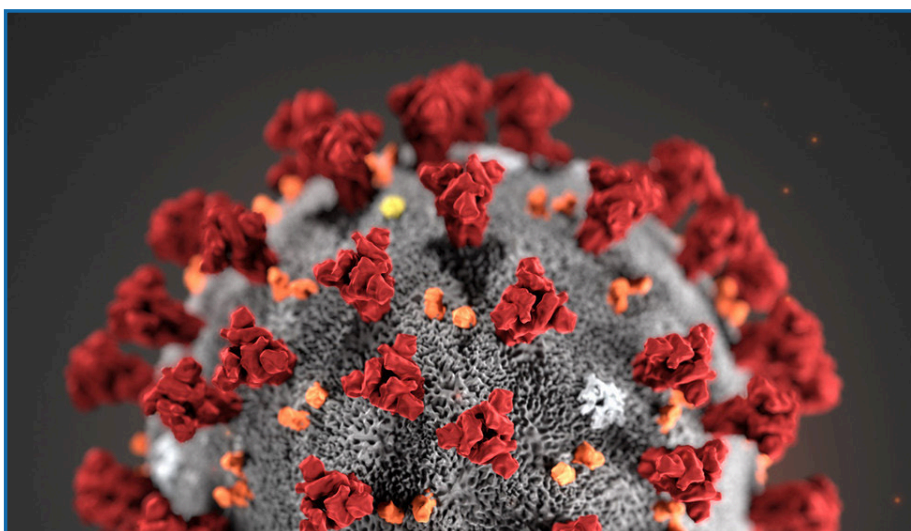

eleven such healthcare institutions by helping them in procuring items and articles needed to fight this pandemic, such as protective gears for healthcare professionals, face masks, gloves and other relevant articles or by supporting them in meeting their various expenses being incurred in fighting COVID-19.

On behalf of SSGC's Board of Directors and Management, these facilitations cheques were also delivered in Karachi to the Field Isolation Center (Expo Center), The Indus Hospital, SIUT, JPMC, Dr. Ruth Pfau Civil Hospital and Dow University of Health

Sciences. These health care centers organizations highly appreciated SSGC's role as a socially responsible citizen.

Facilitation cheques for health care organizations in Sindh and Balochistan were also delivered to Al Mustafa Library and Welfare Society, Gambat Institute of Medical Sciences, Gambat, Shaheed Muhtarma Benazir Bhutto Medical University, Larkana, People's University of Medical and Health Sciences for Women, Nawabshah, Bolan Medical Complex Hospital, Quetta, Sandeman Provincial Hospital, Quetta. 

SSGC contributes Rs. 30 million to COVID-19 Relief Fund

SSGC contributed Rs. 30 million to PM's COVID-19 Relief Fund. The announcement to this effect was made by Chairperson SSGC Dr. Shamshad Akhtar during the Ehsaas Telethon transmission that went on air in a number of Pakistani channels in late April 2020. 📺

SSGC achieves more prosecution success

The honourable judge (District and Sessions Judge) of Gas Utility Court in Karachi West recently dismissed the bail of an accused name Javed for stealing gas directly from the main line and sent him back to the jail custody.

Meanwhile, on the direction of Gas utility Court/ Session Judge Larkana, two accused namely Zohaib Ahmed and Waqar Ahmed submitted theft claims, in favor of SSGC. FIR was lodged against the two accused as per (Gas Theft Control and Recovery Act), 2016, in the jurisdiction of Agra District Khairpur Police Station for illegally using gas for ice factory. In the 4th post arrest bail application, Allah Muhammad who was charged with illegal direct connection of gas for running a restaurant, submitted the remaining theft claim towards the final settlement of quantum of loss to SSGC. FIR was lodged against the accused in Karachi. Three earlier bail applications of accused were rejected by the Honourable Court.

The Honorable High Court of Sindh Bench Larkana of Honorable Justice confirmed bail application of accused Irfan Ali Abro on the directions of High Court after the accused deposited the quantum of loss in favour of SSGC. FIR was lodged against the accused for running an ice factory on the commercial basis through direct gas from SSGC's service line.

The Prosecution Wing of the SS and CGTO department argued the cases. The three joint survey teams comprising of the representatives of the Company's Measurement, Sales, and SS & CGTO Departments, carried out detailed inspection of some eight factories in Karachi. Detailed reports are being initiated for necessary actions by Sales, Measurement and Billing Departments for violations of Gas Sales Agreements, Extra Connected Load and meter size, to be addressed by given timelines.

The Technical Wing of Security Services and Counter Gas Theft Operations (SS and CGTO) team carried out a technical analysis of cyber locks, industrial meters and EVCs as part of Operation Grift, the Company's anti-gas theft campaign, in seven industrial units in Karachi's Eastern Zone. All pre-programmed locks, after reconfiguration were installed and EVCs of three of the units were found malfunctioning. Field Activities were created in the system for Measurement Departments to rectify faults and process short billing claims. ■

Customers appreciate prompt service

Here are two customers' testimonials received via Customer Complaints whatsapp that encouraged us immensely.

Due to COVID-19, the country is on a state of lockdown. Yet one can trust SSGC team to be there for their customers despite these testing times.

Few days ago I experienced gas leakage from my service pipeline at night and at once dialed 1199 to report the issue.

Within half an hour SSGC team reached the spot and rectified the problem. 📍

**Adeel uz Zaman,
Latifabad Hyderabad**

SSGC is responding promptly to customer complaints even during these tough times.

Yesterday I called 1199 as the gas line was leaking from the pipeline outside my residence at Sindh University Society Jamshoro.

Your team reached the site in just a few minutes and checked the leaking part.

They closed the gas flow and replaced the damaged part. Good job, SSGC. 📍

**Prof Dr Syed Farman Ali Shah,
Former Pro Vice Chancellor,
MUET, Jamshoro**

Balochistan Region - Ensuring sustainable gas supply

Anwar Baloch, ADGM (Distribution) recently briefed Agha Hassan, MNA and MPAs Naseer Shawani and Ahmed Nawaz Baloch who visited the site of the newly connected 16 inch dia. pipeline with the existing 16 inch dia. supply main at Sariab Road, Quetta. 📍

SSGC responds promptly to industries call

On request from a reputed pharmaceutical company, SSGC's ADGM Maintenance Hyderabad dispatched a team to upgrade dedicated gas lines of the company. Work was completed on fast track despite the lockdown so that the pharmaceutical company can expedite production of medicines with increased gas load. 📍

Team SSGC braves COVID-19 to diligently serve customers

SSGC remains in frontline to ensure uninterrupted gas supply to its customers. Pictures show Sub Zonal

Manager Ziarat and his team performing their duties despite the lockdown in the province.

Also seen here is a rehabilitation project in Balochistan. 📍

Raids undertaken against direct theft

On a complaint received on official whatsapp number by SSGC's Customer Relations Department, the Maintenance team raided several houses in American Quarters in Hyderabad that were

involved in direct use of gas. The team made prompt disconnections.

Meanwhile on a complaint, SSGC's Gas Theft Control team detected underground theft in

Geo Meher Village in Larkana Region on April 16, 2020. Three houses were found using gas illegally through clamps that were summarily disconnected. 📍

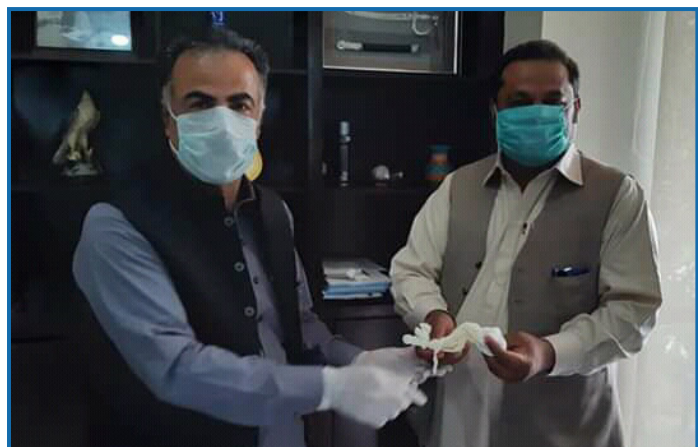

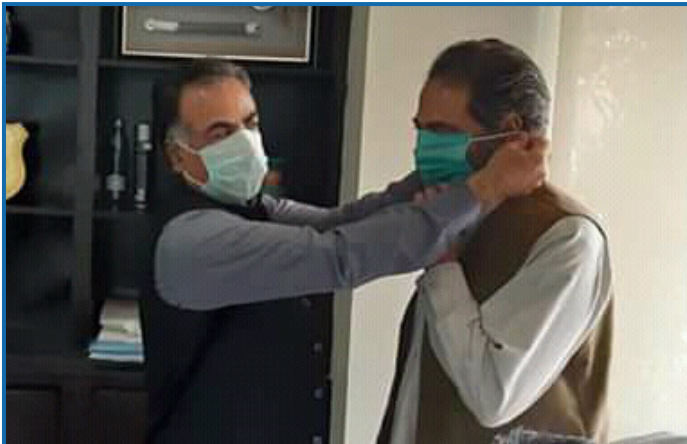

COVID-19 – Employees provided with masks

S SGC has made it a point to ensure all its executives and workers on the field strictly follow guidelines for

protecting themselves and people around them from COVID-19. Recently, Anwar Baloch ADGM (D)/HOSBU and Sardar Khan Badani,

CBA General Secretary distributed masks to the executives and staff from the Balochistan Region. 🇵🇰

Earth Day Turns 50

April 22, 2020 marked the 50th anniversary of Earth Day 2020. Since its inception in 1970, Earth Day continues to grow as a worldwide phenomenon focused on promoting clean living and a healthy, sustainable habitat for people and wildlife alike.

Celebrating Earth Day serves as a conscious reminder of how fragile our planet is and how important it is to protect it. We celebrate Earth Day to continue promoting environmental awareness and to remind everyone that we can protect the earth in our everyday lives as well.

Through its CSR efforts, SSGC has attempted to carve out an environmentally clean and sustainable society around us. The Company has repeatedly invested in projects that include mangroves conservation, beach cleaning activities and installation of bio-gas systems in far flung villages.

There are various other ways too, to celebrate Earth Day not only on April 22 but every day of the year. Keeping the environment clean, safe and enjoyable for all of its inhabitants is a full-time job that anyone can participate in. 

The Iron Lady - Asma is alive in our hearts

I believe that the Almighty chooses special people to test them with hardships and I am one of them - Asma Butt

On the night of April 7, 2020, SSGC lost a real fighter. One of the most respected members of the SSGC fraternity, Asma Butt left for heavenly abode. She had battled her way through myriad difficulties and successfully beat the deadly disease of cancer twice. In doing so, Asma became a source of inspiration for many around her. She didn't just carry out her routine tasks as In-charge of MD's Secretariat. She was the President of SSGCWA, the association she effectually used for helping female employees polish their abilities and resolve their issues while standing on their own two feet. Asma struggled indefatigably for the empowerment of female employees and via SSGCWA gave them a platform to stand up and be counted.

She was a teenager, studying in eighth grade, when her father, having suffered from ill health, passed away. Soon after her father's death, Asma Butt, being the eldest of three siblings, took it upon herself to support her siblings and widowed mother. Her burden eased to an extent when she landed a job at a private company after her graduation. A few more jobs later, in the early 2000s she began her stint at SSGC as a human resource executive and in a short span of time, earned the acclaim of her superiors due to her

dedication and hard work. It was not long before she was chosen to assist the Company's senior management. Asma's impressive professional growth came about against a backdrop of grave personal tragedies. She lost her husband of heart attack just three and a half years into the marriage. She was shattered yet life for her had to go on. Instead of lamenting the loss for long, she once again began her battle against all odds. Asma resumed her education, completed her MBA and all this time, continued with her day job at SSGC as its active member. Nevertheless, her struggle was not to end yet.

In 2015 she was diagnosed with cancer. She had two choices – one to give up and the

other to beat it. She selected the second option. Asma went through many painful chemotherapy sessions while remaining on leave from work for several months. By the time her treatment ended, she was exhausted yet undefeated. She used her struggle against cancer to inspire other men and women fighting the deadly disease. She was a member of a cancer support group at AKUH, inspiring others to brave cancer. She narrated her experience of battling the disease in seminars. All this time she led SSGCWA ably while enthusiastically playing a pivotal role in bringing into fore issues such as environment preservation and women's rights through symposiums and speakers' sessions inside and outside SSGC.

A couple of years ago, she was diagnosed with the deadly disease again. This time around, it had affected her liver. The experience was more painful and exhausting than the previous one, and the treatment more intense. Yet she battled on, only to lose the battle on the night of April 7, 2020. The indomitable will and the resilience Asma displayed during her lifetime is something SSGC will never forget. Asma, you will always be in our hearts. For inspiration, we will always look up to you.

Benefits of fasting as proven by science

1. Promotes blood sugar control by reducing insulin resistance
2. Promotes better health by fighting inflammation
3. Enhances heart health by improving blood pressure, triglycerides and cholesterol levels
4. Boosts brain function and prevent neurodegenerative disorders
5. Aids weight loss by limiting calorie intake and boosting metabolism; and
6. Increases growth hormone secretion, which is vital for growth, metabolism, weight loss and muscle strength

THINGS TO DO IN RAMADAN

1. FAST FOR THE SAKE OF ALLAH
2. OFFER OBLIGATORY PRAYERS
3. LEARN AND RECITE THE QURAN
4. RECITE MASNOON ADHKAR
5. OFFER SALAAT, AND TARAWEEH
6. MAKE LOTS OF DUA AND ASK FOR FORGIVENESS
7. GIVE CHARITY MORE THAN EVER
8. LEARN MORE ABOUT ISLAM
9. FOCUS ON BECOMING A BETTER MUSLIM

Activities to do With Your Kids this Ramadan

The Holy month of Ramadan is here and with the current situation of lockdown and school holidays, kids need some activities to keep them busy during fast. Here are a couple of ideas which you can implement with your kids and make Ramadan more special.

MAKE A SPECIAL PRAYER AREA

Start by selecting a corner of your home and making it a special prayer area for your family, especially kids. Decorate with fairy lights and placards so that your kids can enjoy the act of praying.

STORY TIME

Take out time to tell your kids about all the Prophets who have been sent to guide humanity to the right path. Teach them about the righteous and their behaviour to inculcate the habit of gaining knowledge and retaining it.

MAKE IFTAR SPECIAL

While making iftar, have your kids help you around the house, along with chores. Teach them the value of making iftar special by including them in everything that you do.

RECITE QURAN

Have your kids join you in reciting Quran so that they learn the importance of learning and reciting the Holy Book during Ramadan.

ENERGY SNAPSHOT

What will the world look like after Coronavirus

After many weeks of lockdowns, tragic loss of life, and the shuttering of much of the global economy, radical uncertainty is still the best way to describe this historical moment. Will businesses reopen and jobs come back? Will we travel again? Will the flood of money from central banks and governments be enough to prevent a deep and lasting recession, or worse?

This much is certain: The pandemic will lead

to permanent shifts in political and economic power in ways that will become apparent only later.

It is expected that the mode of doing business will change with many business already shifted to working and operating remotely. Work from home, while prevalent in many developed countries will see new heights and adoption rate in developing and third world countries. Policy makers will have to figure out a way to deal with the resulting

chaos of this pandemic. Economies will need time to recover from the losses and it will take some time before things begin to normalize.

So while changes and going back to prosperity might be slow, there will be a paradigm shift in the way people lead lives and things will not remain the same. Countries and people will evolve, and lifestyles will differ greatly once this crisis is over. ●

Climate crisis: Coronavirus causing collapse in demand for fossil fuels while renewables make major gains

Pandemic on course to cause largest decrease in emissions ever recorded, six times larger than the previous record drop in 2009 following global financial downturn, says International Energy Agency.

Global energy demands are set to plunge amid the worst shock to the sector in 70 years due to the coronavirus crisis, with fossil fuels on course for a historic decline and renewables set to gather greater momentum, according to the world's energy watchdog.

The International Energy Agency said the world's CO₂ emissions are expected to fall by 8 per cent this year as a result of the pandemic, which has shut down much of the global economy and caused a collapse in energy demand seven times greater than the decline after the 2008 global financial crisis.

The IEA's Global Energy Review projects that energy demand will fall 6 per cent in 2020, which the agency described as "unprecedented", and "the equivalent of losing the entire energy demand of India". Renewable electricity is forecast to be the

only energy source resilient to the enormous slump caused by the pandemic and the only area expected to see growth in 2020.

"This is a historic shock to the entire energy world. Amid today's unparalleled health and economic crises, the plunge in demand for nearly all major fuels is staggering, especially for coal, oil and gas.

Only renewables are holding up during the previously unheard of slump in electricity use," said IEA executive director Dr Fatih Birol.

ایڈیٹر کے قلم سے

محترم قارئین کرام!

یہ شمارہ ان لوگوں کے نام ہے جو کرونا وائرس سے لڑنے کے لئے کوششیں جاری رکھے ہوئے ہیں۔ چاہیے وہ ڈاکٹر ہوں یا دوسرے صحت کے شعبے سے منسلک افراد ہوں، قانون نافذ کرنے والے ادارے ہوں یا وہ سب افراد جو کسی بھی طرح سے کرونا وائرس کے شکار مریضوں کی مدد کر رہے ہیں۔ یہی سب اس سب صورتحال میں ہمارے حقیقی ہیرو ہیں۔ جہاں سچ ہے کہ ان سب ہیروز کے کردار اور قربانیوں کو فراموش نہیں کیا جاسکتا وہاں ہمیں ان گمنام ہیروز کو بھی نہیں بھولنا چاہیئے جو انتہائی لگن و جانفشانی کے ساتھ سوئی سدرن گیس کمپنی کے صارفین کو بلا تعلق گیس کی فراہمی یقینی بنائے ہوئے ہیں اور ان کی شکایات کا ازالہ کر رہے ہیں جب کہ ایک بڑی تعداد اپنے آپ کو محفوظ رکھنے کے لئے گھروں میں مقیم ہے۔ ہمیں ان سب کی کاوشوں کی بہت قدر کرنی چاہیئے جو کہ اپنے آرام و حفاظت کو بالائے طاق رکھتے ہوئے عوام کی فلاح و بہبود کے لئے جدوجہد کر رہے ہیں۔ ہمیں ایک لمحہ نکال کر دل سے ان لوگوں کا شکریہ ادا کرنا چاہیئے۔ اس کے ساتھ ساتھ ہمیں اپنے طور پر پوری کوشش کرنی چاہیئے کہ وائرس کے پھیلاؤ کو روکا جاسکے اور ماہرین صحت کی جانب سے بتائی گئی احتیاطی تدابیر پر بھی بھرپور طریقے سے عمل پیرا ہونا چاہیئے۔ محفوظ رہیں۔ احتیاط اپنائیں۔

ہم دعا گو ہیں کہ ہم سب اس بحران سے آسانی کے ساتھ نکل آئیں۔ آمین

شکریہ
